REMEMBER the primary election Tues day, September 1. Be sure that you come out and vote. Every democrat should do so.

THE final failure of the Rosewater plan for controlling Nebraska leaves an able "amateur" nothing but this good name to keep him from being in bad odor. - St. Louis Republic.

Democratic State Committee as authority for the claim that it is all over but the shouting in sweeping the State like a whislwind, the mixture of metaphor helps to show the vigor with which the shouting has already begun.

THE third nomination of Governor Johnson of Minnesota, by the democrats and his acceptance, opens the way for Should Johnson carry Minnesota for Bryan this year as well as for himself, he must be the party's choice in 1912.

THE democrats of Cass County have far and away the best candidate for County Attorney before the people. vote for Biliy Ramsey is a vote for strong, able and fearless county attorney, and a recognition of a bright young man who is inevitably bound to fill the office with honor to himself and his constituents.

THE democratic primaries are held September 1st. Make all your arrange- or Dahlman, you have a choice for Govments to attend and vote for your favor- ernor. Go and vote for the one you ite candidates. The choice of a gover- think will be the strongest at the elecnor is a matter of vital importance in tion in November. Don't stay away this state and every vote should be cast and then kick because your favorite was for some one of the three candidates either Shallenberger Dahlman or Berge.

C. N. SEYBERT, democratic candidate for county commissioner, is a good man, well fitted for the position and deserves to have every democrat speak a good word for him. Get out and give him a rousing send off and see to it that all your friends cast a vote for Seybert.

THE frantic efforts of the reactionaries to get under the mantle of Roose velt is amusing. At heart everyone of these men is bitterly opposed to everything Roosevelt represents and there is no chance of their ever enacting his views, when they are progressive, upon any subject. Roosevelt's reactionary views meet their approval but they go no farther. Any man who favors Speaker Cannon is against Roosevelt.

THE announcement of the New Yor World that it is now for Bryan means much. While surrendering none of Mr. Pulitzer's well known views it considers that the crisis in the nation demands the election of Mr. Bryan and wisely drops it's personal feelings in an effort to do something to avert the disaster which continued misrule threatens. It also means that New York is lining up strongly for Bryan and that the Empire state means to regain its prestige as great democratic state in the coming

EIGHT national banks in Oklahoma have announced that they will denationalize and become state banks to enable them to take advantage of the state banking guarantee law. The comptroller of currency has notified all nationional banks in Oklahoma that they must not operate under this law.

One national bank has announced that it will organize a savings bank under the guaranty law, thereby enjoying the prestige of both a national and a state

democratic victory seem overwhelming. From every portion of the state comes dent Stevenson, the democratic candidate for governor, is especially optias he has had assurances from every quarter of great support by the independent and laboring portion of the voters. And what is true in Illinois is a democratic year and the election of tion day. Bryan and Kern seems more probable every day.

GOVENOR JOHNSON of Minnesota not a sulker. Personally, he would have preferred a rest from politics, but his party called him, and he will be found in the front rank battling for Democracy from now till November.

You have a choice for governor and perhaps a choice for other officials. Nearly all democrats have. We also have two candidates for congress. They are both good men. Now it is the duty WITH the chairman of the New York of every democrat to go the polls on Tuesday, September 1, and vote for one or the other of these gentlemen for congress, as well as for his preference for other candidates for state offices. Don't fail to do so.

Tais is an object lesson at South Bend, and it is freely predicted on every hand that the city will be democratic this

THE action of the Oklahoma National banks in cancelling their national charters and taking out state charters so as to secure the benefit of the guarantee deposit law, is highly significant. It means that they have realized the immense benefits the banks obtain from the law's operation. The law has served to insure public confidence in the stability of the banks, and serves to protect the banks from foolish and needless runs. This is where it benefits the banks. It benefits the depositor by giving him the security of the state behind his money-an impregnable fortress of security. The democratic party proposes to enact a law that all national banks shall give the people the same guarantee with the additional security of national strength behind it.

THE primary law, for the direct nomination of the candidates of all parties, will be given its first thorough test in Nebraska this fall. Only about two weeks remain till primary election day, when the nominations will be made This law reposes the entire power di rectly in the hands of the people, from whom all political power springs. Like all vast power it carries with it a great responsibility. > THERE are two democratic candidates for congress before the primary Tuesday, September 1-John A. Maguire of Lincoln, and Dr. A. P. Fitzsimmons of Tecumseh. Both are good men, and either would be an improvement over the present supporter of Czar Cannon for Speaker.

In the primary election on Tuesday, September 1, there is but one candidate to vote for each office on the democratic ticket, while there are three candidates for Governor-Berge, Shallenberger and Dahlman, As between the three you evidently have a choice. Then go to polls and vote for him. It is your duty to do so.

IF you think Shallenberger would make the best Governor go to the polls next Tuesday, September 1, and vote THE Union Ledger has this to say for him. If you believe Berge is the concerning the address delivered at the best man vote for him; or, if you think Dahlman is the proper man for the place vote for him. By all means turn command the most votes at the general election on November 3.

> THE full dinner pail will not have such a conspicuous place in Republican parades this year as it had in 1896. The reason is that it isn't over half full and what little the laborer has in it costs about one-third more than in 1896, yet when the pay check comes around it has the same old figures written on its face, and in many instances considerably less. The full dinner pail is no longer

> THE difference between Mr. Taft's promise of tariff revision and Mr. Bryan's pledges in the same direction is that Mr. Taft, if elected, will be in position to redeem his pledge, while Mr. Bryan, if elected, would be powerless to accomplish anything with a republican senate arrayed against his free trade plans. - Omaha Bee. This is an acknowledgement that if Mr. Bryan is elected, the pledges he makes to the people cannot be carried out because the Republican House of Lords, controlled by the corporations, do not intend to carry out the wishes of the people, even if instructed to do so by the election of Mr. Bryan. Talk about your "government of, for and by the people" with the republican party in power! The people are tired of such deceit, and such papers as the Bee will wake up the morning after the election to find

The Tariff as Tree Destroyer.

Canadian lumbermen are discussing the reduction of their cut next winter from 50 to 70 per cent on account of American competion, which, they claim, has involved a loss of \$700,000. The American lumber enters Canada free, and is sold at reduced prices-for much less than it sells at home. This in spite of the fact that lumber is scarce in the United States and growing scarcer at an appalling rate. The American tariff on lumber is \$2 per 1,000 feet. This enables the dealers to maintain a high price at home, keep out foreign lumber, and to dump lumber into Canada at prices cheaper than in this country.

The tariff on lumber in this country does not "protect American forests," and was not expected to do sr. It does not protect the consumer. It does enable the dealer to make an undue profit. -Nashville American.
