

ACTING MAYOR SATTLER'S STAND

Tells Journal Readers Where He Stands on Light Question

During the past few months there has been considerable talk in and around the city as to my position on the lighting question, the present and most important question now before the city council, and as I have never made a statement in print as to my position, I take this opportunity of informing the people and taxpayers of the city of Plattsmouth, as is commonly termed, "just where I am at."

I contend for a proposition that will light the entire city, not one selected portion, and that with electricity, and not gas, also that the can and will be furnished for \$1,500 per year, if not by the Nebraska Lighting Company, by someone who will for that price. There is now in the city treasury \$1,600, placed there by the taxpayers of the city, as a lighting fund, as per the levy made by the council about one year ago; and that is why I have taken the position that all sections of our city are entitled to light.

I am also in favor of the company securing the city contract be regulated in some manner as to the prices on rates made the private consumer, for both light and power.

Also in favor of a reduction of the gas rate to \$1.50 per thousand cubic feet, which seems to be the establish rate adopted by other cities of our class in the state.

I am in favor of the home company first, last and all the time if they are willing to accept such compensation from the city and the private consumers as other applicants are willing to do.

What I want is a contract that will be right, now, and all time to come. One that will give the people the right prices for light, fuel and power. Such a contract is what the people and taxpayers want, and I believe they are entitled to the same.

Yours truly,
John P. Sattler,
Acting Mayor.

Ice Cutting Resumed.

From Wednesday's Daily.
This morning was a much more agreeable one than has been experienced for the past few days. The thermometer stood at fifteen above zero at the depot at eight o'clock and a south wind was blowing. While the wind was penetrating and chilling it had lost much of its coldness in the night. The weather indications for today are for fair and warmer and for Thursday indicating cloudiness, with warmer in west portion. This seems to indicate a cessation of the cold snap for several days at least, a welcome change to most people.

Ice cutting was again resumed this morning, F. G. Egenberger's forces commencing cutting at their field opposite the city while Col. H. C. McMaken's forces were at work on the straight lake, getting a superior quality of ice about ten inches in thickness. Col. McMaken, who is an ardent admirer of Hicks, the St. Louis weather prophet, says that there is no doubt of there being all the ice in the world this winter and people need not worry over the supply being short. He says that Prof. Hicks has hit the weather to the dot every time this winter and that he has absolute faith in there being more ice than he handled.

Banning Gets Good Ones.

Senator Banning landed well in the selection of committees of the senate, and bids fair to make a record as one of the workers of that body. He is made chairman of the committee on Highways, Bridges and Ferries, one of the most important of the senate and is also a member of the committee on Engrossed and Enrolled bills of the judiciary committee probably the most important committee in the senate. Public Lands and Buildings another especially important committee, State Prison, University and Normal Schools another committee which will have its work cut out for it, and Drainage. It can be seen that he drew excellent committees throughout and that his influence in the legislature will be much felt.

Mrs. Nemetz Operated Upon.

From Wednesday's Daily.
Word has been received from John Nemetz, in attendance at the bedside of his wife in Omaha, where she was operated upon yesterday, that Mrs. Nemetz was operated upon at 12 o'clock and passed through the ordeal nicely. The operation was a critical one and the lady stood it remarkably well. While it is too early yet to venture a prediction as to her complete recovery, there is every reason to believe that she will successfully weather the illness and that the operation will be a complete success. This is the hope of her many friends who heard the news of her successful coping with the operation with joy.

Some Interesting Figures.

From Wednesday's Daily.
Register of Deeds Schneider has compiled some very interesting figures on the mortgage indebtedness of the county and city for the past year. They show that during the past year there has been filed in the county 158 farm mortgages amounting to \$418,116 while there was released 213 mortgages amounting to \$445,117. Of city mortgages there was filed 116 of the amount of \$91,821 and released 116 amounting to \$70,242. This showing would indicate that while the farming interests are reducing their mortgage indebtedness the city folks are adding to theirs.

Ice Crop Being Gathered.

From Wednesday's Daily.
The Burlington is now harvesting large quantities of ice at Crystal Lake near Dakota City, and this ice is being used to fill the ice houses of the company in eastern Nebraska. It is of the correct thickness and comes from a bass lake of clear water. A Sioux City company that has the harvesting contract has placed a large plant there for cutting and loading, and any quantity can be secured. Reports yesterday from Crystal Lake near Hastings is that is of harvesting thickness and some will be taken from that place for Hastings storage houses. The company will get ice at Curtis for the McCook division houses. Unusual is the report from Curtis. There ice usually forms long before it is possible to secure it in eastern Nebraska, but this year where twelve inch ice is being harvested in the eastern half of the state the ice at Curtis is said to be but nine inches thick. Thicker ice will be secured there, however, in a day or two, as it is now reported to be freezing rapidly.

