

Kidney Disease, First Stage Promptly Relieved By Pe-ru-na.

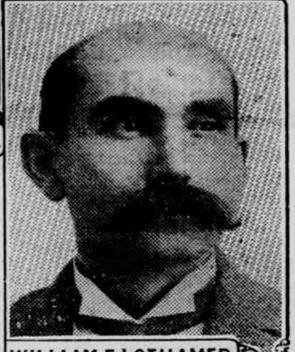

JAS. M. POWELL

Catarrh of the Bladder.
Mr. James M. Powell, 431 Kensington street, Kansas City, Mo., writes:
"About four years ago I suffered with a severe *catarrh of the bladder* which caused continued irritation and pain. I was miserable, and could not stand up or walk for any length of time without extreme weariness and pain. I began taking *Peruna* and it greatly relieved me, and in eleven weeks I was completely cured, and felt like a new man."

Kidneys and Liver Affected.
Mrs. Carrie King, 730 North Cascade, Colorado Springs, Col., writes:
"Peruna has been my favorite and only household remedy for nearly five years. I have suffered for years with biliousness, and kidney and liver trouble. If I caught a little cold, the pains were increased, and headache and dizziness were of frequent occurrence. "However, *Peruna* cured me—twelve bottles made me a new and healthy woman. For three years I have enjoyed the best of health. I keep *Peruna* constantly in my home, if my husband or I catch cold or feel indisposed, a few doses of *Peruna* never fail to restore us."
Mr. M. T. Gaffney, Corpus Christi, Texas, writes:
"I can certify to the truthfulness of *Peruna* as a *catarrh* cure, and am recommending it to every one. I am practically well of the *catarrh* in my nose, throat and head."

THE first stage of Bright's Disease of the kidneys is known as the catarrhal stage. Catarrh of the mucous membrane lining the kidneys is the first act of a drama that often ends as a tragedy. To stop the catarrh is to head off the disease. If Bright's Disease can be relieved during the catarrhal stage all will be well. *Peruna* has achieved a reputation for mitigating catarrh of the internal organs. This explains why *Peruna* has been used with so much success in kidney diseases.

WILLIAM F. LOTHAMER

Mr. William F. Lothamer, former president of the Boss Barbers' Union, a noted politician and at one time chairman of the Democratic State Central Committee, writes from 1906 South 4th Ave., Minneapolis, Minn.:
"For years I suffered with severe disease of the kidneys. I would have pains all over my body, and at times have such dizziness in my head that I could not see nor work. "Nights I would often be awake with pain so I could get no rest. I spent hundreds of dollars on doctors and drugs, and had ceased to have faith in either. "My druggist told me one day of the praise his customers gave to *Peruna*, and advised me to try it, offering to return my money if it did not help me. I purchased a few bottles. I kept getting better. The medicine did its work, and in four months I was a well man."

Accidentally Shoots Friend.

The careless handling of a revolver in the boarding house of the National Stone quarries east of town last Saturday resulted in the death of Solomon Kanna, a Polander. Another Polander was examining a 32-caliber revolver and Kanna was sitting across the room with elbows on his knees reading a newspaper when the gun was accidentally discharged, the ball striking the unfortunate man fairly on the top of the head. Local physicians probed for the ball, but could not locate it and Kanna was taken to an Omaha hospital, where he died. The young man who did the shooting was almost crazed with grief, close watch was required to prevent him from ending his life by jumping into the river.—Louisville Courier.

New Car Tracer.

The Lincoln Journal says that the Burlington has named a new car accounting official. H. B. Ware has been given a desk in the chief dispatcher's office, and it is said his duties will be to increase the amount of service that is secured from each car that reaches the Lincoln division. Mr. Ware has had long experience in car service, having spent more than twenty years in the service of the company in this state.

New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the national pure food and drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. F. G. Fricke & Co.

A Boston schoolboy was tall, weak and sickly.

His arms were soft and flabby. He didn't have a strong muscle in his entire body.

The physician who had attended the family for thirty years prescribed *Scott's Emulsion*.

NOW:

To feel that boy's arm you would think he was apprenticed to a blacksmith.

Successful Meeting of the P. E. O.

