These Prices are Per Pair, but you can buy any Odd Number of Curtains wanted.

HAVING A TIME ON THE COAST

Governor Sheldon's Party Are Enjoying the Sights in San Francisco.

(On train just out of Santa Barbara, Cal., enroute to San Francisco, May 5th 8:30 a. m.)

DEAR COLONEL:

Well, Colonel, will give you a few impressions Los Angeles has made on yours truly. I am not an expert on impressions, so just take them for what they are worth, and they are worth—well considerable to anyone who can keep them down. In the first place, I would say that the city is supported mostly by tourists. I see nothing in the surrounding country to support such grandeur, such lavish display, such stupendous outlay of money to beautify, decorate and build up gardens of Paradise by planting, watering, caring for, transplanting and importing this grand exhibit of tropical flowers and trees and shrubbery of all kinds. For mark you, these tropical plants do not grow here naturally, but must be brought from other countries, but they do grow and do well after they are planted here and properly cared for. No, the wild land here that has not been made over by the hands of man, is as unsightly and unattractive as the sand hills of western Nebraska ever dare be.

Los Angeles is a large city; has many of the finest buildings I have ever seen; many manufacturing concerns, and the finest street railway system in the United States for its size. It's people are all full of vim and push—everything is on the double quick, and every mother's son of them is wildly crazy over the future prospects of the town. There is no "kockers" there. Everybody's ideas and hopes are up in the clouds, and even the bare-footed newsboys fairly pity us poor tourists who have to live away from Los Angeles.

One of the buildings in process of construction is a million and half dollar postoffice building. It will be finished—well, I know something of postoffice buildings, so will say in twenty-five years.

Sunday we made a trip to Catalina Island—twenty-six miles out at sea. The night before the wind blew a gale and was still blowing considerable, and the manner in which we were "rocked in the cradle of the deep" was frightful. When we started out every passenger was furnished with a two gallon metal bucket marked "S. S." and very few shirked duty. Sea sickness is no respecter of persons, for our Governor was just as sick (or a little more so) than most of the passengers.

I have traveled from Nebraska, mostly for the purpose of seeing sea level, but I have not seen it yet. If Nebraska farms were as level as sea level, they would not bring fifteen cents per acre.

Yesterday (Monday) our party broke up for the day—everybody going or doing as they wished. I took a one hundred mile ride over what is called the balloon trip—being a semi-circle trip to the north of the city with the final destination Plaza Del Rey. (a resort on the shore); This was a beautiful ride, but nothing above the ordinary for California. On this ride we were shown the Heights, where in 1847, John C. Fremont (the pathfinder) was fortified when attacked by the Mexican General Pico. In this battle the Mexicans,

though far outnumbering the Americans, were repulsed, owing very likely to Fremont's advantageous position. I do not think Fremont deserves any great credit for having this advantageous position, for at that time, he had the west half of the United States to select from.

Well, last night, after the theatres, we were all brought to our train and were all sound asleep when we pulled out of Los Angeles, and awoke this a. m., on the shore line, with the Pacific at our feet (so to speak) and still rolling the waves as high and careless as when we were riding the hurricane deck to Catalina.

Yours,
FRANK E. SCHLATER.

Accident Near Elmwood.

Otto Lau, residing on the former Andy Hess farm, met with a serious accident Monday evening at the farm of C. P. Hall, where he and Mr. Hall were handling horses. One of the animals fell on Mr. Lau, breaking both bones of one of his limbs, the bones protruding through the skin. An artery was also ruptured, causing the wound to bleed profusely. Mr. Hall was also struck by the horse and rendered unconscious for a time, but received no serious injury. Medical aid was at once summoned and Mr. Lau's wounds dressed. He is resting as well as can be expected, but as the injury is a serious one he will be confined to the house for some time.—Leader-Echo.

The "Comedy of Errors."

"From the columns of the 'comedy of errors' up the street, we learn that W. L. Pickett has some interest in the Devoe Paint Co., also that a man in West Virginia painted his 18 gallon house with 11 gallons of paint. Will someone who understands figures explain this puzzle?"

The above is taken from the Evening "Fog Horn," of last night. It was in all probability prepared by the gentleman who has recently risen from the positions of attorney and county judge to that of a more lucrative position of reporting for a small daily paper. While attempting to "josh" another paper over errors, would it not be better for the proof-reader below to be very careful about errors in the article in which the "Smart Aleck" attempts his joshing? The article to which the ex-county judge refers is an advertisement, paid for at regular rates, and printed just as requested by the parties doing the advertising. But as the "eminent jurist," who waddles up and down the street in quest of what few items that generally appears in the "Fog Horn," seems to be incapable of distinguishing an advertisement from regular reading matter, he is of course to be excused for his ignorance. Nothing else was to be expected.

"Thou hypocrite, first cast the beam out of thine own eye then thou shalt see clearly to cast out the mote from thy brother's eye."

Commencement at Elmwood.

Prof. E. L. Rouse, of the Peru State Normal school, has been engaged to deliver the commencement address before the High school graduating class Thursday evening, May 21. The class day program will consist of a three act drama entitled "Sukey's Pome," or "The Silent Detective." The play will be rendered at Langhorst's opera house Friday evening, May 22. Baccalaureate services will occur at the Christian church May 17, Elder L. A. Chapman delivering the sermon.—Leader-Echo.

Store at Bartlett Robbed.

The general merchandise store of C. H. Harris at Bartlett, was entered by burglars Sunday night and a quantity of flour, tobacco and other goods taken. Entrance was gained through a rear window, the thieves smashing the lower part of the sash, through which they removed their plunder.

Mr. Harris is unable to estimate his loss exactly, but it will be considerable. No clue as to the identity of the burglars has been discovered, as the rain falling that night obliterated their tracks completely, and they left nothing behind by which one might be gained.—Thurman (Ia.) Times.
