## Reduce the Number AND Amount of Your Bills

Attempting to increase your receipts is only a part of financial success. Some attention must be given to expenditures. A checking account will give you a correct record of your receipts and expenditures. Pay by check—it is business—it is systematic—it is the only way to transact business accurately. We give especial attention to small accounts.

### Worthy of Emulation

The new light and power plant of J. E. McDaniels received its initial test last night, lights being turned on in the Anheuser-Busch building and the ceiling connected up. Owing to the engine and dynamo not being set upon their foundations, considerable vibration was experienced in the lights, but this difficulty has now been overcome, and it is believed that the plant will work satisfactorily hereafter. With the completion of this plant, the improvements which Mr. McDaniels has had under way for several months are virtually completed, and the result is a place creditable to a city many times larger than Plattsmouth. Mr. McDaniels has set an example which every good citizen can emulate to his own advantage. Rebuild, remodel and improve your place of business.

### This is the Right Kind

Mr. Hugh Norton, the new Missouri Pacific agent, is a man of the right sort, this is being recognized in more ways than one. The people here appreciate his pleasant business methods, and genial ways. Not alone is he recognized in this way, but the stork has been very kind to him and his good wife, for yesterday they were presented with a pair of the finest young Americans, both of whom expect to be voters in the years to come. The little boys and mother are doing nicely, and the father is happy in the very extreme.

### Disappeared From Home.

C. A. Distelhorst was in the city today seeking information concerning his father, C. Distelhorst, of 2011 Cass street, Omaha. Mr. Distelhorst is described as a man 76 years of age, weighing 180 pounds with snow white hair, full beard and mustache. When he disappeared he was dressed in dark pants and vest and wore a double-breasted brown coat. He had on tan slippers. When he walked he stooped slightly and sometimes limped in his right leg, the effects of rheumatism. He wandered away from home between 3 and 6 a. m. Saturday morning, and was traced as far as the Platte river bridge. Mrs. Joe Fitzgerald reports seeing a man answering this description seated Sunday evening under a large tree near Riley Frady's home, in the second ward, but a careful search today by Chief Fitzgerald and Mr. Distelhorst failed to locate the missing man. Any information leading to his location will be gratefully received by his son, at 2011 Cass street, Omaha.

### The River Rising

Another sharp rise in the river last night has placed its waters well up in the mouth of the sewer at the foot of Main street. The stream is now higher than before in twenty-seven years or since the great flood of 1881. From the hills the water can be seen extended over practically all the bottom land on the Iowa side, and several parties who have been over to Pacific Junction report a strong current running down the old river channel just this side of that place. There is grave danger that the river may conclude to resume its ancient channel and the Burlington road is redoubting its efforts to hold the waters back. It is thought that the highest point has now been reached and unless some unforeseen happening occurs the river should begin to fall tonight.

### Geo. Poisal Gets Contract

George Poisal has been notified that he has received the contract for grading the undergrade crossing of Main street and the Burlington tracks. The company has not yet completed the details of the work but Poisal has been told to be prepared to start it just as soon as the river permits. He is at present a flood sufferer as nothing can be done until the water recedes from the flat in front of the city which will be several days.

### Departs for the West Today

Miss Laura Kinkaid departed today for the west, where she will visit for the summer on the Pacific Coast. She will go direct to Los Angeles, where she will visit for some time. From there she will go up the coast, to San Francisco, and later on to Tacoma and Portland, and will also visit at Seattle. She will visit for some time with her brother, Ralph Kinkaid, who is in business at Portland, where he has been for some time, conducting a profitable merchant tailoring business. Miss Kinkaid will be away all summer.

A man who is in perfect health, so he can do an honest day's work when necessary, has much for which he should be thankful. Mr. L. C. Rodgers of Branchton, Pa., writes that he was not only unable to work, but he couldn't stoop over to tie his own shoes. Six bottles of Foley's Kidney Cure made a new man of him. He says, "Success to Foley's Kidney Cure."

The government snag boat, James B. McPherson, passed down the river at 1:15 this afternoon, bound for Kansas City from Omaha. It did not stop here and was making fast time going with the current. The boat will tie up at Kansas City until the water recedes, when it will return to the upper river and resume snagging operations.

G. W. Price, the affable and popular representative of H. B. Claffin & Co. of New York City, was in the city today calling on the Dovey's reliable customers of his house for many years. Mr. Price expressed himself greatly pleased at the outlook for crops in this section, saying that they looked far better than anywhere this side of Texas, he coming directly from Fort Worth, through Oklahoma and Kansas, to this point. He says Nebraska, and particularly Cass county, is the best out.
