

# GRATEFUL MEN AND WOMEN PRAISE PE-RU-NA.

MRS. ELLEN NAGLE

Mrs. Ellen Nagle, 414 4th St., Green Bay, Wis., writes: "I have often heard Peruna praised and it is more widely known here than other medicines, but I never knew what a splendid medicine it really was until a few weeks ago when I caught a bad cold which settled all over me. "The doctor wanted to prescribe, but I told him I was going to try Peruna and sent for a bottle and tried it. I felt much better the next morning and within five days I had not a trace of any lameness or cough."

MRS. S. M. MORRIS

Prince Jonah Kalamiana'ole, Dewey Hotel, Washington, D. C., Delegate to Congress from Hawaii, writes: "I can cheerfully recommend your Peruna as a very effective remedy for coughs, colds and catarrhal trouble."

HON. C. C. BROOKS

MRS. H. A. S. MARSH

PRINCE JONAH KALAMIANA'OLE

Malaria Fever For Several Months

Mrs. Sue M. Morris, 2214 Patterson St., Nashville, Tenn., writes: "Last fall a severe attack of malarial fever laid me up for some months. My condition was serious for a time and the doctor who was attending me did not seem able to cope with the trouble. "A neighbor advised me to let the doctor's prescription alone and try Peruna, extolling its virtues to the skies, and I am now ready to do the same, for in three days I was much better and in ten days I was able to be up and in two weeks every trace of malaria had left my system. "I now use Peruna off and on when in need of a tonic and it braces me up wonderfully."

Suffered With LaGrippe

Mrs. H. A. S. Marsh, 2128 Reservoir St., Los Angeles, Cal., President Woman's Benevolent Association, writes: "I suffered with la grippe for seven weeks, and nothing I could do or take helped me until I tried Peruna. "I felt at once that I had at last secured the right medicine and I kept steadily improving. Within three weeks I was fully restored, and I am glad that I gave that truly great remedy a trial. "I will never be without it again."

Used Peruna For Bronchitis

Mr. Frank Battle, Jr., First street, near Charlotte Ave., West Nashville, Tenn., writes: "I desire to say for the benefit of others that your Peruna has unquestionably cured my chronic bronchitis. It is the grandest discovery of the age for throat and lungs." Peruna is not simply a palliative to relieve some of the distressing symptoms. It brings permanent relief.

Weak and Nervous.

Mr. Charles Brown, Rogersville, Tenn., writes: "I feel it my duty to write you a few words in praise of your Peruna. I have tried many different remedies, but have found that Peruna is the greatest tonic on earth, and a perfect system builder. "A friend advised me to take Peruna for indigestion, and it cured me in a short time. I was very weak and nervous, could sleep but little at night, but Peruna cured that tired, all-gone feeling, and made me feel like a new man, so I heartily recommend it to all who are weak and run down. Peruna will give new life and energy. I cannot speak too highly of Peruna, and will not forget to recommend it on every hand. I will answer any letter from those desiring to know what Peruna has done for me."

Systemic Catarrh.

Miss Marie Lesser, 928 W. 30th street, Chicago, Ill., writes: "I am glad to give a good word for Peruna, and I hope that all who see this who are troubled with systemic catarrh as I was for years, will profit by it. I had tried many remedies, but none did more than give me temporary relief and some did not even do that. I took Peruna at the suggestion of a friend and was more than pleased and surprised at the results. I am now perfectly well and strong."

## True Cause of Disease.

IN these days almost every ailment is supposed to be caused by disease germs. The medical profession as well as the people, seem to have gone mad over the germ theory of disease. "The universal fear and dread of disease germs is becoming a very serious matter to the welfare and happiness of the people. Dr. Hartman has consistently contended through all the rise and spread of the germ theory, that most diseases are caused by climatic influences. For instance, catching cold is responsible for more than one-half of the ills to which human beings are subject. Danger of Neglected Colds. A person catches cold easily, thinks nothing about it, neglects it, when it finally becomes settled in some organ of the body and chronic disease is the result. A few doses of Peruna in the beginning of the cold would have saved months of suffering, as well as great expense for treatment. Peruna is a reliable relief for cold. Almost every body knows this. Instead of trying to dislodge or kill some hardy germ, if Peruna was used at the proper time its tonic properties and its sanatorial qualities would soon convince the patient that he has found the right remedy. A multitude of letters are received testifying to this fact. Keep Peruna in the house. Use it whenever cold or climatic affections assail, and illness in the household will become greatly lessened, if not entirely prevented. Catarrh of the Stomach. Mr. Christian Hofmann, R. F. D. 1, Slatington, Pa., writes: "For many years I suffered with catarrh of the stomach. I was coughing day and night. After having tried three doctors and many remedies, one of your almanacs came to my hand, and I bought some Peruna. So far I have taken six bottles, and I have not suffered with catarrh this summer. I am cured and Peruna did it. I give Peruna to my children when they feel bad and you should see how healthy they are." Nose, Throat and Stomach. Mr. Deibert B. Craft, Lowell, Ind., writes: "For a long time I suffered with chronic catarrh of the nose, throat and stomach. I would continually take cold and my stomach was in bad condition. I truly suffered untold misery. I took various medicines and tried the treatment of several physicians, but I felt no better. A friend advised me to take Peruna. I wrote to Dr. Hartman, who prescribed treatment. As soon as I commenced to take Peruna I was surprised at the relief it gave me. I kept on taking it until I had taken thirteen bottles and was cured."

