WHICH? BRYAN, ROOSEVELT OR TAFT?

One of these three gentlemen is sure to occupy the presidential chair next term. Oliver Dovey says Taft will be the man. The chances are he don't know anything about it, but the point is this, that if either of them should come into our store to make a purchase, they would pay the same price as anybody else. We do pride ourselves of the fact that we make no difference in people. One is treated with the same courtesy and pay the same price as another.

Will Rebuild Fremont College.

A special from Fremont says: "The college will be rebuilt, and will be ready for occupancy within two months. Already the work of reconstruction has been commenced.

While the fire was still in progress late yesterday afternoon the Fremont school board and the faculty of Fremont college held a meeting. The board tendered the college the use of the big public school building, and the offer was accepted. The school is only two blocks from the college.

President Clemmons estimated the loss at \$50,000. He has insurance of \$18,000.

The walls of the college are still standing. The fire damage below the third floor was comparatively small, but the building was gutted above it, and the roof was burned off. After it had got started, the Fremont fire department make a good fight. The high water pressure supplied by the municipal plant was too much for the hose, and three lines were broken at the most critical time. Public indignation is pretty high just at present over the alleged defective condition of much of the apparatus of the volunteer fire department. Had the department suffered no accidents, it is believed unquestionably the fire could have been confined to the attic.

An organization known as a workfest was organized to assist President Clemmons in his present crisis. The most serious phase of the situation is the shortage of labor, while a demand for immediate work to get the building in condition for a resumption of school in it, confronts Dr. Clemmons and the citizens. The proposed workfest was got under way this morning, and by this afternoon the first installment of men were on the scene. There were thirty-five business men, and others, who began cleaning out the debris, and straightening up the rooms of the structure that can be used for class purposes. Among others who donated their overalls were Ross Hammond, George F. Woz, E. R. Gurney, Frank Hammond, H. F. Alderman, President Clemmons.

Tomorrow the force of laborers employed at the Sure Hatch incubator factory will be transferred to the normal for a days' work. The following day the forces of the Nye-Schneider-Powier company will be transferred to

the school. Sunday the clerks and business men of the city who are unable to get away at any other time will put in a day. Working under the direction of a competent superintendent the citizens who are volunteering their services will be a big help, it is believed, to the laborers and carpenters who have been employed. School will be held in some of the rooms of the college next Monday.

Fair Warning.

All horses, cattle or other stock running at large upon the streets of Plattsburgh, will be placed in the city pond and kept there until fine and costs are paid for violating the ordinance in reference thereto. This is the last call, and you had better heed it.

JOSEPH FITZGERALD, Chief of Police.

The Next Winner a Swedish Craft

Stockholm, Oct. 15.—William Olson and Goesta Kyhlberger who are at the head of the movement here to build a challenger for the American cup say that a large portion of the money required to construct and sail a 90 footer, estimated about \$189,000, has all ready been subscribed. Many large manufacturers have offered to furnish material gratis and the captain and the three mates will sail her without any pay; the designer will accept no compensation for his work, and the builders only charge the net cost of construction. Messers Olson and Kyhlberger think they will now be able to guarantee funds even for a 95 footer if required. The report that the Swedish Club intends challenging with either a 70 or a 95 footer is in order to compel the New York Yacht club to build a new boat has no foundation. The Swedish Yacht men are prepared to challenge with a 90 footer and all reports to the contrary are sharply denied in the Swedish papers. A meeting of the Royal Swedish Yacht club has been set for October 21 when an important announcement is expected.

Attend the Gaebel Sale

Frank Schlater, democratic candidate for county treasurer, came up to attend Charley Gaebel's hog sale, and just to be a good fellow bought a hog, as did also Chris Metzger, the democratic candidate for clerk of the district court, but Chris, went him one better, he joined the Rebekah lodge while here and now all the ladies are working for his election.—Louisville Courier.
