ARE YOU GOING TO ALBERTA

Harvesting and Threshing in Progress—Can See What Land is Producing.

Tuesday, August 3, is the date of the next excursion to "Sunny Alberta," Canada. This will be the best time of all the year for prospective purchasers to look at Alberta land as small grain will just be ready for cutting and threshing. One can see at a glance exactly what the climate and soil will produce. Crop prospects in this famous wheat belt have not been better in 20 years, which means that the price of land there will continue to advance in price.

About 30 or 40 farmers, business and professional men of Cass county have already made purchases in Alberta. Land-seekers from some 15 or 20 states are flocking there by the thousands, most of them buying a quarter section or more before they return. Six years ago this land sold at from \$2 to \$5 an acre; today, it is selling at from \$12 or \$15 up to \$50 an acre.

The Canadian Pacific R. R. Co. advanced the price of its lands 20 per cent on July 15 and further advances are sure to come as the home seekers continue to rush into that country.

If you cannot possibly get away to go on Aug. 3, you can go on the next excursion day, which will be August 17.

Alberta grows the best wheat to be found, the yield being from 30 to 55 bushels per acre. Oats yield from 60 to 100 bushels and barley 40 to 80 bushels. You can purchase first class dry land within 2, 3 or 4 miles of a market at \$18 an acre and irrigated land at \$30 an acre. Where can you buy land at that price that will grow such large crops?

Terms: One-tenth down and balance in nine equal annual payments.

A falling tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The Stomach also has its hidden, or inside nerve. It was Dr. Shopp who first told us it was wrong to drug a weak or falling Stomach, Heart or Kidneys. His prescription—Dr. Shopp's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt clearly explains why the Restorative has of late so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all Dealers.

In Memoriam.

DIED—At her home near Alvo, Neb., on Wednesday, July 21, 1909, at 2:40 p. m., Sophronia, wife of Joseph V. Parsell, aged 68 year 2 months and 20 days.

Sophronia Anderson was born at Homer, Licking county, Ohio, May 1, 1841, and with her parents she moved to Peoria county, Illinois, in the fall of 1846, and resided there until her marriage to Joseph V. Parsell on February 11, 1863. With her husband and family they came to Nebraska in March, 1882, settling on the farm near Alvo, Cass county, which has since been her home. To this union six children were born—Andrew, Olive, Edward, Ray, Fay and Guy, four of whom survive her, and were all at her bedside during her illness and death, assisting in every possible manner with their presence and sympathy to alleviate her suffering. Besides her husband and four sons she leaves four brothers to mourn her loss. George of Brookfield, Mo.; Andrew of Los Angeles, Cal.; Thaddeus of Skidmore, Mo.; and Squire of Crested Butte, Colo. The funeral was held at the Alvo M. E. church, Rev. B. L. Story officiating, and the remains were laid to rest in the Alvo cemetery.

She was universally respected as a loving wife and mother and leaves a large circle of friends and relatives to mourn her loss. No sacrifice was too great, no labor too arduous for her and she enjoyed an extreme happiness in providing entertainment for her friends and relatives, and all who in any manner were thrown upon her hospitality.

Those attending the funeral from a distance were Thaddeus Anderson of Skidmore, Mo.; William Pulver, wife and son of Kenesaw, Neb.; Mrs. E. A. Wood of Tecumseh, Neb.; C. M. Bailey, wife and daughter of Lincoln, Neb.; Mrs. F. E. Linch of Lincoln, Neb.

Card of Thanks.

We desire to return our heartfelt thanks to the many friends and relatives who so kindly assisted us in alleviating the suffering during the

sickness and death of our beloved wife, mother and sister, and also for the beautiful floral offerings.

A Red-Hot Day.

Today has been one of the hottest and most depressing of the season. Last night was a very hot one, there being no breeze blowing the entire night and this morning dawned very sultry and hot. A breeze has sprung up during the day and tempers the fierceness of the sun's rays somewhat. The thermometer is not as high as one would think, registering 96 degrees at noon.

The weather is reported to be playing havoc with animals, and many cases of horses being overheated are reported. Dr. W. D. Jones states that he is kept on the go by the cases reported to him, all directly attributable to poor judgment of horse owners and drivers in handling the steeds.

The weather bureau predicts showers for today with fair weather tomorrow. Little relief from the intense heat is promised for several days.

Changes on August 1.

On next Sunday, August 1, the Burlington train No. 1 will run via Omaha instead of over the old main line, and will therefore leave Lincoln for Denver fifty minutes later. Train No. 44, on the Billings line, will leave Billings one hour later, after August 1, but it will arrive at Lincoln the same time as at present. One of the express trains on the Spearfish and Englewood line will be taken off August 1. The new railway mail service has not been inaugurated on the Burlington between Alliance and Denver on trains No. 303 and 304, as the appointment of the clerks have not yet been made. As soon as these appointments are made the service will be promptly put into operation.—State Journal.

Paint that Pays!

That's Patton's Sun Proof Paint. Why? Because it covers more surface, wears longer and looks better than any other high grade paint on the market.

It adds greatly to the beauty and attractiveness of a property, and often helps to sell it at a profit much greater than the cost of painting.
