

# THE PRIMARY ELECTION TUESDAY

Throughout the State It Would Seem That Less Than a Half Vote Was Polled.

## THE RESULT IN CASS COUNTY

While Still in Doubt, It Looks Favorable for Beeson, Robertson and Farley on the Republican Side.

There being but one candidate for each office on the democratic ticket, of course there was but little inducement for the democrats to turn out and consequently the vote of that party was very light. Not so with the republicans with the exception of county clerk, treasurer and county assessor, and while the campaign was quite spirited in the race for the nominations for county judge, clerk of the district court and county superintendent of schools, it seems from the returns that a little less than a half vote of that party came out to vote. In this city the vote was very light and the same can be said of several precincts. From present indications and reports, it appears that Beeson for judge, Robertson, clerk of the district court and Farley for county superintendent of schools, are nominated although further returns may change this statement.

In this city but little interest was manifested it seems and this probably was the cause for a light vote. Farley received quite a majority in this city, but not near what he anticipated, considering this has been his home for nearly fourteen years.

It seems pretty hard to pry Robertson loose from the court house walls. He has been there so long, but as the vote in this instance would indicate the republicans are getting pretty tired of keeping one man there so long. Had there been anything near a full vote out the result might have been otherwise. The democrats have in the person of C. E. Metzger, a candidate for this office who will give him a hard scrap in this attempt to jar him loose from the soft place he is occupying and from the manner in which the republicans failed to endorse him at the primary, it is not going to be a hard matter to do.

The manner in which Farley secured the appointment for county superintendent does not set well with many republicans in Cass county. Besides he is not qualified for the position in this intelligent age, and those who voted against him at the primary are very well aware of the fact. His opponent on the democratic ticket, Miss Mary E. Foster, is an accomplished lady, one of the ablest in the county, and abundantly well qualified to look after the district schools of the county, nearly everyone of which are conducted by lady teachers.

There was no opposition for sheriff, assessor, coroner or surveyor on the republican ticket. This being the case, the tickets nominated as reported up to the hour of going to press, is about as follows:

- Democratic Ticket**  
 Supreme Judge  
 GEORGE L. LOOMIS  
 District Judge  
 HARVEY D. TRAVIS  
 County Judge  
 County Clerk  
 W. E. ROSENCRANS  
 Clerk of District Court  
 C. E. METZGER  
 Treasurer  
 FRANK E. SCHLATER  
 Assessor  
 H. M. SOENNICHSEN  
 Sheriff  
 A. J. BOX  
 Superintendent of Schools  
 MARY E. FOSTER  
 Commissioner  
 CHAS. R. JORDON  
 Surveyor  
 Coroner
- Republican Ticket**  
 County Judge  
 A. J. BEESON  
 County Clerk  
 F. A. BRICKA  
 Clerk of District Court  
 J. M. ROBERTSON  
 Treasurer  
 W. T. ADAMS  
 Assessor  
 H. F. KOPP  
 Sheriff

- CARL D. QUINTON  
 Superintendent of Schools  
 GEORGE L. FARLEY  
 Commissioner  
 TURNER ZINK  
 Coroner  
 B. I. CLEMENTS  
 Surveyor  
 E. E. HILTON

Late reports from the state at large, indicate the nomination of Reese on the republican ticket for supreme judge, and George L. Loomis for the same position on the democratic ticket.

The majorities on the county republican ticket so far as heard from is estimated as follows: Beeson, 50; Robertson, 75; Farley, 100. Zink for commissioner, is thought to be nominated by a small majority.

Reports from Nebraska City are to the effect that Warren, for district judge on the republican ticket has carried Otoe county by an estimated majority of 289.

The Journal will be able to summarize the returns more complete in tomorrow's issue. The returns as they arrive are sealed, and conjectures are always subject to changes.