Before ice had been formed in eastern Nebraska twelve inch ice was reported at Marsland, four hundred miles away from the Billings line. Last year a large quantity was brought to Lincoln from Marsland because it could not be secured from other places.

The ice field at Crystal Lake, Dakota City, is looked upon by Burlington people as quite an acquisition. Ice can be secured there every year before it can be harvested in this territory, and the air line and water grade from Ashland makes it possible for the company to get it there with little loss of time and with a haul but little more than one hundred miles.

A Cure for Misery.

"I have found a cure for the misery malaria poison produces," says R. M. James of Louellen, S. C. It's called Electric Bitters and comes in 50c bottles. It breaks up a case of chills or billious attack in almost no time; and it puts yellow jaundice clean out of commission." This great tonic medicine and blood purifier gives quick relief in all stomach, liver and kidney troubles and the misery of lame back. Sold under guarantee at F. G. Fricke & Co.'s drug store.

Squirrels Eat Leather.

From Wednesday's Daily.
L. F. Fitch was in the city today from his farm below Rock Bluffs, looking after some business matters. Among other things which brought him to town was to have some harness repaired which the squirrels had been making a meal on. While it is hard to believe he exhibited several pieces of harness which the animals had eaten through, in fact, eating out a piece of leather nearly a foot in length in one place and more than an inch in width. He finds that they have become a regular pest and is anxious for the legislature to so amend the law as to permit their slaughter. Their activity had cost him some little money to repair.

A Higher Health Level.

"I have reached a higher health level since I began using Dr. King's New Life Pills," writes Jacob Springer, of West Franklin, Maine. "They keep my stomach, liver and bowels working just right." If these pills disappoint you on trial money will be refunded at F. G. Fricke & Co.'s drug store. 25c.

Cass County Appointees.

In the senate several Cass County people have secured good positions for the coming session. This morning's papers contain a list of senate employes among whom are noted the following Cass County people. There are probably others whose names are unknown to this paper. Miss May Vallery, copyist; John Brady, custodian; Carrie Banning, copyist. Whether there are others fortunate enough to land jobs in the senate remains to be seen, as the list published does not state where the several appointees are from.

Miss Lucille Bates is appointed a clerk of the engrossing and enrolled bills committee of the house.

G. A. R. Install.

From Wednesday's Daily.
The installation of officers of the G. A. R. took place last Saturday night at the G. A. R. hall, there being a large attendance and a good time manifested. The officers of the G. A. R. who were installed by J. W. Johnson and are as follows:
Wm. Porter, Commander.
W. H. Freese, Sr. V. Condr.
John Renner, Jr. V. Condr.
Mm. McCauley, O. D.
Jas. Hickson, O. G.
H. C. McMaken, Qr. Master.
Thomas Carter, Chaplain.
T. W. Glenn, Adjutant.
J. W. Thomas, Qr. Master Sgt.
Col. H. C. McMaken was elected delegate to the department encampment.

"Rosaland at Red Gate."

The Journal begs to announce to its many readers that it has made the necessary arrangements to commence the publication in the Daily Journal of the story "Rosaland at Red Gate." This story is one by Meredith Nicholson, the author of that tremendous success "The House of a Thousand Candles," and is said by critics to be far more interesting and attractive than that famous work. "Rosaland at Red Gate" is warranted to hold the interest of the reader from the time the initial chapter appears until the closing scene is drawn upon the characters. As everyone is aware the work is one of the very latest out, an up-to-date story and by one of the greatest living American authors. The publication of this delightful story commences in the Daily Journal of next Monday, January 18. Be sure and see that your paper comes to hand with the opening chapters so that you can follow these characters which live and move in the story, to the finish. In the Daily Journal of Monday, January 18.

Makes a Good Agent.

Earl Clark of this city has taken the agency of the National Fidelity & Casualty Company of Omaha, Neb., for this city, Cedar Creek and Louisville and expects in the future to devote his attention to the building up of their business in this section. It is quite needless to say a good word for Mr. Clark who is well known here, having been born and raised in this city. He is a young man of ability and integrity, one well qualified to write the particular form of insurance this company is making a specialty of and in every respect capable of making them a splendid agent. The company he represents is a Nebraska corporation and considered a good, safe and conservative company. The policy contains all the usual grounds which such policies cover and is quite liberal in its provisions. Anyone contemplating health or accident insurance would do well to let Mr. Clark talk to them.

