PROGRESSIVE DEMOCRACY

Wherein Lies the Prospects for Democratic Success and the Election of William J. Bryan Next Fall.

The Taft victory in the preliminaries to the Ohio delegate convention and the simultaneous preparations for a Hughes organization in New York present a pretty fair forecast of the fight that is to be waged by the two factions of the republican party between now and the nomination of a presidential candidate at Chicago.

Though some of the Illinois backers of Speaker Cannon the other day solemnly resolved that the fight is between "Taft and the field," it is much more likely that the fight will settle down before the convention meets into a fight between Taft and Hughes, with the other state favorites holding out their delegations until the time comes to throw them to the latter—that is, unless Taft should have a majority on the first ballot. The chances of the field to beat the favorite would be better if the two-thirds rule prevailed in republican national conventions as it has prevailed in democratic national conventions since it was effectually used against Martin Van Buren in the convention of 1844 and earlier.

That neither faction, except that both

profess to be protectionists, adheres to old republican policies is a striking illustration of the political changes that have come to pass since McKinley's first election. It is evident that the American people are at heart strongly imbued with democratic principles inherited from Thomas Jefferson.

It will be observed that, though Taft pledges himself to go on with the Roosevelt policies, he does not commit himself to the Rooseveltian vagaries with respect to the relations between the state and federal governments. The revival of state rights sentiment which the president's attacks upon the states have caused among republicans would make such a course fatal to Taft or any other candidate.

The greatest danger to the democratic party in the present situation is that the republican party has become too democratic. The best hope of success for the democratic party this year lies in the popular knowledge that while the republican party has in the past sought power upon popular issues it has almost invariably betrayed popular interest and made itself the willing instrument of special interests.

John Albert was in the county seat this morning, looking after some business matters.

Hermon Pankonin of Louisville was a visitor in the city this morning, having business at the court house.