## TAKE A TURN FOR THE BETTER

### But the Scarcity of Currency Lessens Activity at Many Points.

Bradstreet's will say today, according to dispatches from New York, under date of November 22: "While a number of cities report that the tone of affairs has taken a turn for the better, actual business, taking the country as a whole, shows an increased degree of quiet, both at wholesale and retail, a working out of the continued scarcity of currency at many points lessening industrial activity and of the continuance of unseasonably mild weather with its natural effect upon distribution of winter goods. "There is evident in wholesale trade circles an indisposition to do business for future periods and the large numbers of cancellations resulting from the past unsettlements are a subject of widespread comment. Retail trade feels the effect of the smaller movement of cereals from the farms, and, although producers are reported more familiar with checks tendered in payment, lower prices now offered are a drawback to sales. "The iron and steel industries, with its kindred lines, such as coke and coal, show results. The feeling is widespread that the sharper and quicker this process occurs the sooner and better the situation will right itself when confidence is restored. "The lumber industry is quiet, and southern lumbering and manufacturing operations are reported less active. "Collections are rather slower, and some attention has been excited by the requirements from states that all creditors be lenient in order that the fall trade be protected. The currency premium lessened at New York early in the week, but later became more marked. The fact is that the demands are kept up strongly by the reports that the country banks are taking in large quantities of currency, but not making new loans, and some institutions are reported to be carrying much larger supplies than are absolutely necessary. "Wheat, including flour exports from the United States and Canada for the week of November 21, aggregate 5,103,143 bushels against 5,192,944 last week and 4,025,073 this week last year. For the first twenty-one weeks of the fiscal year the exports are 85,023,495 bushels against 54,585,776 in 1906-7 and 121,193,795 in 1901-2. "Corn exports for the week are 560,

629 bushels against 1,133,448 last week and 594,861 in 1906. For the fiscal year to date the exports are 19,766,891 bushels against 17,312,296 in 1906-7.

### On a Slow Train in Nebraska.

The editor of this paper went to Plattsmouth Tuesday to see just what the old place looked like since it went democratic. Every one seemed to be attending to his own business, and those who were not were suggesting remedies for the financial troubles or kicking on those that had been suggested. We called upon the county commissioners and they discussed the "good roads" problem near here. It took just an even three hours to make the trip from Plattsmouth down here. If we had been paying by the hour instead of by the mile we would have to take up a collection in order to make both ends meet. The engine went on the "bum" just as it got into Plattsmouth, caused by a flue in the boiler breaking and drowning the fire. The train arrived here about 7:30 in such a disabled condition that it was necessary to have the freight engine tow them into Weeping Water.—Nebraska Register.

### Dancing Proves Fatal

Many men and women catch cold at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. F. G. Fricke & Co.

### Breaks Collar Bone.

John E. McGinniss, of South Bend, who is engaged at the state hatcheries, while away from home, and at Valentine with the fish car, distributing fish, a few nights since walked into a cinder pit on the Northwestern railroad, breaking his collar bone, one rib and injuring his face very severely. Mr. McGinniss was a visitor in the city this morning, and though he looked some the worse for the accident, says he is getting along all right and will be in fine shape again in due time.

### Will Use Room For Storage.

County Assessor-elect, H. M. Soenksen, has traded his former residence property, to James Rebal, the broom-maker, for the business property on lower Main street, and will use the same as a storage room, when it shall have been vacated. Mr. Rebal will occupy the residence property and will build a new broom factory. This will make better facilities for both parties in their lines.

