### Mr. E. J. Richey, Plattsmouth, Neb.

DEAR SIR: The trustees of the Fair Ground, Cobleskill, N. Y., were glad to pay 15 cents a gallon more for Devoe; and no wonder. Two other paint agents said it would take 150 gallons of their paint to cover the buildings.

Our agent put it at 125 or less. It took 115.

We saved them 35 gallons of paint and painting (worth \$4 to \$5 a gallon, as the painting costs two or three times as much as the paint) less 15 cents a gallon on 115 gallons. Say \$140.

That's how to count the cost of paint. The cost of putting it on is \$3 or \$4 a gallon. You see what that means. Go buy Devoe. F. W. DEVOE & CO.

New York, Chicago and Kansas City. P. S. A. L. Asemissen & Son sells our paint.

## THE RILEY HAS A BURGLAR

### Visits the Room of Chas. Wilkins, and Secures Nothing for His Trouble.

Last night, while quietly sleeping in his room at the Riley Hotel, Chas. Wilkins, the cigarmaker, was awakened by someone breathing in his face and bending down over him running his hands under his pillow, as if in search for something. Mr. Wilkins lay on his back with his hands under his head, when he was awakened. He layed quietly, as he was in a position that the intruder, whoever he was, could keep Mr. Wilkins pinned down, so he could not move, and it being in the darkness, Chas. could see how easily it would have been for the person to have slugged him and no one be the wiser. He, therefore, wisely remained quiet, and after not finding anything, though Charley had his watch under his pillow and his head rested directly on it, the man did not get it. He therefore looked through some clothing on the wall and finding nothing therein climbed out of the window as he had entered. The window out of which the intruder climbed led to a gravel roof in which is located the skylight which lights the dining room. Mr. Wilkins had placed his clothes, which he had worn yesterday, on a chair, and thrown his union suit thereon and the burglar thinking that there was nothing else there but the union suit, did not investigate, and missed the money which he had in the everyday garments. These burglaries which are getting common, and the circumstances which surround them, savors of local talent and liable to get the artist, who has gotten the matter down, as he thinks, fine, in to serious trouble be for many moons.

## MOB DRAWS ITS GUN

### Strike Riot at Cleveland in Which Bullets Find Four Thosa Engaged.

### RIOTERS BEGIN THE SHOOTING

### Three Street Car Men Are Hit and One of the Rioters.

### All Are Seriously Hurt—Little Girl Run Over and Decapitated—Negotiations for Peace Still Deadlocked.

Cleveland, May 20.—Rioting has become more general and serious in the street railway strike. The first death, while not a part of the strike, but incident to it, occurred when Yetta Wolinski, four years of age, was run over by a car operated by one of the new motormen. The child was decapitated. A crowd quickly gathered and would have lynched the motorman had he not turned on full speed and escaped. Then it tried to lynch the conductor, who had taken refuge in a drug store. Police saved his life. In Lakewood a car was stopped and the crew fired upon. Four persons were shot and seriously injured and a car was burned to the trucks.

### Trouble Expected and No Police.

The first disturbance in the downtown section also took place after dark when a Woodland car was held up on Ontario street, and the motorman and conductor attacked. The police dispersed the rioters. The burning of a Clifton boulevard car in Lakewood was the most serious riot of the strike. The car was going toward the western terminal when it was stopped by a log being thrown across the track. It was the first effort to operate a car in Lakewood, and the car carried no passengers, as trouble was expected when an attempt should be made to open the line.

### II Mob Opens Fire with Pistols.

As soon as the car stopped it was surrounded by a crowd of rioters who were hidden behind a railway bridge. Immediately the crowd began shooting at the members of the crew and guards. The latter, W. J. Barnes and John Swanto, returned the fire. All told over thirty shots were exchanged. While the shooting was in progress the crowd grew to nearly a thousand. Another car arrived, and its crew and guards joined in the free-for-all fight.

### Then the Firebug Begins Work.

Gasoline was poured upon the second car and it was burned to the trucks. The Cleveland police were notified and sixty officers were sent to the rescue. The first car, riddled with bullets and windows broken, proceeded to the car barn. Motorman P. C. Elsholz was shot in the leg; John Gray and George Alexander, guards on the second car, were shot in the chest. Mace Burlingame, who was in the crowd which made the attack, was shot in the hand. All were taken to a hospital from where they were reported to be in a serious condition.

### CIVIL END OF THE DISPUTE

### Strikers Moving to Use the Referendum as a Club.

The state arbitrators took up their task of endeavoring to effect a reconciliation between the strikers and the Municipal Traction company and were in session several hours. While the car service was slightly improved the general situation appears so serious that possibilities of a speedy settlement now are regarded as somewhat remote.

The members of the carmen's union have begun a series of meetings for the purpose of arousing sympathy, and to appeal to the public to refrain from using the cars until the union wins the fight. At these meetings the proposition also of petitioning the city council to order a public vote as to whether the franchise recently granted, and under which the Municipal Traction company is operating, shall become effective. This proposal is based upon the new initiative and referendum law, enacted by the state legislature a few weeks ago. The petition will make it obligatory on the council to submit the matter to a vote.

The movement was started by the strikers. Over 10,000 petitions have been printed. It is regarded by the union men that public sentiment regarding the railway company now is of such a character that they will have no difficulty in obtaining the signatures to the petitions. The vote, should it be against the franchise, it is alleged, would have the effect of invalidating it and this, in turn, it is said, would result in the Municipal Traction company losing, at least temporarily, control of the street railway traffic here.

Apparently only one point stands between the union and President Du Pont, of the traction company, in the matter of a peaceful settlement of all points in controversy. DuPont said that he would take the strikers back to work only as "new" men, and that those who remained with the company would be given preference. Vice President Behner, of the union, positively declined to waive this point.

### Gored by a Bull.

Wednesday morning, while painting on some outbuildings, Albert Carter was attacked by a bull. He was knocked down into a wood pile against a barb wire fence, and the right side lacerated and bruised, and his chest crushed from the force of the impact. One rib was fractured. His injuries are not considered dangerous unless the wire cuts poison. While attending to him, Mr. Carter's team ran away, starting from the house, whirled around twice and headed for the milk station, where they stopped without doing any damage.—Weeping Water Republican.
