A Quiet Day in Town

Today was one of the quietest days in the city for some time. The heavy showers of the morning served to dampen the ardor of those traveling, there being very few departures from the city and hardly any incoming passengers. The rain was quite heavy and the streets were left in a very muddy condition. The water ran down the center of main street like a miniature river, making it almost impossible to get across without getting the feet wet.

This served to keep the townpeople at home. The rain is a great thing for fall pastures and plowing but the general opinion is that it came too late to be of any use to the corn. Some late corn might be benefited by hot weather following the rain but if the weather continues cool as it has been the past week it would be of no avail.

IN THE RACE FOR GOVERNOR

George W. Berge's Appeal to the Democrats and Populists of Nebraska.

I am a candidate for governor on the democratic and people's independent tickets to be voted for at the primaries Tuesday, September 1. The state is too large for a candidate to get over and see all the people. I therefore take this means of addressing a few words to those who may read this paper.

I was a candidate four years ago and waged the best fight I could to free this state from all corporate domination and restore the state government fully back into the hands of the people. Although Roosevelt carried the state over Parker and Watson combined by more than 40,000 votes, I was defeated by only about 9,000 votes; although Roosevelt carried Douglas county by nearly 9,000, I carried it by more than 2,000. I believe I received this large vote because the people believed in the policies and principles I fought for.

There are many issues in every campaign but I believe the overhanging issue is whether candidates shall be nominated and elected to office who have made no secret tie-up or bargain and sale with any special interest. If I ever go into the governor's chair I will go in absolutely free and without any promise directly or indirectly to any special interest. I will go into office with only the pledges openly and publicly made to all the people.

If, at the primaries I shall receive the nomination at the hands of the democratic and people's independent voters this year, I pledge the people of this state to battle along the lines I begun four years ago. And if elected I will show no favors to anyone but will give everybody a square deal so far as lies within my power. No special interest will have any control over me or any pledge from me. If I can not be elected that way I would rather be defeated.

I wish to say, however, to my friends over the state that those who are opposed to me are very active and it behooves my friends to be active also and get out every vote possible for me Tuesday, September 1. I must rely upon the volunteer work of my friends over the state at the primaries.

National Corn Exposition.

Advance sheets of the premium list of the national corn exposition, which is to be held in Omaha during December, show that a ten ear sample of corn will win \$1,000 in gold on the grand champion sweepstakes award, and in addition the same sample will also win the grand premier commonwealth trophy valued at \$1,000. Besides this large amount, in qualifying for the sweepstakes and trophy the sample will have won several hundred dollars in cash and merchandise premiums, thus making it the largest amount ever offered in a grain or grass contest.

This is certainly making money on corn—at least \$250 per ear, and according to Omaha papers the announcement of such a prize has excited so much wonder among the business men that many declare their intention of renting a "patch" of ground next year and if money will buy good seed and give a crop of corn good care, jump in after some of the prizes. Until they heard of the prizes which the corn exposition offered, they did not think it worth while to play with corn growing, but \$2,500 is more than they win at the horse shows, golf tournaments and horse races.

This part of the state was blessed with a good rain Tuesday night, and crop conditions are much improved. Pastures are looking fine and the outlook for good corn yield is much better than ten days ago.