For Reciprocal Demurrage.

Representative Noyes of this county yesterday introduced a reciprocal demurrage bill into the house at Lincoln, the first of the kind to be offered at this session.

The bill provides that freight must be carried forward a distance of not less than sixty miles every day of twenty-four hours. In computing the time of shipment of car load lots twenty-four hours shall be allowed at points where a transfer is made from one road to another; twenty-four hours shall be allowed on cars weighed in transit. Failure to forward freight in a specified time will subject the railroad to pay to the consignee \$1 a day on carload lots or a minimum charge of 5 cents for packages, as liquidated damages, together with damages the shipper may sustain by the delay.

Railroads must notify consignees within twenty-four hours after the receipt of the freight with a statement of the freight bill, or failure to do so the same penalty as for delay attaches.

Railroads shall deliver to their own warehouses or in cases of shipments for track delivery to an accessible place for unloading within twenty-four hours after arrival. Failure to do this subjects the railroads to a forfeit of \$1 a day in addition to damages to consignee. The shipper shall have forty-eight hours for unloading cars of 60,000 pounds capacity. Failure to keep within the limits subjects the shipper to a forfeit of \$2 per day.

COUNTY BOARD MEETS

Do Much Business and Estimate the County's Expense for Year

Plattsmouth, Neb., Jan. 12, 1909.
Board met in regular session with all members present, minutes of previous meeting read and approved, when the following business was transacted in form:

Union Lumber Co., lumber.	54 88

It Does the Business.

E. E. Chamberlain of Clinton, Maine, says of Bucklin's Arnica Salve. "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25 cents at F. G. Fricke & Co.'s drug store.

More Than Making Good.

Some time ago mention was made in these columns of the transfer of the restaurant from Eary Barclay to Hatt & Osborn and the statement was that these gentlemen would find it hard to excel the excellent service established by Mr. Barclay. The Journal is now glad to note that the new firm has made good. It has kept the patronage established by Mr. Barclay and added to it. This has been done by close attention to business, the setting of a good and reasonable table and excellent general service. It is not too much to say that the present meals set in this cafe are far superior to those set by any other establishment of a like character in the city or in fact, in any city of its size in this section. The bills of fare are changed every day and something new is always ready for service to the people. The proprietors have learned that it pays to vary the things furnished the patrons and have found the trade appreciates it. In addition to regular meals, the house is prepared to serve short orders including everything that is eatable. The prices have been fixed at a reasonable scale and every effort is made to please the public.

As both the proprietors are young men, they are alive and full of ginger and want to make the business a winning one. To this end they are trying to secure the public patronage, and they really deserve it. Not alone are they accommodating, but their waiters are also polite and obliging while their chefs are the best to be had in the city. With polite services and excellent cuisine, little more will be asked by the public. A trial of their service will result in established patronage beyond question.

Largest in the World.

"We have what is declared to be the largest ice house in the world over at my home town of Ashland, Neb.," said J. B. LaChapelle, the former well known Mills county editor, while making a call yesterday at the Tribune office.

We naturally asked him for some of the particulars. The ice house is the property of the Swift Packing company, and if it is not the largest one in the world it certainly is a mammoth one any way.

Mr. LaChapelle said the force of men began putting up the annual pack there this week. To completely fill the huge building requires about one month and gives employment to 375 men. The building is over three fourths of a mile in length—some 4,000 feet to be exact. It is 34 feet wide and 39 feet high. It has a capacity of 100,000 tons.

The building is divided into 20 rooms or compartments, each 200 feet long and having a capacity of five thousand tons. The ice is taken from an artificial lake of 200 acres. The ice is now eight inches thick.

It is said that this ice house has only been filled to its full capacity twice in twelve years.—Mills County Tribune.

Rank Foolishness.

"When attacked by a cough or cold, or when your throat is sore, it is rank foolishness to take any other medicine than Dr. ing's New Discovery," says C. O. Eldridge of Empire, Ga. "I have used New Discovery for seven years and I know it is the best remedy on earth for coughs and colds, croup, and all throat and lung troubles. My children are subject to croup, but New Discovery quickly cures every attack." Known the world over as the kind of throat and lung remedies. Sold under guarantee at F. G. Fricke & Co.'s drug store at 50c and \$1.00. Trial bottle free.

It Wouldn't Burn.

