HAD AN AWFUL TIME

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for it.

MUST LABEL PACKAGES

Senator Root Answers Questions Propounded by Food Commissioner

So many letters have been received by Food Commissioner Johnson from liquor firms, claiming the new pure food and drug law will work injury to them and requesting lenient treatment in its interpretation, that the food commissioner in order to feel assured of the ground he has taken for strict enforcement of the statute, wrote to State Senator Jesse L. Root of Cass county, asking him as to the intent of the legislature regarding certain sections, says the Lincoln News. Senator Root has sent this reply to the inquiry:

"DEAR SIR: Your favor of the 2d inst. at hand. You are in accord with my understanding of the pure food law. Retailers were exempted from stating the net weight, etc., on packages not only because the consumer might watch the weighing, but because purchases are frequently gauged by value, as a dime worth, a quarter, etc., and because the packages are often small, made up in haste and a regulation requiring the branding of the package would be such an interference with business that the court might not uphold."

"On the other hand the package goods and liquors put up by manufacturers are prepared with deliberation, in containers uniform in capacity, and under such circumstances that the manufacturer can unerringly state the contents as to weight or quality. It will be but little trouble and trifling expense for him to apprise the purchaser what he is buying. The requirement as to per cent of alcohol is imperative."

"In my judgment Nebraska's market holds forth sufficient inducement to manufacturers and jobbers to compel a compliance with the pure food law if they know they must do so. The purveyors to the people ought not to object to honesty and fairness, and that is all the law aims at in the particulars considered."

Cut Your Weeds

It would be well for some of the residents along the principal streets especially, to have their weeds cut before Labor day. A large number of strangers will be here that day and the procession may pass right by your place. You would not want Governor Sheldon and the other speakers to note your carelessness—would you?

EVER HAVE IT?

If You Have, the Statement of this Woman Will Interest You

Ever have a "low down" pain in the back? In the "small," right over the hips? That's the home of backache. It's caused by sick kidneys. That's why Doan's Kidney Pills cure it. Plattsmouth people endorse this. Read a case of it.

Mrs. Joseph H. Smith, living at corner of Second and Diamond streets, Wintersteen Hill, Plattsmouth, Neb., says: "Owing to a derangement of the kidneys I have suffered a great deal for years from pain in the small of the back. I was troubled the most when on my feet or from any over exertion. Difficulty with the secretions annoyed me and especially at night when my rest would be disturbed. My husband had his attention called to Doan's Kidney Pills and brought home a box for me from Gering & Co., drug store. I used them according to directions and their use did me an infinite amount of good. The pain was relieved and there was much improvement generally. I pronounce Doan's Kidney Pills a most excellent kidney remedy."

Out With It—Who Were They?

The Palmyra Items says: "Sunday five young people, two boys and three girls, were swinging on a rope that hung over a creek in the chautauqua grounds at Elmwood. Just as the swing was over the middle of the creek the rope broke letting the occupants fall about ten feet into the stream. All received more or less of a ducking, and as they were in a strange town, they had to spend the rest of the day in wet duds." It is hinted that one or two of them lives in the vicinity of Plattsmouth, but the Journal don't believe it.

Are you making arrangements to attend the celebration next Monday?

The Republican Muddle

A special from Lincoln, in speaking of the republican contest for the nomination for supreme judge, says: "Conservative republicans are expressing fear regarding the outcome of the election this year because of the bitter fight that has broken out in the primary contest. Charges have been made against both candidates, so that the democrats will have plenty of material for the election campaign, no matter which candidate is successful in the primary. The supporters of Judge Sedgwick are apparently confident of victory, and the same may be said of the men who are working for Reese. The wordy warfare between F. H. Abbott and Roscoe Pound has only helped to make the two wings of the party more bitter toward each other. Republicans may be found in Lincoln who predict victory for the democratic ticket this fall, because of the charges that have been made against the republican candidates."
