### THE ELKS ENTERTAIN

Have Enjoyable Social Time Last Evening at Club Rooms

The social given last evening by the Elks at their rooms in the Coates Block, was a success far beyond the dreams of the promoters. Despite the exceedingly bad night, the dark, foggy weather and the muddy conditions of the streets there was a very large attendance and a royal time was had. Perhaps no social event of like character ever held in the city measured up with this in point of arrangements and management.

From eight to ten in the evening the assemblage indulged in card playing, there being a large number of tables occupied and a great deal of amusement had. In addition to the card playing, there was some very fine musical numbers arranged upon the program among others who delighted the visitors being Prof. H. S. Austin, the Plattsmouth favorite, who sang several superb numbers with telling effect. So much has been said in the past complimentary of Prof. Austin's fine voice that further comment would be needless and quite superfluous. As always in the past, the splendid singer found it difficult to obtain release from the clamorous audience who would seemingly never be satisfied. Miss Ella Margaret Dovey, also favored the gathering with some excellent selections, being like Prof. Austin, one of the city's favorites. Like him also she found it extremely difficult to obtain release from the demands of her audience.

In addition to this program there was a dainty and refreshing luncheon served which was most appetizingly prepared by Mrs. Wm. McCauley. It consisted of oysters, celery, waffles and cakes, all most toothsome viands. Those who served the luncheon were Misses Catherine Dovey, Marie Donnelly, Hallie Parmele, Lucille Gass, Madeline Minor, Helen Clark.

After the cards and refreshments, the rooms were cleared and dancing was had until the midnight hour there being many couples to indulge in this delightful pastime. The music for the dance was furnished by Miss Pearl Mumm on the piano and was all that could be desired, Miss Mumm being an accomplished and finished musician.

So successful was this social that

it is to be hoped there may be others given in the future by this delightful lodge, and that their rooms may be the scene of many more gatherings of equal pleasure and delight. Under favorable weather conditions there can be no doubt that the attendance which last evening numbered some sixty to seventy couples would be far in excess of those figures.

#### Pleasant Birthday Surprise.

Tuesday night a very pleasant surprise was given Mrs. Mary E. Thompson at her home in the southern part of the city, many of her old friends gathering to pay their respects. The occasion was Mrs. Thompson's sixty-fourth birthday and the surprise was a complete one. The many guests found themselves most agreeably entertained by their hostess who soon recovered from her surprise and proceeded to make her callers feel that they were at home. The evening was very pleasantly spent in visiting and when the guests came to depart they did so with genuine regret, wishing their hostess many recurring anniversaries.

Those attending were Mesdames R. H. Patton, Seidlitz, G. M. Patton, R. Hetherington, F. E. Denson, Thos. South, R. Richter, Will Toogood, B. J. Reynolds, L. E. Vroman, J. O. Thomas, Coffman, Frank O'Neill, F. M. Phebus, W. M. Brisse, Mr. and Mrs. J. E. Thompson, Misses Ruth and Mary Hetherington, Trua South, Mesars. Glen Thompson, R. O. Phebus, Getto and Vernie Seidlitz, Winiford Vroman and Ward Patton.

#### Mrs. Nemetz Improved.

Mrs. John Nemetz who was recently operated upon at Omaha, is reported to be getting along very nicely at the hospital and there are great hopes entertained that she will ultimately recover. There were several Plattsmouth visitors at the hospital yesterday and each one found her to be full of hope and much encouraged over her condition. The only unfortunate feature of the matter is that he will later have to undergo another and very serious operation. It is to be hoped that she will recover from this latter operation as easily as she has conquered the first one. It will likely be sometime, however, before the second operation will be attempted.

Mrs. John Geiser is spending the day in Omaha being a passenger for that city on the early train.

#### In to Buy Stock.

Henry Huff of Spalding, Neb., was in the city yesterday, the guest of Luke L. Wiles, coming down from Lincoln with that gentleman at the close of the Red Poll Breeders' meeting. Mr. Huff some time since purchased a herd of these cattle from Mr. Wiles and was so pleased with the result of his purchase that he came down to invest in another bull of this breed. He spent yesterday with Mr. Wiles inspecting that gentleman's fine herd and also made a trip to the fine stock farm of Henry Hell who is also a noted breeder of Red Polls. He looked over Mr. Hell's herd and invested in a bull from his herd. Mr. Huff has the distinction of having produced tripelet calves, from his animals, these consisting of a bull and two heifer calves, really an anomaly in breeding. All of these calves are living and are fine animals. Mr. Wiles drove him in from his farm this morning and he departed for his home on the early train.

#### Death of Mrs. Kink.

Henry Herold this morning was in receipt of a letter from Mr. King of Thompson, Mo., announcing the death of his son, of pneumonia. Mrs. King will be recalled as having been a resident of this city for some six months while her husband was acting as manager of the Coates Dry Goods Company. During her brief residence here, she had made a large number of friends who will hear of her demise with greatest regret as she was a lady of much culture, refinement and sociability. Their sympathy is extended to the bereaved husband.

