THEIR LABORERS OVER

Democrats Generally Pleased With the Laws Enacted.

Lincoln, Neb., April 6.—(Special Correspondence.)—Now that the legislature has adjourned it might be well to inquire whether or not some of the strictures sought to be placed upon it by republican newspapers is justified. We venture the statement without fear of successful contradiction that no legislature that has ever met in Nebraska has placed so many meritorious and wise laws upon the statute books, and that no legislature has passed measures that so little fault can be found with. It has absolutely kept the faith, and has enacted into law the pledges made to the people at the election last fall. The two great things demanded were the passage of a bank guarantee law and restoration of the precinct assessors. While these two things have been done, many other remedial measures have been passed. The bank guarantee law is conceded by bankers to be the best that could be framed. President Black, who for some time was the president of the bankers association in this state, made this statement to the committee before which he appeared at Lincoln. The objections that have been made as inspired by interests that are controlled by selfish reasons, and by men who do not concede that other men are entitled to the same opportunities as themselves. The precinct assessors will have charge of the assessment schedules hereafter and will be elected by the people themselves.

In addition to this the right of the state board of equalization to raise the totals of the county assessments and valuation has been taken away. This has been a glaring evil and one of which the people bitterly complained. The primary law has been changed so that platforms will be written hereafter before the primary election. The clerk of the supreme court has been placed upon a salary basis and it is conceded that the state will be richer each year by more than \$10,000. A tax has been placed upon corporations providing for the payment of fees for filing articles of incorporation that will net the state treasury \$300,000. The special bill of Governor Shallenberger has been passed which provides that no stocks or bonds can be issued by corporations without first obtaining the consent of the state railway commission, thus protecting the investor, and at the same time preventing the loading up of a corporation with watered stock thus necessitating the charging of exorbitant rates to pay the interest. The physical valuation of railroads has been provided for making it possible to get at the real value of these properties. Hereafter it will not be necessary to take the word of the company as to the value of its property. This will be done by the state itself, and will forever settle the rate question; as rates will be based upon the value of the property and justice done to everybody. A new oil law by which Kansas oil may be shipped here for fuel, and other provisions that will save the people of this state \$250,000 in the next year. The Ollis warehouse law will be in force by which cereals can be stored, certificates issued against it and these made negotiable, thus preventing the farmer from being compelled to sell his grain at any price that is offered. The appropriations have been kept within the revenues of the state treasury. No legislature that has ever met in Nebraska has ever given as much attention to educational matters as has this one. Every bill has had for its object the promotion of the educational interests of the state has received earnest attention and enthusiastic support. The members of this body have taken the position that there is not a tax payer in the state who would seriously object to appropriating money for the benefit of our educational interest. The bill providing for the purchase of the Wayne Normal school buildings and appropriating \$90,000 to pay for the same has passed. It is conceded that these buildings are worth a sum greatly in excess of this amount and that the state has done a wise thing in making the purchase. One of the best measures passed by this legislature from the standpoint of right and justice is the bill preventing the taking of soldiers' pensions at the different soldiers' homes. It has been the practice of the last administration to take these pensions, or a certain per cent of them and utilize the funds in running the home. The soldiers themselves bitterly complained of this and efforts were made by their friends to obtain injunctions preventing the state board from mulcting the old veterans. The more serious that the soldiers injuries were and the greater the pension he obtained the more the board took from him. All this will be prevented by the new law, and these men who guarded the nation will be permitted to utilize the few dollars the government gives them as they see proper. The bill providing that no more drinking will be permitted on trains will become a law. In speaking of legislation along temperance lines it may be said that the Slocum law as it now stands has not been changed in any respect. Strong efforts were made by the brewery interests to amend this law, and thereby open up the gates for a more liberal construction, but these efforts were nipped in the bud. Every measure that had that purpose in view has met with instant death. It has been the sense of this legislature that the liquor question was not an issue in the campaign last fall except locally, and that there was no mandate from the people to change existing laws and in consequence no radical laws upon this question have been placed upon the statute books. It must not be forgotten that the new oil law is of vast importance to the people of this state. It reduces the rate on Kansas oil and it will now be possible to get this oil here for fuel purposes. It changes the test so that the quality of the oil may be tested as well as its inflammability. It is conceded by everyone who has investigated this matter that the new law will be the means of saving a large sum to the people of the state. Gasoline is two and three cents per gallon cheaper than it was one week ago. Governor Shallenberger has signed a bill providing that hereafter it will be the duty of the road overseers to see that carcasses of dead hogs are buried within twenty-four hours after the hog is dead.

Friday afternoon J. E. McDaniel received the unexpected and sad intelligence of the sudden death of his sister-in-law, Mrs. C. E. McDaniel, at Ottumwa, Ia. It is only a few days since that Mrs. McDaniel received a letter from Mrs. C. E. McDaniel asking arrangements for a visit of the latter to this city during the next month and the news of her demise was received with much regret. Mrs. J. E. McDaniel departed last evening for Ottumwa for the funeral and Mr. McDaniel expects to follow today.

John H. Smith of Kansas City, mention of whose visit to the city was made several days ago in the Journal, returned to his home this morning on the early Burlington train.
