## Ladies, Attention!

During the next week or ten days you'll have a lady caller. Don't take her for an agent or peddler, for she is not. She is only advertising a line of goods that your highly respected druggist, Mr. Henry R. Gering, (Gering & Co.) has decided to handle and carries a full stock at all times. These ladies are going out to each home to show the line of goods for him, and any information in regard to these goods, and their recommendations will be cheerfully given by them.

## Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle wrapper, what his medicines are made of and why they are so good. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms take into your stomach Dr. Pierce's Favorite Prescription, a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

## IN A CRITICAL CONDITION

### The Injuries of Thomas Wiles More Serious Than at First Thought

Thomas Wiles, of whom mention was made some days since in this paper as having sustained a very serious accident at his saw mill two miles west of Weeping Water, is now in a very critical condition. On last Friday he was removed to Weeping Water, and on Sunday to his home four miles north of Weeping Water. He is now under the care of a trained nurse, and a telephone message from his bedside last evening said that his condition was very serious and that they did not entertain much hopes of his recovery. The attending physicians say there is a pressure on the brain caused from the blow which he received from the log he was unloading at the mill, which is causing him much trouble. He is partially paralyzed in all his limbs, both upper and lower, as a result of the accident.

Mr. Wiles is fifty-six years of age, and has not had robust health for some time, and this accident therefore is doubly severe on him on that account.

## Wedding at Weeping Water

At the home of Mr. and Mrs. Peter Crabtree, on the south side was the scene of a happy occasion when their daughter Miss Cora was united in marriage to Mr. H. Lee Marshall.

Both the bride and groom have grown up in this vicinity and are too well known to need any introduction. The parlor was tastefully decorated in colors suitable for the occasion; as Miss Mildred Butler played the wedding march the handsome bridal party—Miss Margaret Jameson and M. Bert McNamee acting as bride's maid and groomsmen, took their station under the beautiful wedding bell where Rev. Lemmon spoke the sacred words which united the happy couple for life. After the ceremony the guests were treated to punch and other refreshments. The punch bowl being presided over by Miss Stella Jewel. This happy event was witnessed by about fifty relatives and friends, all of whom together with scores of others unite in wishing this young and happy couple a prosperous journey through life.—Weeping Water Herald.

## Ice Cream Social.

The camp of the Modern Woodmen of America of Mynard will give an ice cream social at their hall on the evening of July 6. A nice time is expected and preparations are being made for a large crowd. All are invited.

## Explorers Return

Judge H. D. Travis and J. M. Leyda returned last evening from their trip to Colorado, bringing up the rear of the party that left Plattsmouth a week ago to explore a portion of that state, and invest a few dollars in the soil of that climate if they could find anything to suit them. County Treasurer Wheeler got all he wanted of the soil and returned last Sunday morning, preferring to invest his surplus money in Cass county lands at the price of from \$100 to \$125 per acre, the price demanded out there for irrigated land. Messrs. Travis and Leyda remained longer than the balance of the party to see what they could see before returning. The climate and scenery is lovely, and they enjoyed the trip as an outing, and took several trips on broncos over and up mountains. While they did not invest, they return very much benefitted in appearance and health as a result of the trip, and feel as though they could now settle down to business.

## Pasture.

I can furnish pasture for a number of ber of cattle, if application is made soon. The pasture is in excellent condition.

## Pecenorski-Janda Wedding

At the Bohemia Catholic church at South Omaha yesterday at 10 o'clock a. m., in the presence of a large number of people, relatives and friends of the contracting parties, Rev. Father Chundelock performed the ceremony which joined the lives of Miss Francis Janda and Dr. Robert Pecenorski. After the ceremony the bridal party repaired to the home of the bride's parents, Mr. and Mrs. Thomas Janda, where a sumptuous repast was spread and to which all did ample justice. Many and appropriate were the presents received.

A large number of people were present from this city, a list of which appeared in yesterday's paper. The bride is one of the most estimable of young ladies, was born and grew to womanhood in this city where she has won and holds the respect and admiration of all who know her. She with her parents moved to South Omaha from here a few years ago.

The groom, Dr. Pecenorski, is a young man of more than ordinary ability and has won for himself a name and reputation as a first-class physician. The Journal joins with the many friends in wishing the couple who have joined their lives under such auspicious circumstances, a most happy and prosperous life. The newly married couple will depart for Valley Falls, Kansas, where the Doctor has a lucrative practice and where they will make their future home.

John Lee departed for Neligh this afternoon, where he will visit with relatives for some time.

## Were Married in Denver

At the home of Thomas Janda, Denver, Colorado, Tuesday, June 24, were married Miss Josephine Droege and John Ulig. These two young people were both born and grew to manhood and womanhood in our city, and are loved and respected by our citizens. John Ulig worked for Mr. Pepperberg for a number of years and is a first-class cigarmaker and has a good position in Denver.

Miss Ulig, formerly Miss Droege, attended and graduated from the public school here, afterwards taking a course in the business college at this place.

Miss Droege was employed in the cigar factory of Julius Pepperberg, where she met and fell in love with her husband. She also worked in the glove factory, and was very quick to learn, and soon became an expert glovemaker. Mr. Ulig has been working in Denver about six months and has a good position. Miss Droege went to Denver about two weeks ago, and visited with her friend, Mrs. Thomas Janda, until the wedding two days ago. The newly married pair expect to make Denver their home for the present. The Journal joins with a host of friends in this city in wishing them a life as full and complete as a day in June and may happiness and prosperity crown their wedded life.

## BIG BLAST AT A STONE QUARRY

### Powder Used to Clear Mass of Dirt From Face of Rock

A special from Nehawka under date of June 26, says: "The biggest blast ever put in at Vancourt's stone quarry was fired this afternoon. It consisted of 155 kegs of blasting powder and was made for the purpose of stripping the dirt from a ledge of rock. It was in the nature of an experiment to see whether it was cheaper to use powder or teams for its removal. Holes were drilled through the dirt twenty feet to the rock and fifteen feet back from the face of the ledge, and enlarged at the bottom by the firing of dynamite. Twenty-five kegs of powder were then put in each hole and the charges were fired by electricity. A muffled roar was heard and an immense volume of dirt and smoke shot 300 feet into the air and a mass of dirt 300 feet long, twenty feet thick and fifteen feet deep was lifted bodily and thrown a distance of twenty rods each way from the blast. Mr. Lundberg, the foreman, says the experiment was a success, as he has moved 60,000 cubic yards of dirt and uncovered 750 cars of rock with six days' actual work and a total cost of \$250."

## A DAY IN THE WOODS

### St. John's Sunday School Enjoys an Outing, and Had a Good Time

The picnic yesterday at Ficklers' grove, three and a half miles south of town, given to the children of St. John's Sunday School was one of the enjoyable events of the season, and one of the Journal's little friends who was there said he "never enjoyed such a good time in his life." They were conveyed to the grounds in carriages, and the grove was an ideal spot for pleasure, and the day was propitious for such an event. Games and innocent sports of all kinds were indulged in. Also various other pleasures, such as races, and contests of this order. The supply of good things to eat was plentiful, and consisted of many of the delicacies of the season, including ice cream. The merry picnickers returned home late in the evening feeling much refreshed by the day's outing, and the little ones were so rejoiced that they are ready for a repetition almost any day. These kind of outings are a good thing for the children, and it makes older heads feel good to see how immensely they enjoy such occasions.