## BASE BALL NOTES OF YESTERDAY

Prepared Especially for the Fans of Plattsmouth

**At Denver**  
 Denver 6; Omaha 1. Batteries: R. Adams and McDonough; Sanders, McNeely and Goding.

**At Pueblo**  
 Pueblo 4; Des Moines 1. Batteries: Ford and Yeager; Fitzgerald and Smith.

**At Lincoln**  
 Lincoln 11; Sioux City 3. Batteries: Jones and Zinran; Bressler and Slattery.

Standing of the Clubs	Won	Lost	Pct.
Omaha	79	54	.594
Des Moines	70	57	.551
Lincoln	71	58	.550
Denver	60	68	.469
Pueblo	59	69	.461
Sioux City	52	83	.385

**Where They Play Today**  
 Des Moines at Pueblo.  
 Sioux City at Lincoln.  
 Omaha at Denver.

## THE GLAD HAND TO LOOMIS.

Fremont Candidate Pleased With Reception at Plattsmouth on Labor Day.

(Fremont Daily Herald.)  
 "I was very much pleased and impressed with the warmth of hospitality and the courtesies of the Plattsmouth people," said George L. Loomis yesterday, speaking of his speech on Labor Day.

"They treated me with marked courtesy, and I was given a fine reception there. I liked the people very much and found them deeply interested in the questions. It was a fine gathering of people, and a number of excellent speeches were made."

### He Set a Date

A merchant in a town not a thousand miles from Plattsmouth who had a Swedish clerk, sent him out to do some collecting. When he returned from an unsuccessful trip he reported:

"Yim Yonson say he vill pay ven he sell him hogs. Yim Oleson, he vill pay ven he sell him wheat and Bill Pack say he vill pay in January."

"Well," said the boss, "that's the first time Bill ever set a date to pay. Did he really say he would pay it in January?"  
 "Veil, aye tank so," said the clerk.  
 "He say it ban a dam cold day ven you get that money. Aye tank that ban in January."

### Millions More for Farmers.

The report comes direct from New York that the American farmers' earnings are a thousand million dollars greater this year than last, according to a preliminary report on crops which will be published in the next issue of the American Agriculturist. The big gain will be entirely due to the increased prices of farm products, as the production in general will be fully 10 per cent less in quantity than in 1906 which was the bumper year.

"The farmer was never in so healthy a position as he is today, financially, socially, politically, mentally and spiritually," says the report. "The increase in the value of his real estate has been prodigious. He owes less money than ever before. Again the farmers' wants are greater. He is in the market for more and better breeding stock, farm implements, household goods and other merchandise."

## NOT AS TOUGH AS IT USED TO BE

Louisville Has a Record for Preachers and Candidates.

Louisville turns out more preachers to the square inch than any other town in Nebraska. Next Sunday evening the members of the M. E. church will have the pleasure of listening to a discourse by Rev. Fred Erwin, a Louisville boy who abandoned a very prominent career as a base ball pitcher for the ministry. Fred used to put some pretty hot ones over the plate when he played with Louisville and if his arm is as good now we may look for him to score a few runs for the gospel. Then there is Matt Delezene, another Louisville product who is studying for the ministry. And a short time ago Charley McIntire and his wife, both of them mind you, experienced a "call" to preach. They went to the Free Methodist conference and were assigned the pastorate at Lynch, in Boyd county. Now you fellows who have for years been pointing to Louisville as one of the toughest towns in the state, please stand up and confess that you were mistaken. Instead of Louisville being a tough joint we come nearer being entitled to the credit of conducting a seminary for the education of ministers. And if you would have further proof look if you will to the candidates for county office on the prohibition ticket: For county treasurer, Peter A. Jacobson; for county clerk, Frank Ingram; for clerk of the district court, James L. Delezene; for commissioner, William Wade, all of Louisville.—Courier.

### The Red Men on Labor Day

We had more things to say yesterday than we had space to say them, and as a consequence had to curtail some of the articles, others were left out altogether. We had intended to have given a full report of all the attractions and to have omitted none, but space would not allow. In the parade of which we did not say anything, were a number of very good floats, among which was John Hall's H. M. Soennichsen's, L. B. Egenberger's and the steam laundry. Together with this was the Red Men, which reminded one of a sure band of red skins, led by J. C. York, who in his make-up looked a sure enough Indian, the others were also good representations of the noble red men and was a good advertisement for the order they represented.