Last evening at the very pleasant home of Mr. and Mrs. C. C. Parmele there were gathered the P. E. O. society and by invitation, the teachers of the public schools and the school board with their wives. In all there were some seventy-five present, and the evening's program was not one prepared, but was very informal and one where sociability and good cheer reigned supreme. Social conversation was indulged in, interspersed with music, both vocal and instrumental, of which those present took part. Refreshments were served, and the dining room was beautifully and artistically decorated with chrysanthemums, the large dining table and smaller ones providing for the seating of about twenty at one time. In all, the evening was spent in a most delightful manner and was enjoyed by all present.

MUST HAVE THE QUALIFICATIONS

State Superintendent McBrien Instructs County Clerks.

Steps have been taken by State Superintendent McBrien, through a circular letter to all county clerks in the state, to guard against the possibility of anyone being installed as superintendent of schools in any county without having the qualifications for that office prescribed by Nebraska statute. Under the law no one can hold the office without being in possession of a first grade teachers' certificate, except in half a dozen of the smallest counties, where a second grade certificate passes muster.

Following is the letter addressed to county clerks from the state superintendent's department:

"On the enclosed postal card please give me the information asked for in accordance with section 1, subdivision 7, school laws of Nebraska for 1897, which reads as follows:

"No person shall be eligible to the office of county superintendent who does not hold at least a first grade county certificate issued in this state and in force at time of his election. It shall be the duty of the county clerk to notify the state superintendent of the election of the county superintendent at the time said election is ascertained. The provisions of this act, so far as the same relate to the certificates of county superintendents, shall not apply to counties having less than 1,000 inhabitants.

"It will be your duty, therefore, as an officer whose sworn duty it is to enforce the law without fear or favor, to require the successful candidate for the office of county superintendent in your respective counties to produce evidence of his or her legal right to said office, before granting to such person a certificate of election."

Another Case of Smallpox

James Gruber has been having his smallpox trouble since our report of his wife's case last week and although it was hoped that he would escape it, it was no surprise that he has it, considering the fact that he was so directly exposed. He was quite sick for two days but has since been getting along very well. The report that others have the disease at present is correct, and from the best information we can obtain it seems probable that the disease will be confined to those two cases yet we suggest that no negligence is justifiable at this time. The school and meetings have been going on as usual since last week, yet we doubt the wisdom of taking such chances until it is absolutely certain that there is no further danger.—Union Ledger.

Cheapest accident insurance—Dr. Thomas' Electric Oil. Stops the pain and heals the wound. All druggists sell it.

Very Irregular.

The Missouri Pacific run their passenger trains so irregular that many people who want to go some place on that line and want to be sure of getting there on time, prefer to walk. After several years this road will be fixed up and trains once more run on time, and people will then travel over it.—Nebraska City News.

Had a Hard Trip.

The local gas plant here of the Nebraska Lighting company were out of material to make gas with, and it being Sunday they could not get any shipped, so the people at Omaha had to send some down with teams, and to do so they had to go to Council Bluffs and come by the way of Pacific Junction. Though having started early yesterday morning they did not get to this place until about nine o'clock last evening.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feelings at once, strengthen the digestive functions, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by F. G. Fricke & Co.

IS VERY BADLY DAMAGED BY FIRE

Dr. T. P. Livingston's New Residence Almost Entirely Ruined.

The fire alarm Friday called the fire department and about one thousand citizens, big and little, of all ages and conditions of servitude, each eager to see the fire, which was located in the cellar of Dr. T. P. Livingston's new home, which has just been finished and but shortly occupied by them as a residence.

The origin of the fire is supposed to have been in the room occupied by the furnace in the basement. When the department arrived on the scene dense volumes of smoke was rolling up out of the cellar, which was filled, and in an incredible short space of time the entire house was filled, and the smoke escaping from the upper windows which were open.

In a very short time the fire boys had a stream playing through the cellar window, but owing to the dense smoke and heat and cross walls in the cellar, the fire could not be reached, though for nearly an hour with the hose playing on the burning building and most of the time two streams, no headway was made until a hole was chopped in the floor, allowing the hose to play upon the fire direct, was any good accomplished. Then the fire succumbed to the efforts of the firemen in a very few moments.

