## Start a Bank Account

Better be a bank-account man than a no-account man. The way to prosperity and happiness is paved with good intentions put into execution. If you feel that you really ought to be saving something out of earnings for after life, don't let the good impulse go unheeded. The person who is soured on life is the one who has neglected to put into force the simple rules of success. Start an account with the bank today. Pay your bills by check and your money troubles will be over.

## RETURN FROM FURNAS COUNTY

### Zack Shraoer Returns from Furnas County—Enthusiastic Over Crops and Bryan

Z. T. Shraoer who has been visiting for several months past with his sons and daughters in Furnas county, returned this morning on No. 6. Mr. Shraoer is much pleased with the outlook for crops in the western part of the state. There is no doubt of a bumper corn crop there provided rain comes within the next few days while all other crops are in fine shape. The general outlook has never been better. Mr. Shraoer whose enthusiasm for Bryan is well known, he having been a sterling democrat for all his years, returns enthusiastic over the outlook for the democracy in this state. He drove overland when he went out to Furnas county and made it his particular business to look into the situation all along the line, and he says no such enthusiasm for a candidate was ever seen before in Nebraska. He predicts Bryan's majority will be so overwhelming that his most sanguine friends will be surprised. Mr. Shraoer departed for his home in Mt. Pleasant precinct this morning after briefly visiting friends in the city.

## "BUCK'S OF THE TIMBER."

### South of Town Picnickers Enjoy Another Big Timie.

KINGHILL, Neb., July 26, 1908.—A very quiet picnic party here the other day was startled between 10 and 11 o'clock by an unusual noise. They transfixed to a very strong field glass to see what was the trouble. The glass drew a loaded boat so close to them that they could see J. W. Berger, Will Brown and James Holmes of Murray, Neb., Roy Holmes of Chicago, Ill., and Fred Patterson, the boatman.

The boat carried a sein, and each of the individuals carried an unusual amount of good humor. After the first flow of natural gas they got quiet enough to place the sein across deep water and the order was given to make all the noise they could. Noise! Well, B. S. Ramsey's Indian chief did not come out of his grave so he must not have been a saint. The fish were so badly frightened they tried to fly, but their fins were too small for wings, so they hid in the web of the sein. The fish were gathered and put in a live box.

The next thing was a dinner prepared by Mrs. Fred Patterson, a member of the "Buck's of the Timber." After the dinner was over, each one declared his willingness to become a member of the lodge.

The afternoon was spent in boating, swimming and story telling, and at a late hour Patterson insisted on the party taking fifty pounds of fish home with them. The ladies of this picnic party (after using the field glass) do not care to have their names mentioned in connection with the affair.

## Class Recital.

Miss Pauline Oldham gave her first class recital at her home on Tuesday afternoon of this week. This is but the first of the series that Miss Oldham has planned for the near future. The entertainment was well attended and all were well pleased with the manner in which the program was carried out. The class now numbers about twenty and is increasing. Miss Oldham certainly understands the work in her chosen profession, and those having children who desire instruction in this direction can make no mistake in joining the Murray class at once.

## For Sale.

I have a bargain to offer in a complete electric lighting outfit, consisting of one three horse power gasoline engine, one electric dynamo of thirty six ten candle power light capacity, switch-board and necessary instruments, water cooling tank, all complete and mounted on one base requiring only floor space of six by three feet.

The engine will perform any work usually done by a gasoline engine, besides operating the dynamo, the dynamo will light lamps, run motors, electric fans and operate other electrical apparatus. This plant is in daily operation in Plattsmouth, and is practically new having been used but thirty days. I am installing a nine horse power plant to take the place of the three horse outfit and as soon as I get the large outfit in operation, I will have no further use for the small outfit so will sell it at a very low figure. This outfit is made especially for use in private residence or store, is suitable for farm use as well as town and is so simple that anyone can operate it without any experience necessary.

For price or terms write or call and see E. C. Wescott, Plattsmouth, Neb.

## Enjoying His Visit.

The Journal is in receipt of a postal card from Philip Thierolf dated Puedesheim, July 14, 1908, in which he says he is enjoying his visit hugely. On the card is a picture of the National Monument on the Rhein, erected in memory of the heroes of the Franco-Prussian war. He says it is the greatest he ever saw, and the scenery on both sides of the river is something wonderful. The Journal is pleased to know that Mr. Thierolf is having a good time, and hopes he will return much benefited by the trip.

