The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

SHOPS TO CLOSE REST OF WEEK

Scarcity of Work and Lack of Business to be Carried on is Given as the Reasons for the Closing Down

With this evening the mechanical department of the Burlington shops at this place will close for the rest of the week, the reason given being lack of work at the shops to be done. W. A. Calif, traveling auditor of the Burlington, was a visitor in the city today on company business, and in conversation with a reporter said that business was very quiet at the present time and at Havelock there were twenty-five engines standing idle, which had been repaired and were ready to go out on the road, and with nothing for them

to do. The stagnation of business is supposed to be of temporary duration, as mills and other works are starting up in different parts of the country. Their effect will be felt in the near future. The business which the country is doing on the road, while called quiet, is of considerable volume, considered with former dull times. The carrying capacity of the engine which pulls the ordinary train is doubled and trebled over what it was in former years, and the business can now be done when it is considerable and still appear as being insignificant.

SHUT DOWN ALL ALONG THE LINE

Burlington Lay Off Men For the Remainder of the Week.

From the following from the Lincoln Journal of this morning, it will be noticed that the "shut down" order issued yesterday, takes effect in all the Burlington shops west of the Missouri river:

"Orders were issued at noon yesterday to foremen of Burlington shops on the Lincoln division that no more work would be done in the shops during the week. The order went no farther and the men expect to report for work on Monday. If a further shut down has been determined upon that determination has not been announced.

"This order affected 580 employees at Havelock, perhaps fifty men in Lincoln, and a number of men in other shops on the lines west.

"Thirteen machinists were laid off at the Havelock shops on Tuesday.

In one part of the Havelock shops are eight engines, six ready to be sent out after having received repairs, and two yet being repaired. In the other part of the shops twenty-two engines are "jacked up" for repairs. On the outside tracks are thirty-six engines ready for service, coated with white lead to protect them from the elements and of this number some are new, never having been used. Quite a number of engines out of service are in the Lincoln round house, so the road is not in immediate need of motive power.

"It is said the shopmen of Havelock, while not appreciating such layoffs, prefer to see the work divided among many men in this manner to a greater reduction in force. If the work continues regularly from now on, eight hours a day and five days a week until business picks up, it is said the men will accept the situation gracefully.

It is announced that the order applies to Wymore, McCook, Plattsmouth, Akron, Alliance, Sheridan and Edgemont as well as Lincoln and Havelock, and that it will mean a reduction in the January expense bills of between \$8,000 and \$10,000."