#### Next Reunion at Weeping Water.

Colonel P. S. Barnes while at Lincoln last week attending the meeting of the officials of Eastern District of Nebraska, G. A. R., landed the next reunion for Weeping Water. As so many of the officers have always been please with the reunions held here it does not require more than the asking to get the majority to come where they can be accommodated and entertained. Let's all together make it better than ever, and entertainment that will appeal to more of the G. A. R. and not so much red light and lemonade.—Weeping Water Republican.

C. H. Miller of Murray was spending yesterday in the city having stopped over night at the Perkins Hotel.

### INSTALL BOILER

Nebraska Lighting Company Making Great Improvement at Plant

There should be no more trouble with the lights in the future at least so far as the boilers at the lighting station are concerned. Today McMaken & Son who have had the contract for installing the large, new boiler for the Nebraska Light Company completed their work and the boiler will be ready for immediate use. This is the largest contract this firm has undertaken in the city, the boiler being the largest installed here and one capable of giving the company all the power required. The work has been done in the usual excellent manner which this firm does all its work in, and the company is thoroughly satisfied. The work of the brickmasons will take several days longer to complete but so far as the installation of the boiler is concerned that is done.

With this improvement much of the trouble recently experienced with the lights should be done away with and from now on there should be no difficulty in keeping the lights up. With the installation of this boiler, the company gets itself prepared where all that would be required for a thoroughly complete electric light plant would be the addition of several electric machines which would be placed in if there was sufficient demand by the public for them.

Last night was a gentle reminder that the city is still without lights. Those who braved the intense darkness and ventured abroad are quite vigorous this morning in condemning the policy which is responsible for such dark nights as last night was. The region of darkness is popularly supposed to lie beyond the Styx but if it is any worse over there than Plattsmouth on a night like last night, the human conception of darkness is indeed blunt.

#### Has Hand Badly Cut.

Yesterday while shearing steel at the shops Ernest Wurl had the misfortune to have his right hand severely cut. The cut extends across the palm and is quite painful although not dangerous. It is so severe that the young man will take an enforced lay off for several days from his duties.

#### To Revise Road Tax Law.

Senator Banning yesterday introduced into the senate a bill which will revise the present law governing the payment of road tax. This bill has been advocated by the Senator's constituents who believe that it would result in better roads throughout the county than now exists while it would not increase their payments. That some such a measure is badly needed especially in the hilly sections of the county is manifest. As matters stand at present, the sections of this county which need the road work worst do not get it. The title of the bill is as follows:

S. F. 130—Provides that road tax in counties not under township organization shall be payable half in cash and half in labor and that it must be spent in the district from which it is collected.

#### Marshall Bros. New Agent.

One of the best and most popular nursery firms in this section of the country is that of Marshall Bros. of Arlington, Neb. This enterprising firm has maintained for some time past a branch house at Weeping Water and during the period in which they have done business in this county, their services and business methods has been thoroughly satisfactory. Andrew Stohman near Louisville, has been prevailed upon to accept the county agency for this firm's choice products and this is an additional reason why they should receive good patronage. Mr. Stohman is an energetic and worthy citizen, a business man of standing and one of the best men whom Marshall Bros. could have chosen for their agent. He solicits orders for good stock and can be addressed at Louisville. He guarantees satisfaction.

#### First Woman Lobbyist to Register.

Mrs. Frances B. Heald, the state president of the Woman's Christian Temperance Union, is the first woman to register with the secretary of state under the anti-lobby law.

Mrs. Heald, who is well known in this city, walked into the office yesterday and asked Secretary Junkin for the book, signed, shook hands with the secretary and then went up to the legislative floor of the capital. She resides at Osceola and she proposes to work for temperance.

Perry Marsh was a passenger on the mall train at noon for Omaha, having business matters to attend to.

#### Visits Sick Folks.

Anton Koubek spent yesterday in Omaha, looking after some business matters and visiting with friends. He took advantage of his trip to visit the hospital and inquire after several Plattsmouth patients there. He found Henry Hesse much improved and getting along nicely, with every prospect of recovering at an early date. He also was informed of the favorable progress of Mrs. John Nemetz and saw W. L. Street walking about the veranda of the hospital, and getting along in nice shape. He was told that Mrs. Frank Sivey was progressing really better than expected and that her condition was quite favorable.

R. B. Windham was a passenger this morning for Omaha where he will attend a meeting of the trustees of the School for the Deaf and Dumb today. There will be a change in the personnel of the board at this meeting Trustee Detwiler going out and the new trustee Mr. Sherman taking his place.

Pocket books—Gering & Co.

### MORE PROFIT IN STOCK RAISING

can be made if the digestive capacity of your animals is increased and perfect health is maintained. Dr. Hess Stock Food is the prescription of Dr. Hess (M. D., D. V. S.) for increasing the digestion, regulating the bowels, purifying the blood and relieving the minor stock ailments. A healthy animal only digests about 50 per cent of its food. By the addition of bitter tonics this amount can be increased. If a healthy animal can be improved, think of the profit in feeding.

### Dr. HESS Stock Food

to an unthrifty animal. It restores health and compels the animal to convert the largest possible percentage of the food eaten into bone, muscle, milk, fat etc., permitting less to pass off as waste. Dr. Hess Stock Food is the scientific kind; it has the medical and veterinary institutions back of it. Sold on a written guarantee 100 lbs. \$5.00. 25-lb. pail, \$1.60. For sale by
