Beautiful Wedding.

At the beautiful home of Chas. Cook in the south part of town last night at 9 o'clock occurred the marriage of Mr. Glen Vallery and Miss Louisa Shepherdson. Owing to the sickness of the sister of the bride the ceremony was performed in the presence of the family of Mr. Cook and a very few of the intimate friends of the bride. The contracting parties entered the parlor to the strains of "Mendelssohn's Wedding March" played by Miss Margaret Dovey, there they were met by Rev. J. H. Salisbury who performed the ceremony which united these two lives. After the congratulations of their friends, an hour was spent in quiet merriment and the guests departed wishing them every blessing and joy of a long and happy life.

The bride was beautifully gowned in a white Persian lawn trimmed in lace insertion and satin. The groom was dressed with faultless taste for the occasion and it was an exceedingly pretty affair throughout. They will begin keeping house about two miles west of Mynard where the groom is engaged in the agricultural business.

Prof. H. A. Howell, of Havana, Cuba, Recommends Chamberlain's Cough Remedy.

"As long as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3, our baby was taken sick with a very bad cold, the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think that he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief and now three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by F. G. Fricke & Co.

The Interurban line from Omaha to Beatrice via Papillion, Louisville, Lincoln, Crete, Wilber and DeWitt will be built at once. All its stock has been taken by English capitalists and the money is ready for use. This will be a great boom for Crete, and the Commercial Club should see to it that this chance to get the interurban be clinched. Get busy. The World-Herald says it is a sure go this time.—Crete Democrat.

DAILY JOURNAL 10c A WEEK.

TARIFF REVISION BEGINS TODAY

Ways and Means Committee at Work on Payne Bill.

MAIN POINTS IN MEASURE

Forty to Fifty Millions Added to Government Revenue—Inheritance Tax Included—Coffee Escapes, Tea Taxed—Boots and Shoes Reduced.

Washington, March 18.—The full membership of the house committee on ways and means, including Democrats as well as Republicans, met at 10 o'clock this morning and began the formal consideration of the Payne tariff bill. The senate committee on finance at the same time began informal consideration of the measure.

Downward revision, maximum and minimum provisions which impose an average maximum duty of 20 per cent in excess of the present tariff, and numerous provisions by which it is estimated that the revenue to the government will be increased from \$40,000,000 to \$50,000,000 are the salient features of the new tariff bill which was introduced in the house by Representative Payne, chairman of the ways and means committee. The recommendations made by President Taft that an inheritance tax be provided and that a limited amount of tobacco and sugar be admitted free from the Philippines are included in the bill. The measure also provides for the issuance of Panama canal bonds to the amount of \$40,000,000 to reimburse the treasury for the original purchase of the canal and re-enacts the provision for the issue of treasury certificates, the amount being increased from \$100,000,000 to \$250,000,000.

While there is no duty imposed upon coffee, tea is taxed 8 cents when imported from the country where it is produced and 9 cents when from other than the producing country. The internal revenue tax on cigarettes is materially increased, while the tax on beer and whisky is undisturbed. A cut of 50 per cent is made in the steel and lumber schedules, and iron ore, hides, tallow, cottonseed oil and works of art more than twenty years old are placed on the free list.

Boots and Shoes Reduced.

The tariff on boots and shoes is reduced 40 per cent and on other leather manufactures in proportion. The pottery schedule remains about the same, but the duties on window and plate glass of the smaller sizes are increased, while the duties on the larger sizes are reduced. The tariff on wool of the first and second class, used principally in clothing, is not disturbed, but on wool of the third class, known as carpet wool, is reduced on the cheaper grades. A 5 cent reduction is made in the duties on shoddy and waste, while wool tops are assessed 6 cents more than the duty on scoured wool, which is unchanged. The recommendations for placing wood pulp on the free list and reducing the duties on print paper with certain restrictions, made by the Mann commission of the house, are incorporated in the bill. The duty on refined sugar is reduced four one-hundredths of 1 cent a pound and on dextrin ½ cent a pound. A reduction of ½ cent a pound is also made in the duty on starch, with the exception of potato starch. Zinc in ore is assessed 1 cent per pound for the zinc contained. The tariff on pig iron is reduced from \$4 to \$2.50 per ton.

The principal increases are made in the duties on lemons, cocoa and substitutes for coffee, coal tar, dyes, gloves and coated papers and lithographic prints.

As was expected, the new tariff bill is made on a maximum and minimum basis, with the provision that the maximum rates are not to go into effect until sixty days after the passage of the bill. The reciprocity provisions are contained in the paragraphs assessing duties on bituminous coal and coke and agricultural implements, by which these articles are given entry free of duty when imported from countries which permit the free importation of these articles from America.

Tax on Inheritances.