## G. W. SANDS MEETS HORRIBLE DEATH

### VANDERBILT'S STEPSON DIES IN AUTOMOBILE ACCIDENT.

### IS CRUSHED AND BURNED

#### Smash-up and Explosion of Motor Car Occurs Near Stepfather's Beautiful Country Seat in France.

Paris, July 30.—In one of the most terrible automobile accidents in many years in France G. Winthrop Sands, a stepson of W. K. Vanderbilt, was killed Wednesday morning just outside the grounds of Mr. Vanderbilt's beautiful country seat, the Chateau St. Louis De Poissy, 20 miles from Paris. Mr. Sands was driving his 50-horse power car along at a terrific clip, in a desire to reach the chateau, where Mrs. Sands and her infant daughter were staying. He had always been known as a reckless driver and, as he had been delayed at railroad crossings, he opened the throttle wide as he approached the chateau grounds.

Almost immediately a tire burst and the machine crashed into a tree, turning turtle and burying Mr. Sands under the forward part and pinning the chauffeur, Pickins, to the ground. An explosion followed and in a moment the car was in flames.

Peasants Give Tardy Help. Peasants working in the adjoining fields were the only witnesses to the accident. They rushed to the rescue, but fearing a further explosion of the gasoline tank and deterred by the sweep of flames, they stood idly by, not knowing how to give assistance to the injured men. Finally they managed to raise the rear of the car and release the chauffeur, and a little later, after beating down the fire, they dragged out the torn, bleeding and burned body of Sands.

Help soon arrived from the chateau, which is in the center of Mr. Vanderbilt's great breeding farm. The injured men were carried to the house, where it was found that Sands was beyond the hope of recovery, but that the chauffeur was not seriously injured.

### Sands Pitifully Mutilated.

The servants, fearing the effect on Mrs. Sands, concealed from her the gravity of the accident, and persuaded her not to enter the room where her dying husband had been placed. A doctor summoned from Poissy arrived soon afterwards, but Mr. Sands was beyond mortal aid. Never had he seen, the doctor said, such a pitiful human wreck. The stump of the leg had been burned to a crisp, the face and body were black and seared with flames. In addition to terrible internal injuries, Mr. Sands' right arm and shoulder were broken. The physician could only try to alleviate his sufferings with opiates. Several times the man regained consciousness and cried out in agony, his last words being a cry for water.

Mrs. Vanderbilt broke the news to her daughter-in-law, who bore up bravely under the strain. Telegrams and condolences began to arrive late in the afternoon and a score of automobiles drove out from Paris.

### Manitoba Needs 30,000 Men.

Winnipeg, Man., July 30.—The Manitoba government announced Wednesday that 30,000 men are needed to harvest the wheat crop in western Canada and recommended to the governors of jails that all men in prison for vagrancy and other minor offenses be released early next month on condition that they work in the harvest fields.

### Name Minister for Governor.

Concord, N. H., July 30.—The prohibitionists of New Hampshire in state convention Wednesday nominated Rev. Edmund B. Tuttle of Meredith for governor.

### ACCUSED OF GRAND LARCENY.

#### Two Prominent Brooklyn Financiers Are Under Arrest.

New York, July 30.—Two prominent Brooklynites, Col. Edward E. Britton, president until Tuesday of the Eagle Savings and Loan company of that borough, and Quarantine Commissioner Frederick H. Schroeder, formerly second vice-president of the same institution, were arrested Wednesday after being indicted on a charge of grand larceny. They were immediately arraigned before Judge Dike, who held each in \$10,000 bail and set Friday for their examination.

There are four indictments against each man. Both admit that they took approximately \$44,000 of the cash of the company and used the money to keep the Homestake South Extension Mining company, a South Dakota concern, upon its feet.

### CHAMBERLAIN IN BAD SHAPE.

#### British Statesman Returns from Continent in Grave Condition.

London, July 30.—Joseph Chamberlain, who returned from the continent on Tuesday and is remaining in London for a few days on his way to Birmingham, is reported to be in a very grave condition. His eyesight has become seriously affected. Even if Mr. Chamberlain has sufficient strength to travel to Birmingham, it is believed to be extremely doubtful if he will ever leave England again.
