THEY GO TO LOOK

THEY STAY TO BUY

Out of the large number of men who have gone with us on our first two excursions to look at

SCOTTS BLUFF IRRIGATED LAND

Only FIVE have not bought. Our total sales for the two trips are 3000 acres, for a total consideration of \$228,000. That's the "proof of the pudding."

Good Irrigated Land Cannot be Bought For Less

This is the best irrigated land in the West. It is under one of the largest and most complete irrigation systems in the United States. None better. The water supply is simply inexhaustible. The price is no higher than your Eastern Nebraska or Iowa farm, and irrigated land will bring you three times as much per acre. Our terms are easy—only one-fifth cash, balance one to ten years.