The inheritance tax provision of the bill is similar to the New York state law. It provides a tax of 5 per cent on all inheritances over \$500 that are collateral inheritances, or in which strangers are the legatees. In cases of direct inheritance the taxes prescribed are: On \$10,000 to \$100,000, 1 per cent; on \$100,000 to \$500,000, 2 per cent; and on those over \$500,000, 3 per cent. It is estimated that \$20,000,000 annually will be derived from this tax. The maximum and minimum provisions of the bill does away with the necessity of continuing the foreign trade agreements. The abrogation of these is provided for in a section which authorizes the president to issue notices of the termination of these agreements within ten days after the bill goes into effect.

A provision in the bill is designed to meet the conditions resulting from the patent laws of Great Britain, which require that patentees must manufacture their articles within Great Britain. This provision applies the same rules to patents taken out in this country by aliens as applies to Americans in the country of the aliens. Drawback privileges are extended by the bill.

KING SEES WRIGHT FLIGHT

American Aeroplanist Does Some Aerial Stunts for England's Ruler.

Pau, March 18.—King Edward witnessed two flights by Wilbur Wright and showed an equal amount of enthusiasm with the other spectators in the remarkable accomplishments of the American aeroplanist.

Wilbur and Orville Wright and their sister, Miss Wright, were presented to his majesty. Wilbur Wright then conducted the king to the aeroplane shed, where the latter minutely examined the mechanism of the machine, which was decorated with American, British and French flags. His majesty watched the preparations for ascent with the greatest interest, taking a group for a photograph.

Mr. Wright made the first ascension alone. He remained in the air for seven minutes, performing marvelous evolutions with the utmost precision around the king and his party, and coming to the ground without difficulty. On the second flight, Miss Wright was a passenger. They soared to a great height and then skimmed along the ground and disappeared in the direction of Pau. They reappeared after an interval of six minutes, descending amid applause from the king and other visitors. His majesty warmly congratulated Mr. Wright on his success and then returned to his hotel.

CUBAN INSURGENTS ARE SURROUNDED

First Fatality in Uprising is Death of Rebel Leader.

Havana, March 18.—The indications are that the government is now in a fair way to crush promptly the incipient revolution which broke out in the province of Santa Clara Monday night. The palace officials announced that the father of two of the members of the band headed by Sergeant Cortez of the rural guard had visited General Montegudo, chief of the guard at Camajuani, and told him that the insurgents implored the clemency of the government and were anxious to surrender on the promise that their lives would be spared. General Montegudo, accompanied by a strong escort, thereupon started for the insurgent camp. The general expected to receive their surrender before evening. The insurgents are now surrounded by a cordon of more than 1,000 rurales, drawn from the garrisons in various parts of the island, but owing to the rugged character of the country it will be extremely difficult for the troops to come to close quarters with the insurgents. While the government still insists that the band consists of only eight men, it is alleged that the movement is far-reaching. It is declared that Cortez is accompanied by fully 100 men, mounted and well armed.

More gratifying to the government than the prospective capture of the insurgent band was the arrest and subsequent killing of former Captain Lavastida of the rural guard, who is believed to have been the principal instigator of the uprising. Lavastida was arrested by Major Arteaga of the rural guard and was charged with conspiracy against the government. While on the way to Remedios under escort it is alleged that Lavastida attempted to escape, whereupon Colonel Esquerro, in command of the escort, shot and killed him. Heretofore this has been a common method in Cuba of dealing with inconvenient prisoners.

MOROS KILL TWO SOLDIERS

Infantry Sent to Relief of Constabulary Attacked by Hostile Band.

Manila, March 18.—A dispatch from Lake Lanao reports that a band of hostile Moros attacked Lieutenant Furlong's detachment of constabulary at Bordong and after a sharp fight eight Moros and two members of the constabulary were left dead on the field, while two soldiers and one civilian were wounded. A company of the Twenty-fifth Infantry and a detachment of scouts have gone to the aid of Furlong's force. The day after the fight a constabulary soldier deserted after stealing five rifles belonging to members of the detachment.

Mafia Threatens American Consul.

Palermo, March 18.—American Consul W. H. Bishop has received letters threatening his life and declaring that the Mafia will punish him even worse than it did Petrosino if he continues to persecute Sicilian immigrants who wish to find a refuge in New York or if he continues to excite the Italian police and judicial authorities to molest persons suspected of complicity in the plot against Lieutenant Petrosino.

Earth Shock at Reggio.

Reggio, March 18.—A strong earth shock was felt here. It was especially severe at Bellaro and other small villages along the coast, causing great alarm among the people. The shock seems to have been accompanied by a particularly high tide, as both here and on the coast near Brindisi small boats were carried high and dry upon the land and wrecked. There were no casualties.

New Record for High Kick.

Southboro, Mass., March 18.—A new world's record in the running high kick was made at St. Mark's school here by Harold Beebe of Malden. Beebe did 9 feet 10½ inches.