### State Fair Visitors.

Among those who are attending the state fair today, going on the special, which went on the old main line, were the following: Charles Warner and wife, Wm. Warga and wife, W. E. Dull, H. R. Manspeaker, C. D. Clatfelter, George Berger from Murray, J. A. Kiser from Mynard, Ed. Perry, Eddie Vallery, Henry Hull, Lizzie Bergman, F. G. Egenberger and wife, Russell Todd, Jacob Treitch and wife, J. Bergman, F. Kauffman, John Rutherford, Walter Baumeister, August Gorder, Paul Wolford, Mark White, W. C. Hamilton, L. S. White, Ben Horning, Walter Goehner, A. G. Bach, Claus Speck, Ed Spangler and wife, George and Henry Volk, Peter Munn, L. L. Wiles and wife, Joe Wiles and wife, Nicholas Klaurens, Ross Minford from Murray, A. L. Todd and wife, Mrs. Lonnie Todd, Mrs. E. R. Todd, Lafe Nelson and wife and a brother-in-law, J. E. McCarthy, Jacob Parr, Frank Benfer and wife, Chas. Perry, Ed. Perry, C. D. Spangler, Mrs. Adam Stoehr, Mrs. C. W. Stoehr, Miss Cora Meisinger. What the management at the state fair does not know about the raising of crops and the manufacturing of useful articles, they can learn by interviewing any of the above named people, all of whom are representative citizens of the county which has no superior in the state of Nebraska, and there is not another state in the union which surpasses our own.

### The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the national pure food and drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. F. G. Fricke & Co.

## J. W. DEWEESE PASSES AWAY

General Solicitor for the Burlington West of the Missouri River.

Joel W. Deweese, aged 63 years, attorney for the Burlington railroad, who has lived in Lincoln since 1879, is dead. He died shortly after noon Tuesday of cancer of the stomach and liver after an illness extending over a period of almost a year. Mr. Deweese leaves a widow, two sons and two daughters. All live in Lincoln except Wilford Deweese, who resides at Oxford. Funeral arrangements will be announced later.

Mr. Deweese was originally of the firm of Marquette, Deweese & Hall, but upon the death of Mr. Marquette he became the solicitor for the Burlington. He was regarded by members of the bar as a lawyer of exceptional ability and was unusually successful in litigations affecting the railroads. He was of a modest disposition and of a religious turn, teaching a class in the First Christian Sunday school and giving liberally of his means to charity. He came to Lincoln from Newton, Ia., where he practiced law.

Some weeks ago Mr. Deweese became worse and went to Wisconsin to consult a specialist about his health. Shortly after he arrived there he became critically ill and his family was notified. He managed to get home just a few days ago.

### Gasoline Stove Tank Leaked

This morning while breakfast was in process of preparation, the gasoline stove at the home of Will Rice caught fire by the leaking of the tank. In an instant the flames were rolling up and soon covered the stove and filling the room with fire and smoke. Will grabbed the stove and rushed out of the house with it in order to save the house and its contents, which he did. In doing so he received very serious burns on his right hand. He made haste in getting to a physician and having the member dressed, but not until immense blisters had formed over his entire hand. This accident will keep him from work for a long time and is very painful as well.

## FALLS FROM SECOND STORY WINDOW

And in the Fall Cuts One of His Feet Pretty Badly.

A small boy by the name of Jordan, son of James Jordan, who lives on the Speck island, below the city, had a very peculiar and painful accident happen him yesterday. While doing something in the second story of the house he by some means fell out of the upper window, and while descending, his foot struck one of the lower windows, breaking the glass and inflicting a very painful cut in his left foot, just across the instep. His father in all haste came to the city, bringing his son with him, with bandages and compressions to staunch the flow of blood. Arriving here he had the wound dressed and in the closing of the wound it required five stitches. The little fellow is resting as well as would be expected, but it will be a long time before his foot is well again.

### Agreeably Surprised.

The members of Oak Leaf camp No. 4248, of Murray, very agreeably surprised Mr. and Mrs. O. V. Virgin yesterday afternoon, it being their fifth wedding anniversary day, Mrs. Virgin being Receiver of the camp.

After spending the afternoon socially a two course lunch was served, after which all wended their way homeward, wishing each succeeding anniversary would be as pleasant.