There was an amusing incident at the K. P. banquet last night. It was planned to burn the brandy on the pudding in the presence of the banqueters. All was in readiness, the brandy was poured on and a match was applied, but the dingbusted stuff would not burn. Now, several prominent citizens are accused of having drank the greater part of the brandy and substituted water.—Pacific Junction Department Mills County Tribune.

A. S. Will departed this morning

for South Omaha at which place he will look after the disposition of two cars of stock that will be on the market this morning, after which he will resume his journey on a business trip to Denver and other western points.

Mrs. C. F. Vallery departed this morning for St. Joseph, Mo., where she will consult a specialist in regard to an illness with which she has been afflicted for some time. She goes to the same physician that Mr. Vallery has been taking treatment for some time.

Ed. H. McGowan, of Gibbon, Neb., brother of the late A. W. McGowan, formerly of this city, was an overnight visitor with his uncle, W. D. Jones, departing this morning for Logan, Iowa, where he goes to attend a fine stock sale. From there he will return home.

INSTALL OFFICERS

Members of I. O. O. F. and Rebekahs Hold Joint Ceremony

From Wednesday's Daily.
The members of the I. O. O. F. and the Rebekahs last evening held the installation of officers for the year 1909. For the I. O. O. F. the installation ceremonies were conducted by Mr. F. H. Steimker assisted by several members of the lodge. The officers installed were:
Wm. Holly, N. G.
Thos. Olson, V. G.
Virgil Mullis, Sec.
J. P. Sattler, Treas.
Emil Ptak, Warden.
Philip Theilroff, R. S. N. G.
John Corey, L. S. N. G.
John Busche, R. S. V. G.
P. C. Petersen, L. S. V. G.
Dave Walengren, I. G.

At the same time the Rebekahs held their installation and Mrs. Bertha Petersen installed the following officers who will serve the ensuing year.

- Mrs. J. M. Leef, N. G.
- Mrs. H. Waintroub, V. G.
- Mrs. F. H. Steimker, Treas.
- P. D. Bates, Warden.
- Mrs. H. McKay, Condr.
- John Busche, R. S. N. G.
- Mrs. A. Kurtz, L. S. N. G.
- Mrs. Jno. McNurlin, R. S. V. G.
- Mrs. Wm. Holly, I. G.
- Mrs. John Busche, O. G.

The attendance at the installation was very good there being many members present and a very fine time was had. After the joint installation, a fine dinner was served at the hall which had been specially prepared for the occasion by the Rebekahs. The dinner was one of the finest these two strong and virile lodges, have ever served and it was thoroughly enjoyed by all. The members of the Rebekahs had made special preparations for this installation and it is very much to their credit to say that they acquitted themselves with great honor.

J. B. Meisinger Not So Well.

From Monday's Daily.
L. R. Meisinger, one of the younger branches of the Meisinger family paid the Journal a pleasant call this noon, coming in to look after the subscription of his father, the well known and popular J. B. Meisinger. He reports that his father is not in very good shape, the weather making his rheumatism worse, and he is unable to get out and about very much these days. It is to be hoped that the weather will soon moderate and this popular gentleman will be able to once more get to town and meet his host of friends. While here Mr. L. R. Meisinger also paid the subscription of Mr. John B. Meisinger of Lincoln, one of the paper's constant readers.

Don't Take the Risk.

When you have a bad cough or cold do not let it drag along until it becomes chronic bronchitis, or develops into an attack of pneumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of relief. From a small beginning the sale and use of this preparation has extended to all parts of the United States and to many foreign countries. Its many remarkable cures of coughs and colds have won for it this wide reputation and extensive use. Sold by F. G. Fricke & Co.

Played Military Dominoes.

Some fifty-three young people had a jolly time playing military dominoes last Friday night at the J. A. Swope home, as guests of Ralph Townsend and Wendell Chambers. Those attending from a distance were Misses Margaret Hart, and Mary Cullough, South Omaha; Miss Winnifred Parmele, Plattsmouth and Miss Lucille Record, Pacific Junction.—Mills County Tribune.

Why Refer to Doctors

Because we make medicines for them. We tell them all about Ayer's Cherry Pectoral, and they prescribe it for coughs, colds, bronchitis, consumption. They trust it. Then you can afford to trust it. Ask your own doctor.

The best kind of a testimonial—
"Sold for over sixty years."

Made by J. C. Ayer Co., Lowell, Mass.
Also manufacturers of
SASSAPARILLA
PILLS
HAIR VIGOR

We have no secrets! We publish the formulas of all our medicines.

Ayer's Pills greatly aid the Cherry Pectoral in breaking up a cold.