## TRAIN WRECKED AT OREAPOLIS

### Beused by the Improper Working of Blocking System.

On account of the improper working of the block system at Oreapolis last evening, the engine and one car of an extra west bound was derailed on the main line, blocked during the entire night. A new man was on duty at the tower, and not knowing the peculiarities of the system, when slightly out of order, was not able to make the signal show clear. Thinking the system had worked with the exception of the signal, he gave clearance and personal signal to go ahead, while the derail was set for the protection of the crossing with the Missouri Pacific. The train, which was not moving very fast, as it had come to a stop on account of the signal not showing clear, and when the engine struck the derail only one car and the engine got off the track. The engine, (No. 1981) was what is known as an "R. 4" and was a very massive machine, and it was not possible even with the yard engines of this place and another road engine to drag back upon the tracks. When it was apparent that with the appliances at hand it was impossible to pick up the wreck, the wrecker had to be called from Lincoln, and arrived on the scene early this morning, and in about two hours had the engine on again and the track cleared.

### A Good Liniment

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for pains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by F. G. Fricke & Co.

### Dr. E. W. Cook Out Again.

Dr. E. W. Cook, who has been confined to his home and bed for so long, was out on the street yesterday, and promises to get around again and at his business. Though it will be some time before he is able to take up his country practice with that presistency which has been his efforts. His many friends will be pleased to know of his return to health, and glad to see his face on the streets again and hope he may retain the health that it has been so much of a struggle to regain.

## AN OLD RESIDENT PASSES AWAY

### Ben McCulloch Died at the Home of His Sister, Friday, November 22, 1907.

Ben McCulloch, of Rock Bluffs, who has lived in that place for a number of years, and has been afflicted with cancer of the stomach for a long time, passed away Friday, November 22, 1907, at the home of his sister, Mrs. D. Ames, of that place. Mr. McCulloch was well known in this city, having lived and farmed south of this place for a number of years, and having hauled wood here for a long time. Mr. McCulloch was unmarried, and during the last few months had made his home with his sister. Formerly he had farmed and batched, having a tract of land near Rock Bluffs. Some few years since he went to southern Missouri, where he bought some land but never went to live on it, though he expected to make that his home on account of it being a milder climate. The deceased was 58 years old, and leaves one brother, Thomas J. McCulloch, and his sister, with whom he was living, Mrs. D. Ames. The funeral will be held from the residence of his sister in Rock Bluffs, at one o'clock tomorrow afternoon, and the interment made in the Young cemetery. It is not known who will deliver the funeral oration.

### Will Visit in Iowa.

E. D. H. Baker, of Omaha, who has been visiting at the home of his sister, Mrs. C. H. Parmele, for some days past, departed this morning for Agency City, Ia., where he will visit with old friends for some time, and also at Eldon, Ia., which is but a short distance away, where his son, W. H. (Billy) Baker, is now visiting, and where his father expects to meet him and look after some business matters regarding some property they both have at that place, before returning home.

### Do You Want to Buy a Farm?

Here a few bargains: 160 acres, 4 1/2 miles south of Glenwood; 75 acres fine winter wheat; 35 acres blue stem hay, balance pasture. A snap at \$60 per acre. 27 1/2 acres next to city limits of Glenwood; the best dairy layout in western Iowa. Price \$3,600; one-half down and the balance to suit purchaser. I have many other bargains; write me for information. E. E. BARNETT, Glenwood, Iowa.

## LINGERING COLD.

### Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says S. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by F. G. Fricke & Co.

### To Stop Short Weight.

In speaking of the pure food law, Food Commissioner J. W. Johnson says: "The pure food law is for the purpose of stopping this short weight business in Nebraska. Of course it is an enemy to the small package of goods as can be seen. If a customer knew that he was getting only three cents worth of crackers for his nickel he wouldn't buy them and if the small packages were branded with the quality of their contents they wouldn't sell. The pure food law seeks to make an honest business and a square deal for all alike but the only way it can be enforced is by the co-operation of the customers and the retailers with the state officers. I intend that small dealers and large manufacturers shall obey the law alike."

## A Methodist Minister Recommends Chamberlain's Cough Remedy.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough. REV. JAMES A. LEWIS, Pastor Milaca, Minn., M. E. Church. Chamberlain's Cough Remedy is sold by F. G. Fricke & Co.

### Married in Nebraska City.

Oscar Hoback and Miss Pearl Malcolm were the principals in a quiet little wedding that took place Monday afternoon in Nebraska City at the office of Judge Wilson, the matrimonial noose being artistically adjusted by that official. After the ceremony the happy couple returned and received the hearty congratulations of their friends. The bride is a daughter of Mr. and Mrs. Joseph Malcolm of Nehawka, and is one of the popular and talented young ladies of that village. The groom is a son of Mr. and Mrs. Ben F. Hoback, who for many years have resided on the farm a few miles southwest of here. He is an energetic young farmer of excellent character, in every way worthy of the good fortune he has had in winning a valuable prize.—Union Ledger.

Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

It will help you to avoid taking cold.

ALL DRUGGISTS: 50c. AND \$1.00.