### A Painful Uncertainty.

In case of sickness of a member of your family, everybody is anxious to help. Everything is done to relieve the suffering of the sick person and a medicine is suggested. You hurry to the drug store and back, full of that painful uncertainty, whether or not the medicine will have the desired effect. There was only one instance where there is no doubt as to the results, and that is Triner's American Elixir of Bitter Wine in all cases of maladies of the stomach and of the bowels. It not only gives instant relief, but will gradually perfectly cure the patient; it will give them a healthy appetite, will regulate the action of the bowels and strengthen all digestive organs. By making the digestion thorough, it will renew all blood, give new strength to the muscles and nerves, activity to the brain, a rosy hue to your skin. To healthy patrons it will preserve and increase their vigor and ambition. At drug stores, Jos. Triner, 799 South Ashland Ave., Chicago, Illinois.

### The Touch that Heals

It is the touch of Bucklin's Arnica Salve. It's the happiest combination of Arnica flowers and healing balsams ever compounded. No matter how old the sore or ulcer is, this Salve will cure it. For burns, scalds, cuts, wounds or piles, it's an absolute cure. Guaranteed by F. C. Fricke & Co., druggists. 25c

### Plattsmouth Boy in Ohio

James Hall, son of Mr. and Mrs. Dr. J. H. Hall, who has been in the east for the past two or three years, writes home that he is doing well and likes his place very well. Jim, as he is called, is now located at Columbia, Ohio, which is about three miles from Massillon, and is a town of a good deal of importance, having a good many large manufacturing establishments. James is now acting as store-keeper on the Tuscarawas Railroad at Columbia, which is the principal division. They have about seventy-five engines out of the place every twenty-four hours, making it average about one every fifteen or twenty minutes. James is climbing up in the scale of better positions, in more ways than one, in the better pay and the more responsible position. His many friends here will be pleased to learn of his advancement.

## NOT A BOSTON TEA PARTY HOWEVER

But Cups and Teapots Flew With Some Effect Just the Same

We have always thought discretion was sometimes the better part of valor, and one of the instances as it comes to us at this time is, when you can not get along with the wife of your bosom, it is better to let her have her own way, or dissolve the matrimonial bands which have connected you and let her sail her ship into whatever port she may and you do the same, rather than continue a bushwhacking warfare, to the disgrace and disadvantage of you both. There is a family living not a thousand miles from this town who got into a discussion the other morning, and the subject drew the tension so tightly and relations were so strained that snap they must, as the pop valve of their wrath was screwed down.

As the words passed the flash of the eyes of the husband and wife as they sat opposite at breakfast told that war was about to break. When the wife, with a less kindly light in her eye than beamed there when the honeymoon was young, intimated her unbelief in a certain remark her spouse had made, this aroused the ire of her husband to the extent that he said if she repeated the remark he would hurl a teacup at her. Her reply was: "You are a coward and afraid to do it!" Hardly had the words left her mouth when whack went the cup and struck her on the head, being shattered into fragments, cutting her head open with many gashes, which required the art of the physician to restore. The wily husband started to run but had only gotten his back turned when the teapot was hurled, striking the retreating figure full in the back of his neck, and running down his neck and back, scalding as it went. Here the hostilities ended. This kind of a procedure does not seem to us to speak well for members of a civilized community.

### A Very Successful Session

The Nebraska State Veterinary Association which met at Lincoln last Tuesday, September 3, was well attended, there being about eighty delegates present. An enthusiastic meeting was held and a permanent organization effected, with Dr. A. P. Barnes of this place as president and treasurer and B. H. Burd of Nelson was chosen secretary. The organization has members in one hundred and three different localities which covers all portions of the state. The association will take up the questions of necessary and unnecessary legislation. The latter being one which has caused to some extent, the springing into existence of the association. Dr. Barnes has been a hustler for the organization and it is through his efforts, as much as anyone, that the successful meeting which was just closed, was able to do the good work which it did. If the doctor can inspire the same rustling spirit into his fellow workers which he evinces himself, he will work a great amount of good for the profession in the near future. We hope the organization may do some good work.

