

CHANGES IN RUNNING SCHEDULE

Burlington Gives Plattsmouth Evening Train to Omaha

May 23 is the date named this year for a general shakeup in train schedules. On that date most of the big western roads will issue new cards that will show additions and changes in time. This follows but a few days after the coast and north coast tourist rates become effective, and is seven days before the Rocky Mountain territory tourist rates are effective. A low convention rate to San Francisco and Los Angeles is to be effective early next month, however.

The Burlington and Northwestern roads have announced schedule revision effective that date and both roads will add to the service given. The Rock Island will have a new card on or about that date, definite announcements not having been made by this road, although it is understood that extension of service is planned. The Union Pacific will issue a new card effective on that date according to present report. The Milwaukee may install coast service soon after June 1.

The roads reaching the far northwest are planning for a big Seattle exposition business. Rates to the exposition will be effective May 20, and already there is a noticeable revival in travel to the north coast. Some of this is said to be due to the opening of Alaska business in the near future, and to the beginning of world tours along the line of the path of the sun's travel.

It has been rumored that one or two of the big roads, familiarly known as Wall street roads, will not make their full additions to service until late in June, that the best showing possible on operating expenses may be made for the fiscal year which ends with most roads on June 30.

The Burlington is not classed in this list, and it is expected that all the additions planned for the summer season will be announced soon to become effective May 22.

Preliminary figures indicate that Lincoln will get at least six new trains in the changes to be made, the Burlington to add a new Chicago-Denver train each way, the Northwestern to give new service each way between Lincoln and Fremont, and the Rock Island to add a new train each way through Lincoln.—State Journal.

From local sources it is learned

that the projected change in time means a big change in this city. The noon train, No. 7 now departing at 12:23 will be abolished and another train to take its place will be put on passing through this city at about 6:23 p. m. The morning train, No. 19, will be continue to run and remain at the present time. These two will likely constitute the two main trains for Omaha. It is probable that the Schuyler train will be extended to run to this city and from here to Omaha, giving the city a morning train at about ten o'clock a. m. for Omaha. If this train is not run through to this city, it will likely be met at Oreadopolis by a stub from this city going there about 9.45 a. m. This will make the three trains from this city—one at 8:08, one about 10 a. m. and the last one at about 6:23 p. m.

Returning there will likely be no material changes in time except that train No. 92 which now ends its run at Omaha will run through to this city, arriving here at about 12:30. This is beneficial in that it permits people who go up from this city on No. 19 in the morning to return in time for dinner at noon.

The only other likely change is that the east bound Chicago-Seattle train which will be put on later may run by this city, arriving here about 2 a. m. This train would handle the returning business of people from this city to Omaha on the late evening train who desired to take in the parks and other amusement resorts of that city, and return the same night.

It is probable all the principal business which would go to Omaha on the new 6:23 train would return to this city by the M. P. leaving Omaha at 11:15.

The new change is a good one in some respects but in others it is worse. It is good if there is some means of returning to the city late in the evening but if it merely affords an easy return to Omaha in the evening it is not of much value to this city. It is not particularly bad save that it enables travelers from Omaha to spend the entire day looking after business in this city and returning to their business and homes in Omaha at night. However, the present schedule of the M. P. answers this purpose.

Woodmen Initiate Class.

The local camp of the Modern Woodmen last night entertained a large number of members of the order from Union and Nehawka, and assisted in the initiation of a number of candidates into the Union lodge. The latter lodge has not yet rebuilt its hall destroyed by fire some time ago and therefore it asked the members of Cass Camp to initiate its candidates. There was a very large crowd of visitors from down the road and the local camp tried to make them feel at home and were quite successful in their effort. After the meeting the boys had a social gathering which was as successful as the one of some time ago when these joint sessions were inaugurated. The visitors were justly delighted with the time shown them and the members of Cass camp were more than pleased to have them come and hope that they will be able to come many times and often in the future.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's liniment is all that is needed and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price 25 cents; large size 50 cents. Sold by F. G. Fricke & Co.

At the Thomas-Eaton Nuptials.

Among those present in the city yesterday to attend the Thomas-Eaton wedding were Dr. and Mrs. M. L. Thomas of Bartlett, Ia., parents of the groom, who came over for the especial purpose of being present at the nuptials and who returned home last evening; Jos. Eaton of Lorton, Neb. who returned to his home this noon and Miss Cleo Applegate of Union, Neb., who acted as bridesmaid. Miss Applegate returned to her home this morning on the M. P. train. She was a school mate and old time friend of Mrs. of Mrs. Thomas.

Wm. H. Stokes of Mynard spent Sunday in the city, coming in to visit with friends and relatives.

Edyth Would do the Job.

The first application for the lucrative job of hotel inspector has been filed with Governor Shallenberger and the application comes from a woman.

