For Rheumatism.

The latest news of medical research announce that rheumatism is the result of fermentation of food in the intestines and that the treatment should have in view to prevent such fermentation. This can be accomplished only by strengthening the organs of digestion so they can easily digest the food. The best way to strengthen them is to use Triner's American Elixir of Bitter Wine. It will stimulate the weak and lazy system to an energetic activity and will not allow the food to ferment. The bowels will work regularly and will prevent the accumulation of rheumatic poison in the body. The same is true in other diseases where the main symptoms are nausea, constipation or unclean complexion. At drug stores, Jos. Triner, 616-622 So. Ashland Avenue, Chicago, Ill.

Mrs. L. Tyler and family of Havoclock, Neb., who have been visiting near the city the guests of C. A. Harvey and wife, Mrs. Tyler's parents were passengers on the mail train for their home.

COAST WIRES ARE KEPT HOT.

President Seeks to Prevent Anti-Jap Legislation in California.

CORPORATIONS BACK OF MOVE.

Washington Officials Hear They Are Mainpring of Hostile Oriental Agitation—Coolie Transportation Is Threatened With Destruction.

Washington, Feb. 3.—No single question, nor indeed any group of questions, is absorbing the interest and concern of the administration at this moment to the same extent as certain phases of the anti-Japanese agitation in California.

The president has been in communication with many reputable persons who should be thoroughly informed as to the conditions on the Pacific coast. It is admitted that a systematic agitation was in progress on the coast, but a significant feature of its lack of strength was the fact that the labor leaders had taken no prominent part in it. It even has been stated to the administration that the real mainspring of the agitation was to be found in some of the great corporations that had found their profitable business of coolie transportation threatened with destruction by the success attending the efforts of the administration to stop this class of immigration. For the fact is that, in the opinion of the administration, the negotiations with Japan for a practically complete closure of American ports to the entry of Japanese laborers are certainly jeopardized by the extreme utterances of certain persons in California and by the mere consideration of such resolutions as were entertained by the Nevada legislature.

Even agreements already reached, which are being carried out in perfect good faith on the part of the Japanese government, are regarded as endangered, in the sense that the present agitation might very naturally tend to abate the interest of the Japanese officials in the execution of their obligations in view of the unfriendly attitude by some elements on the Pacific coast. It is these considerations that have influenced the president in concluding that everything possible should be done to prevent legislation by any state that would discriminate against the Japanese as a class apart from other foreign elements entering America. The president has entire confidence in the people of the Pacific coast and is certain they will do right in this matter.

The administration is much pleased with the tone of the speech of President Komura in the Japanese diet so far as it touched on the relations between America and Japan.

Anti-Jap Bills Up in California.

Sacramento, Feb. 3.—Another was added to the long list of anti-alien and anti-Japanese bills that are a special order of business in the assembly today. Grove L. Johnson, chairman of the committee on judiciary, reported out favorably his measure specifying "Japanese" in the law segregating Mongolians and Indians in the public schools. It was the attempted insertion of this word "Japanese" in the statute that caused President Roosevelt two weeks ago to ask Governor Gillett to stop anti-Japanese legislation. All of the anti-Japanese measures now before the assembly were taken up, beginning with Drew's new anti-alien land bill, this morning. In the senate the committee on executive communications reported on the recent message of Governor Gillett (dealing with the subject of Japanese legislation). The report advises against the passage of any of these measures, declaring it to be the sense of the committee that such legislation would be unconstitutional.

Nevada Solons Pass Anti-Jap Bill.

Carson, Nev., Feb. 3.—The assembly of the Nevada legislature accepted the anti-Japanese resolution, after it had been so amended that all reference to President Roosevelt had been stricken out. The resolution will undoubtedly be passed by the senate as it stands.

PANAMA RESENTS INSULT.

National Assembly Adopts Resolution

Protesting Against Rainey Charges.

Panama, Feb. 3.—The national assembly has unanimously approved a resolution protesting what it described as "the slanderous assertions made by Representative Rainey in the American congress against President Obaldia, which assertion deserved to be considered only because of the official character of the one who made them."

The resolution concludes as follows: "The assembly publicly and solemnly protests against the insult to the chief executive of Panama, his excellency, Domingo de Obaldia, as implied in the congress of a friendly nation."

Horace Butler Ends Life.

New York, Feb. 3.—Horace Butler, a member of one of the oldest families of Manhattan, died in flower hospital from a bullet wound in the right temple, inflicted by himself in a room at the Hotel Roland. Butler left several letters, in which he declared that the fear of going insane had driven him to his act of self destruction.

A Prose Poem.

The story of the Galliean is not only perennially beautiful but of thrilling heart interest for "As long as the heart has passion, As long as the life has woes," the sacrifice for sin, whether regarded as the dream of an enthusiast, the God like act of man, or the man like act of God, will ever play upon the mysterious instrument, the soul, the prelude of the highest and holiest thoughts as well as sounding the deepest depths of tragedy and despair.

And the "Holy City" as portrayed at the Parmele on Wednesday, February 10, does all of these.

Jerusalem is still the hearts center of the universe, and the Holy land the most interesting spot on earth, preface the tragedy of the cross. "A land without ruins is a land without memories—a land without memories is a land without history." A land that wears a laurel crown may be fair to see. But twine a fey say cypress leaves around the brow of any land, and be that land barren, beautiful and bleak, it becomes lovely in its consecrated coronation of sorrow, and it wins the sympathy of the seer, and of history. Crowns of roses, crowns of thorns endure. Calvaries and crucifixion take deepest hold of humanity—the triumphs of might are transients—they pass and are forgotten—the sufferings of right are graven deepest on the chronicles of nations."

Thus of peculiar interest must forevermore be the mountains, "round on earth, in the midst of that sacred soil, sanctified by the foot prints of the Man-god who went about doing good.

"It moves one's eyes to pity.

The afternoon and evening was well spent and enjoyed by all. A sumptuous dinner was served of which all participated after which Mrs. Bish was presented with a very pretty hand painted cake plate in remembrance of the Ladies' Club. Those present were: Mesdames S. C. Keckler, Thomas E. Keckler, A. N. Speer, Dr. Banghart, A. Jenkins, Robt. O'Brien, D. D. Braun. At the hour of 9 a. m. they all bade Mrs. Bish farewell and wished her much joy in her new home.

It moves one's heart to love.
