### Japanese Exclusion Act.

A special from Washington, under date of January 13 says: To Pacific representatives and senators who threaten to push a Japanese exclusion bill regardless of the course of Japan, President Roosevelt has definitely served notice that at this time he is against such a measure. He would veto an exclusion act, were one passed.

Pacific Coast sentiment, as expressed by its representatives here, is declared to be unanimous that the Federal Government must do two things—effect a real solution of the exclusion question and undertake a liberal program for the construction of fortifications on the Pacific side. The inflow of Oriental labor must be shut off, it is contended and the Western harbors must be prepared to handle an enemy's fleet.

### Growing Uneasy

The exclusion matter has been the subject of a series of conferences this winter between the California Congressman and the President. Representative Kahn, of San Francisco, only yesterday reopened the question with the President, saying that persons living along the Pacific Coast are growing uneasy because of the delay in reaching a satisfactory agreement with Japan. He also urged that heavy fortifications be built at Pearl Harbor, Hawaiian Islands, on the ground that, obtaining a base there, a foreign fleet could devastate the whole Pacific Coast at will.

### Adjutants Generals' Visit.

A delegation of adjutants general from California, Oregon and Washington is here to confer with the war Department regarding coast defense plans. It consists of Adjutant General Lauck, of California; Hamilton, of Washington, and Finzer, of Oregon. They have given notice to the war Department authorities that none of the three States would detail any portion of its National Guard forces to attend the proposed encampment of the coast artillery next summer. The Pacific Coast States, they said, would be willing to organize companies for coast defense work if the Federal Government would bear the expense of equipment, but the States could not divert any of the present force for that purpose.

### Uneasy Feeling in Tokio

Tokio, Jan. 13.—Incoming cablegrams, indicate an overwhelming sentiment in America in favor of an exclusion bill, are causing much uneasiness among leaders of all shades of politics, who have repeatedly expressed the conviction that the Americans did not desire to discriminate against Japanese, and would accept the attitude of the Japanese Government as evidence of its sincere desire not to embarrass the American Government, and at the same time save the amour propre of the Japanese.

Uneasiness has been intensified by the delay of a reply from Washington to the Japanese note of December 31.

# THE OLDEST MAN IN AMERICA

## Escaped the Terrors of Many Winters By Using Pe-ru-na.

"I Attribute my Extreme Old Age to the Use of Pe-ru-na."

Mr. Isaac Brock, 119 Years Old Last Birthday.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 119 years. For many years he resided at Bosque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas.

Some time ago, by request, Uncle Isaac came to Waco and sat for his picture, holding in his hand a stick cut from the grave of General Andrew Jackson.

Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 119 years ago.

Born before the United States were formed.  
Saw 22 presidents elected.  
Pe-ru-na has protected him from all sudden changes.  
Veteran of four wars.  
Shod a horse when 99 years old.  
Always conquered the grip with Pe-ru-na.  
Witness in a land suit at the age of 110 years.  
Believes Pe-ru-na the greatest remedy of the age for catarrhal troubles.

In speaking of his good health and extreme old age, Mr. Brock says:

"After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so.

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 119 years I have withstood the changeable climate of the United States.

"I have always been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature.

"As for Dr. Hartman's remedy, Pe-ru-na, I have found it to be the best, if not the only reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine.

"When epidemics of la grippe first began to make their appearance in this country I was a sufferer from this disease.

"I had several long sieges with the grip. At first I did not know that Pe-ru-na was a remedy for this disease. When I heard that la grippe was epidemic catarrh I tried Pe-ru-na for la grippe and found it to be just the thing."

In a later letter, Mr. Brock writes: "I am well and feeling as well as I have for years. I would not be without Peruna."

Yours truly,

Isaac Brock,

A letter dated July 3, 1906, written for Mr. Brock by his wife, Sarah J. Brock, states:

"Last winter I had just gotten up out of a spell of sickness, when I commenced taking Peruna. I think it improved my health very much."

In a postscript, Mrs. Brock adds: "He receives a great many letters inquiring about what Peruna will do. I do not answer them all, as I think they can get a bottle and try it."

### It Does the Business.

Mr. E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve, "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c. at F. C. Fricke & Co.'s drug store

### In Police Court.

T. H. Burnett, who is living in the city and with whom his daughter, Mrs. Zeno Brown, makes her home, has serious objections to the visiting at his home of James Walker. Walker has come a number of times to see Mrs. Burnett, and repeatedly has Mr. Burnett ordered him off the place, with the injunction to return no more. Last Saturday Walker got his hide full of bad whisky and went to the home of Mr. Burnett to see Mrs. Brown. Observing his condition, Mr. Burnett ordered him to leave the place and stay away, as he had requested a number of times. Walker, instead of going, said he would not, but would stay as long as he pleased. Mr. Burnett took a piece of gas-pipe to enforce his demands, but got in only one lick, when his daughter grabbed him, and with the assistance of Walker got the gas-pipe away, then they proceeded to chastise the old man. This morning on complaint made by Burnett, Walker was brought before his honor, Mr. Archer, and drew a fine of \$25.00 and costs. He is now boarding at the Hotel de Manspeaker.
