The Blair-Plattsmouth high school debate tonight will be the last local debate held here this year. It will be an interesting contest from the fact that both teams are winners in previous contests. It also happens that these schools were rivals in the declamatory contest last week. Patrons of the school cannot afford to miss this debate. It begins at eight o'clock.

The plan of exemption from examination on account of scholarship will be continued this quarter with this provision that anyone who is absent more than two days during the quarter whether the absent is or unexcused, will be required to write on all subjects. One day only will be given for examinations instead of two as heretofore and the examination will cover the year's work in the grades and the semesters work in the high school.

We believe if people in general were in a position to see as the teachers the evil effects of permitting young children to be upon the streets practically all the time from dismissal of school until bed time they

would be more careful about allowing their children to be away from home and on the streets.

The paper and school exhibit relating to commercial and industrial geography presented by one of our teachers at the East Central Nebraska Teachers received much favorable comment both from teachers and from the press as did also the one on Loss and Gain in Busy Work presented by one of our primary teachers before the Primary Section.

CASTRO LANDS AT FORT DE FRANCE

Takes Up Residence in Only Port Open to Him.

ARRIVES ON FRENCH STEAMER

Former President of Venezuela in Furious Rage Over Interdict Issued by British Government and Declares Justice is Imminent.

Fort de France, April 8.—Cipriano Castro, the former president of Venezuela, has taken up his residence, temporarily at least, at this place. He arrived here on the French steamer which sailed from Bordeaux on March 8 and he very willingly came ashore today, owing to the British government's refusal to permit him to disembark at Port of Spain.

As the port authorities here had received no communication from the French government with regard to Senor Castro, they permitted him to land without opposition, considering him simply as a private individual. He was accompanied by his secretary, his wife and the other members of the party continuing on their journey to La Guayra. Castro has taken apartments at the Hotel Ivaes, to which he withdrew immediately and denied himself to all visitors.

The former president was greatly wrought up over the action of the British government, and when seen on board the Guadeloupe soon after the arrival of the vessel he expressed himself as having been outraged by the treatment accorded him by the government's concerned in his interdiction. He showed the utmost indignation at the action of President Gomez, saying:

"It was I who placed him in his high position, and I have been very badly recompensed. But justice is imminent and the only satisfaction that I desire is that the light shall be thrown on those infamies which have been attributed to me."

Excitement in Trinidad, Port of Spain, Trinidad, April 8.—There is much excitement in the Venezuelan colony here over the interdict issued by the British government against ex-President Castro. Prior to the announcement that Senor Castro would not be permitted to land in Trinidad, the coming of the ex-president to this port was looked forward to by the Venezuelans here with some uneasiness, and now the interest is centered in the question as to how long Castro will be permitted to remain in Port de France.

Whisky Topic at White House President Again Called into Controversy as Referee.

Washington, April 8.—The bitter controversy which has been in progress since the pure food law was enacted as to "what is whisky" was renewed at the White House before President Taft as referee, and the debate enlisted the services of many distinguished lawyers, among them Joseph H. Choate, former ambassador to Great Britain, and John G. Carlisle, former secretary of the treasury. In addition, there were present the representatives of practically all the big distilleries of this country. Mr. Choate appeared for Canadian interests. Mr. Carlisle represented distillers of his native state, Kentucky. Attorney General Wickersham, Secretary of Agriculture Wilson and Dr. Harvey W. Wiley, the pure food expert, were among the government representatives heard. The hearing continued for more than two hours. This was the second time the president has been called into the controversy.

Four Killed in Tax Riots Spanish Soldiers Called Out and Firing on People Who Resist Payment.

Monteleone, Calabria, April 8.—Four men were killed and many others wounded in a conflict in this town with the local carabinieri. The carabinieri were called out, whereupon the people sounded the tocsin and a fierce riot followed, in which the soldiers fired on the people.