Edyth Tanner, who, with her sister, runs a hotel at Weeping Water, wants the job.

Now it happens that no provision has been made for paying hotel inspectors. The labor commission has only \$5,000 to use during the next biennium, and this is not more than enough for ordinary purposes. Hotel inspection is not included in the budget.

The job will probably be a moneyless and thankless task, but the Weeping Water applicant stands as good a chance as the next one.

When the bill was up for discussion it was suggested that Labor Commissioner Maupin appoint traveling men to act as inspectors. Some traveling men assured him they would act without pay. This looked like handing over a large bunch of power to irresponsible agents, however, and the labor commissioner bit a 10-cent piece out of a 5-cent cigar, frowned and said nothing.—Lincoln Star.

Great deeds compel regard. The world crowns its doers. That's why the American people have crowned Dr. King's New Discovery the King of cures, and colds and la grippe vanish. It heals cough-racked membranes and coughing stops. Sore, inflamed bronchial tubes and lungs are cured and hemorrhages cease. Dr. Geo. More, Black Jack, N. C. writes "It cured me of lung trouble, pronounced hopeless by all doctors." 50 c. \$1.00. Trial bottle free. Guaranteed by Gering & Co.

Ernest Pauntsch of Louisville, came down this morning on the Schuyler train and is attending to business matters in the city. Mr. Pauntsch is a good friend of the Journal's and took a few minutes to call at the office and make a visit with the proprietor. He is always welcome and the Journal hopes to receive many visits from him in the future.

Why Was He There?

The report was in circulation last evening and today that Mr. White manager of the Bell telephone, had seen a man loitering about the residence of Ed Johnson just before the fire. Mr. White had been at Plattsmouth and returned on the train that reaches here about 1:30 o'clock. He went to his room, corner of Tenth and First avenue, and when he passed Johnson's residence he saw a man in the middle of the street with two dogs barking at him. The man walked off the street and went toward the Cumberland Presbyterian church. Mr. White thought nothing of the occurrence until the building was discovered to be on fire. What the man was doing in that vicinity at that time in the morning Mr. White will not attempt to say. Mr. Johnson has \$500 insurance on his household goods, but that will not cover the loss.—Nebraska City News.

The fire mentioned above was extinguished without completely destroying the house but the occupant, Mr. Johnson, lost his household goods. Johnson and his wife were not at home when the fire started and there was apparently no clue to its origin.

Toyed With Red-Eye.

John Mercer came into the city several days ago with the intention of going to work upon a farm out in the country. Having several simoleons and other coin of the realm he proceeded to load himself up last evening with bug-juice and fire water and enjoy himself like the sport that he was. Later in the evening he proceeded to wander abroad in the land and made himself generally distasteful to the public in the residence section, resulting in running athwart Night Policeman Nitka who took John over to the hotel De Manspeaker there to repose the rest of the night and face his honor, Judge Archer, this morning. After hearing what John had to say in extenuation of his unseemly conduct the judge brought out the Celebrated Archer Brand of justice and proceeded to administer a dose to John. He fined him five plunks and the usual necessary trimmings. Being some shy on funds, John was remanded to the custody of the police and will spend several days as a guest at the city gaol.

April Weather Freakish.

For freakish varieties of weather the month of April bids fair to carry off the palm. Several days ago the weather turned off fine and warm and pleasant and the trees and foliage burst out in genuine spring dress. Fruit trees made wonderful strides and it looked as if there would be a very short spring before summer. Night before last the wind sprang up and before morning a howling gale raged filling the air with dust and blowing about loose boards and such stuff. In the morning the mercury had dropped below the freezing mark and standing water out of doors was covered with a thin coat of ice. During the day the weather moderated and in the evening there seemed to be prospects of some fair weather again. Early this morning a gale similar to that of the night before sprang up but this time from the southwest instead of the northwest, and accompanied by a light rainfall. The rain was not heavy enough to do any material good and was too cold to help warm the ground up. Today has found the temperature about stationary with a chilly wind blowing and threatening clouds overhead. The result of the bad weather of the month has been to throw everything behind and cause the farmers and gardeners apprehension as to the crop outlook. There has been very little spring plowing done and practically no planting. A good warm rain would do a world of good toward warming the ground and starting the seed already planted or which will be soon in the ground. Everyone seems to be heartily tired of the backward and dismal spring.

"I'd Rather Die, Doctor.

than have my feet cut off," said M. L. Bingham, of Princeville, Ill. "But you'll die from gangrene (which had eaten away eight toes) if you don't" said all the doctors. Instead he used Bucklin's Arnica Salve till wholly cured. Its cures of eczema, fever sores, boils and burns and piles astounded the world. 25c at F. G. Fricke & Co.