Some of the goods were removed from the room directly above the fire, and the room was cleared before the hose was used in it. It is hard to estimate the amount of loss. We have heard it placed all the way from \$1,000 to \$4,500, the full amount of the insurance carried. At the time of the fire Dr. Livingston was out making a call, while Mrs. Livingston was in Omaha. The girl, who had been left in charge of the house, had just gone to town for a few moments.

While the real repairs which will replace the house in condition as good as before will not cost as much as what insurance is carried. The members of department present and many citizens worked like Trojans in their endeavors to quench the fire. It is evident that the irrepresible small boy should be kept out of the way in a case like the one in question.

MYSTIC HALLOWE'EN CELEBRATION

At the Home of A. A. Randall, the New Methodist Minister.

Friday evening the postponed meeting of the Epworth League was held at the parsonage of the new minister to celebrate the Hallowe'en festivities, which has become an annual feature of the society. There were in attendance at the meeting something over one hundred members of the league and friends thereof. The decorations were of the Hallowe'en order; the lights prepared were made of boxes, trimmed in yellow and containing a candle each, and with the yellow cloth over the openings, gave a weird yellow light that was suggestive of something supernatural. While the decorations were of a nature to suggest something uncanny and sepulchral, the spirits of the young people who attended were exactly the opposite, for a much merrier crowd of people have failed to gather in these parts for some time. The program of the evening consisted of the many mirthful and enlivening games played at this date.

One special feature which the ingenuity of the pastor furnished for the amusement and delectation of the assembled guests, was what some were pleased to call the "Katzenjammer Palace," but what the pastor called the "Initiation into the Royal Order of Hallowe'eners," and was situated in the basement, where the exercises were conducted by a dim, flickering ghostly light. Having constructed the passage way so only one couple pass at a time, he had provided a stumbling arrangement, and in falling one thought he was going to the depth of some unknown place, when he was caught on a friendly pile of straw, which prevented any harm. After getting up and righting oneself, he began the ascent to the upper portion of the building, only to encounter a slippery plank that they could not walk, except they caught on the sides of the passage-way. This required a good deal of skill to climb, but when once through they were full members of the order. All enjoyed the occasion to the limit and departing pronounced the pastor a good entertainer, as well as an excellent preacher.

Removes to Elmwood.

Ed Betts, who purchased D. Smith's elevator and coal business, was down from Eagle, Monday, getting acquainted with Elmwood people. Mr. Betts is a very pleasant gentleman to meet, and we trust he may be very successful in his new business venture. He informed the Leader-Echo he would move his family to Elmwood as soon as he disposed of his home at Eagle.—Elmwood Leader-Echo.

900 DROPS
CASTORIA
Vegetable Preparation for Assisting the Food and Regulating the Stomachs and Bowels of INFANTS CHILDREN
Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.

Chas. H. Fletcher
In Use For Over Thirty Years
CASTORIA
THE CENTAUR COMPANY, NEW YORK CITY.

Find More Stolen Goods.

The Lincoln Sunday Journal says: "Detective Malone of the Burlington's special service has been having trouble with the Italians employed in construction work again. He has been investigating their possessions and has found napkins from Burlington dining cars, property from sleeping cars and other Burlington belongings in their possession. At Ashland a few days ago he found in the possession of some Italians some silverware, including a big silver soup ladle, branded with the mark of the Palmer house, Chicago. Mr. Malone has had a great many reports of thieving to run down of late, and the greater part of this trouble to his department he lays to the laborers brought here for railroad work. Most of these laborers are foreigners unable to speak the English language."

Foley's Kidney Cure will cure any case of kidney trouble that is not beyond medical aid. F. G. Fricke & Co.

First Chester White Hog Sale.

Dan Phillips returned Wednesday from Hastings where he attended the first Chester White hog sale ever held in the state. There were fifty-four head sold, the average being close to \$40. Mr. Phelps purchased a grandson of Jackson Chief, the greatest white hog ever raised. He did not state the price paid, but it is safe to say that the price was a long one, as Dan never allows a few dollars to stand in his way when it comes to improving his herd. Mr. Phelps has been improving white hogs for several years, but has disposed of his surplus at private sale, and now has about arrived at the conclusion to hold a public sale next season.—Louisville Courier.

A Reliable Remedy for Croup. Mrs. S. Rosenthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by F. G. Fricke & Co.
