 The purpose of the Peco Theatre Co. is to give the biggest show ever seen in your city for 10c. We are here to stay and would like to have you come and see what we have. To the ladies and children we extend a cordial invitation. As an extra inducement we are giving away valuable presents to the ladies at each performance, as several ladies can tell you who have received them so far. Watch the local news columns of your papers for the names of the ladies who draw the prizes each night. Nothing the least suggestive will be shown. Come and stay as long as you like. The show starts at 8 o'clock. We would like to have you all attend twice a week at change of program. The Arcade in the lobby is free. Admission to the Moving Picture Theatre is 10c.

In the taking of the three children by Mrs. Quivey, a partial execution of the judgment has been enforced. Mrs. Quivey will return for the other child, the eldest child, Ira Stull, who could not be found today. That the conditions under which these children have lived goes without a dispute. All children have by a right inherent which should not be denied them, the opportunity of being surrounded during that time, when innocence and purity are a child's unquestioned heritage, with decent influences.
 George E. Sayles came in this morning from Cedar Creek and is looking after some business pertaining to the Duff Grain company, whose manager he is at this place.

She Remembered It Was Full
 There are more people who take notice of things pertaining to astronomy than one would think. Last evening most people perceived the eclipse of the moon, that is those who knew it was to occur. A young couple—not so awful young either—but classed as young—sat watching the stars and brushing off a mosquito now and then with one hand while the other hand of each had sought the company of that of their companion. All at once the young man said: "Why, what's the matter with the moon?" "O, yes, I remember, the moon was full when it came up, wasn't it?" said his companion as she disengaged her little hand from his strong warm clasp (really warm) to replace a stray lock of hair which persisted in hanging down in her face and to smite a mosquito which was nibbling at her ear. "Sure, I read it in the Sunday paper," said the gallant swain, as they got up off the bench and strolled out of the park, ostensibly on their way home. While our informant went on his way whistling a merry tune, thinking the while "well, this is not such a bad old world after all."

Superintendent City Schools.
 At high noon today John W. Gamble succeeded to the office of superintendent of the city schools, succeeding E. L. Rouse who has accepted the chair of elementary school at Peru. The vacancy in the office of county superintendent, to which Geo. L. Farley was appointed some time since by the board of county commissioners passed into his hands also as the clock in the court house struck the hour of twelve. It's now J. W. Gamble Superintendent of the city schools and Geo. L. Farley, county superintendent.

Will Meet His Brother
 Ward Clark was a passenger to Omaha this afternoon, where he goes to meet his brother, C. W. Clark, of Ogden, Utah; who will pass through Omaha today. Mr. C. W. Clark is in the employ of the Union Pacific at Ogden, and is on a trip to Chicago. Ward had not seen his brother for a number of years, and as he will have a few hours in Omaha, he went up to visit with him during his stay there.

Two Kinds of People
 Henry Ward Beecher said that there are just two kinds of people, the "I Wills" and the "I Can't's." The "I Wills" go ahead and do things and the "I Can't's" sit around and criticize them. This is true as far as it goes, but there are some who are willing to join the "I Wills" but sickness puts them in the class of "I Can't's." Many of them can easily help themselves by using Triner's American Elixir of Bitter Wine. This remedy will almost instantly put their digestive organs in perfect shape, will give them new blood and with it new energy. It should be used by those who feel tired without apparent cause, who are despondent, morose, without energy, whose appetite is weak, whose complexion is muddy, who have some eructations and other digestive troubles. Give it to all who need health, strength and energy. At drugstores. **Jos. Triner, 739 So. Ashland avenue, Chicago, Illinois.**

Bound Over to District Court
 The arrests made under the juvenile act, for the illegal sending of minor children to saloons, there appeared on the summons issued, Vincent Petacek, George Grebe, Louis Kissling and Frank Johnson, who in their appearance admitted the facts but claimed they had a right to do so. They pleaded not guilty waving preliminary examination, gave bond to appear at the district court in the sum of \$500 each.

A. H. Haffke was a passenger to Gibson this morning where he is engaged with the Burlington.

No Trace of Disease
 any one of the three years, 1901, 1902 or 1903 at or following the International Live Stock Exposition at Chicago. Is it remarkable? If you saw the shows you know the countless thousands in value assembled. There was anxiety among breeders. They had to be assured against the spread of contagious diseases. The management met the demand each year by disinfecting with famous **ZENOLEUM**
 Zenoleum exclusively. That's high, reliable testimony. Do you use Zenoleum? It destroys disease germs, avoids contagion, cures scab, cholera and skin diseases, kills lice, removes stomach and intestinal worms, establishes and maintains for live stock ideal sanitary conditions.
"The Great Coal Tar Carbolic Disinfectant Dip."
 Sample gallon of Zenoleum \$1.50, express prepaid. 5 gallons \$6.25, freight prepaid. If you breed live stock you should learn what Zenoleum will do for you. Ask for free Zenoleum handbooks, "Veterinary Adviser" and "Tigger's Trouble." A postal will bring them.

Accident at the Shops.
 While at work in the brass polishing department of the Burlington shops yesterday, John Claus, the foreman, had a very severe accident which caused him to take a lay-off from active work in his department by the bursting of a rapidly revolving emery wheel. While he was working and had just turned around to go away from the wheel for some article that he was needing, the wheel bursted while running at a high rate of speed, and the pieces struck Mr. Claus in the side bruising his side very badly. Fortunately it was that no bones were broken. Had he been, as he was before, standing directly in front of the wheel, the injury would have been much more serious than it was, for the blow must necessarily have been a glancing stroke.
