TRADE REVIEW FOR THE WEEK

Business Held in Check by Tariff Revision Only.

IRON AND STEEL SHOW GAIN.

Recovery in Business Barometer Notable Feature in Situation—Leather Market Stronger All Around in Sympathy With Higher Prices in Other Goods—Railroad Earnings Show Increase Over Last Year.

New York, May 8.—R. G. Dun & Co.'s Weekly Review of Trade says: With bank clearances better than last year, with railroad earnings for the month of April showing a gain of 13.9 per cent over 1908, with immigration 212,000 larger than last year, with imports much greater than in 1908 and nearly equal to 1907, with a distinct gain in the iron and steel trade, both orders and prices, with a hardening in copper, with work of new construction going rapidly forward, the trade situation seems to afford ample grounds for the prevailing belief that as soon as tariff revision is out of the way the last stumbling block to complete restoration to mercantile activity will be removed. Notable, indeed, is the better feeling in iron and steel. Favorable developments in nearly all divisions are reported.

The primary dry goods market continues quiet, prices remaining at their present level in view of the firmness of raw material. In wool goods the volume of duplicate business from buyers of men's wear is increasing gradually. Yarns are still higher and are comparatively firmer.

The leather market is stronger all around, in sympathy with the higher prices in other goods.

As Bradstreet's Sees It.

New York, May 8.—Bradstreet's says: Improvement in retail trade, some regaining of lost ground in farmers' operations and a distinctly more optimistic feeling as to trade, are the leading favorable features in this week's reports to Bradstreet's. Jobbing and wholesale trade for immediate delivery shows between seasons quiet, but fall trade is developing a better tone and enlarged demand.
