We are informed that all who have been exposed are "tied up," and it is likely that the disease will be held from spreading. We understand that those under quarantine are complying with all the requirements, and the people will surely give them praise for doing so.—Union Ledger.

EUREKA!

Yes, I Have Found it at Last. Found what? Why that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin disease. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905 the itching has stopped and has not troubled me.—Elder John T. Ongley, Rootville, Pa. For sale by F. G. Fricke & Co.

OMAHA MUST PAY THE PRICE

Federal Court Appeals Reverses Ruling in Waterworks Case.

A special from St. Louis, under date of April 7, says: "The United States circuit court of appeals, sitting in St. Louis, has handed down an opinion ordering the case of the Omaha Waterworks company against the city of Omaha, Neb., remanded to the United States district court, where it was tried, with the instructions that the case was to be so decided that the city of Omaha must purchase the waterworks system of the Omaha Waterworks company, paying for it \$6,263,295.49. This amount is the appraised value of the Omaha waterworks by the three engineers appointed to determine the value to the city. Judge Hook wrote the opinion, which was concurred in by Judges Adams and Carland.

"In 1903 the legislature of Nebraska required the city of Omaha to purchase or install its own waterworks system. The city council ordered that the city purchase the plant of the Omaha Waterworks company, already in operation. Three engineers were appointed to appraise the value of the Omaha waterworks system. When the appraisal was made the city of Omaha refused to accept the deed to the property. The fight in the federal courts then started, the United States court of Nebraska, holding that the city of Omaha did not have to accept the deed and make the purchase. That ruling is reversed by the decision of the United States court of appeals today. Capitalists of Omaha and New York are interested in the control of the Omaha Waterworks company.

Must Try Their Cases

Judge H. D. Travis this morning in speaking of the dilatory manner in which some of the attorneys looked after their cases, said the rules of the court are to be submitted to a committee and will be changed, but some of the rules he says conflict with the statutes and he has disregarded them and in the future all cases will be tried as fast as the law will permit it. This means that litigation in the court is to be pushed, a thing which will meet with the approval of all and more especially with the tax prayers of the county.—Nebraska City News.