### Will Hold Family Frolic.

The members of the P. E. O. society and their husbands will hold a family frolic in the park at the residence of Mr. and Mrs. T. H. Pollock tomorrow (Friday) afternoon, which is to mark the beginning of the coming year's work. The picnic will begin early in the afternoon and end with the supper hour, which will be served on the lawn, and a very enjoyable time is anticipated. During the summer they have a vacation from work of the society, and this gathering marks the beginning of the winter's work.

### Married Twenty-Five Years.

On last Monday, at the pleasant home of Mr. and Mrs. George Mapes occurred a very pleasant gathering, marking the twenty-fifth mile stone of their married life. Many of their relatives and friends gathered to make merry with them, and extend felicitations and congratulations on the arrival of the happy couple at their twenty-fifth year of their married life. A number of very useful presents were given and the best wishes for the future were extended by all who were in attendance.

## UP THE MISSOURI RIVER

Looks at Navigation in True Light of the Matter.

The St. Louis Republic, in speaking of navigation up the Missouri river, has the following to say in reference to the laudable movement:

"With a safely navigable channel in Missouri river as far up as Omaha and Sioux City we should hear no more talk of a coal famine in the northwest during the blizzard season.

"From the mines of Illinois, close to the river, barges would, during the summer and early fall, carry all the coal needed to distributing points along the river, whence the railroads would carry it by short hauls to the neighborhood in which it is burned.

"With such a channel the hundreds of millions of bushels of grain and the hundreds of thousands of cattle and hogs grown in the productive states of the Missouri valley would be marketed at a saving of freight rates that would build up the wealth of those states at a rate hitherto unthought of. With such a channel in the Missouri, rails, ties and other material of railroad construction and repair could be conveyed cheaply by water to Kansas City, Omaha and intermediate points, for distribution to the roads east and west of the river. There would be a great saving to the roads in transporting this material, and the congestion of their land traffic would be relieved.

"If the state of New York can by the expenditure of \$100,000,000 make a channel twelve feet deep in its Erie Canal, the United States can assuredly by the expenditure of that sum make a similar channel in the Missouri river. To the commerce of Missouri valley states the betterment of navigation would be worth ten times the expenditure."

## BARNUM & BAILEY'S

Many Local People Arranging to Visit the Famous Show

The Barnum & Bailey greatest show on earth exhibits at Nebraska City on September 6th., and Omaha, Monday, September 9th.

The railroads have made announcement of reduced rates and already numerous circus parties have arranged. Especial interest attaches to the Barnum & Bailey show day this year, not only because of the popular belief that it is the largest combined circus, menagerie and hippodrome in the world.

Probably the most remarkable of the new acts is the thrilling feat of Capt. Carl Howelson, who sails fifty feet through the air mounted on eight-foot skates. Another startling act that has created comment and wonder, is known as the "Dip of Death." In this startling act a heavy road car flies forty feet through space, with machine and driver actually upside down.

The performance opens with a gorgeous spectacle entitled "Peace." It is founded upon the Russo-Japanese war and describes, in an allegorical way, the president's successful efforts to bring about peace between the warring armies in the East. The circus performance follows. There are three rings, two stages, a quarter-mile hippodrome track and a series of immense aerial spaces, and all are utilized by the 300 European and American artists in the circus company. The sensational features are interspersed throughout the arctic program.

### The Governor's Wife.

The foolish gush of the newspapers must be embarrassing to people of sense. For instance, one of the city dailies came out the other day and said that when the servants in the household of Governor Sheldon left their jobs, the mistress put on a work apron and got supper. Why not mention the fact that a great many other Nebraska women do the same every day in the year? Why not add to that that the majority of women in Nebraska are capable of doing the family washing when necessary? Mrs. Sheldon is probably a sensible lady who grew up in a home where girls were taught to work. She can no doubt get up a square meal or do any other part of the necessary household duties if she has to, and there are others.—Beatrice Sun.

While all the above may be true, there has not been a governor's wife that would, if they could, do this act, since the pioneer days. Mrs. Sheldon is an accomplished lady, as well as a good cook, both of which go to make up a good wife. If the governor's mansion had been presided over by more ladies of Mrs. Sheldon's kind, the state would have been better off.