Thomas and S. C. Keckler of Manley were in the city today attending to business matters and while here took occasion to call at the Journal office and spend a few minutes pleasantly with the publisher. The Messrs. Keckler are two of the best men in Cass County and are justly considered among the best business men in their town. They have been in the grain business in Manley for some time and have built up a reputation for square dealing with the public second to none. They returned to their home this afternoon on the Schuyler train.

DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Plattsmouth Citizen's Advice

Never neglect your kidneys. If you have pain in back, urinary disorders, dizziness and nervousness, its time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy that is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Plattsmouth. Follow the advice of a Plattsmouth citizen and be cured yourself.

Frank S. Brinkman, Eleventh street, Plattsmouth, Neb., says: "I can vouch for Doan's Kidney Pills, knowing the moto be a good kidney remedy. My back as times became so lame that the simplest movement was painful and I had frequent headaches and dizzy spells that caused me no end of annoyance. Mornings on getting up I could hardly drag myself about and in spite of the many remedies I used, I found no relief. Finally I began taking Doan's Kidney Pills, procured from Gering's drug store. They made a prompt and permanent cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent for the United States.

Remember the name—Doan's—and take no other.

Resume Building.

The Burlington railroad is preparing to resume the building of new lines in Wyoming and work is expected to begin soon on the line south from Worland to make the second Burlington line across the state.

G. W. Holdrege, general manager of the Burlington, said Tuesday morning that surveyors were still active in the field, trying to decide upon the best water grade, and that although no appropriation had been made by the Burlington for grading, he hoped to do the work this summer.

While Mr. Holdrege said the route had not been decided upon, it is rumored the line will run south from Worland and tunnel through the divide between No-Water and the head of Bridger creek and then build south to the Northwestern and use that line as far east as Orin Junction until such time as the Burlington can build a line of its own. The Colorado & Southern, owned by the Burlington, now has a line from Cheyenne to Orin Junction.

The Burlington needs this line, not only to handle the through business which is now being turned over to the road at Billings by the Great Northern and the Northern Pacific but also to assist in its scheme of development of the resources of Wyoming.

Millions of dollars are being spent in work on mines around Copper mountain, and the new line will provide an outlet for the ore.—Omaha Bee.

Eighteenth Birthday.

Monday was the eighteenth birthday of Miss Bertha Jackson. Mrs. D. P. Jackson, her aunt, permitted her to invite the members of the "Grigg" club to come to the Jackson home and spend the evening and assist her in celebrating the event.

Various games and amusements were indulged in but perhaps the one which produced the most merriment and which was entered into with the most interest was the stunt of initiating a new member.

Following the initiation, delicious refreshments, consisting of lemon sherbet and cakes, were served and later, after wishing the hostess many returns of the day and voting her a charming entertainer, the guests took their departure.

Miss Jackson was the recipient of many pretty gifts which will assist her in remembering her "eighteenth."

Those who enjoyed this delightful occasion were Misses Cecil Hawkenberry, Lillian Thompson, Mattie Larson, Ina Hatt, Jennie Batten, Bessie Brendell, Hazel Tucey, Elizabeth Kerr.

Dan B. Smith President.

A meeting of the library board was held last evening to choose a successor to D. O. Dwyer as president of the board he being compelled to resign on account of his election as a member of the city council. D. B. Smith was unanimously chosen. Mr. Smith has been a member of the board since its organization and he is a man excellently fitted for the position. He has been one of the library boomers and will make a most capable official. The choice of the board is a wise one. It is understood that Judge Root's successor on the board has been chosen and that J. M. Roberts of the State Bank will be asked to accept the position. His name will likely go before the council for confirmation at the next meeting.

GO SOMEWHERE!

THE SEATTLE EXPOSITION. Very low excursion rates will make it possible for you to make the most interesting railroad journey in the world at an extremely reasonable cost; only slightly higher through California. PLAN NOW.

ROCKY MOUNTAIN RESORTS. Hands and Sore Nipples.

As a healing salve for burns, sores, sore nipples and chapped hands Chamberlain's Salve is most excellent. It allays the pain of the burn almost instantly, and unless the injury is very severe, heals the part without leaving a scar. Price, 25 cents. For sale by F. G. Fricke & Co.

Shorthorns for Sale.

Three good registered Shorthorn yearling bulls for sale. Also good fresh milk cows. Mark White.

Hay for Sale. Call on Mrs. Boyd on Lincoln avenue.

Impossible to be Well

It is impossible to be well, simply impossible, if the bowels are constipated. You must pay attention to the laws of nature, or suffer the consequences. Undigested material, waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. A sluggish liver is responsible for an immense amount of suffering and serious disease. Ask your doctor about Ayer's Pills. He knows why they act directly on the liver. Trust him. J. C. Ayer Co., Lowell, Mass.
