Found the Runaway.

Constable Jack Denson this morning took into custody at the Burlington station a son of William Miller, formerly of this city, but now of South Omaha. The local police and the sheriff's office received a telephone message this morning from his father, asking them to keep a look out for the boy, who had run away from home. Previous to this he had run off and been captured in Omaha. As he was being taken to his home he leaped from a street car and again made his escape, coming on foot to this city. He evidently walked all night. As soon as news of his flight reached the sheriff's office, Deputy Manspeaker took up the search for him and Acting Chief of Police Trout, also got busy along the same lines. These two officers were out in a buggy hunting him when some boys informed Constable Denson of his whereabouts and he took him into custody. The boy told him he wanted to return to his home, but he wanted to wait until tomorrow morning. He was placed in jail and word sent his father. According to reports the boy who is only about ten years of age, is incorrigible and his folks can do nothing with him. As soon as word is received from his folks, steps will be taken to have him returned to them.

Was Known Here.

Two years ago Mr. and Mrs. George Engle and family of three daughters and one son went to Texas in December to spend the winter. The youngest daughter, Miss Sarrie May Engle, because so enamored of the country that when the family returned the following spring she remained, having secured a position with a firm in Amarillo, Texas, as stenographer and typewriter.

This summer the family had arranged for a home-coming. The sisters had already arrived from California and a most delightful summer was anticipated. Miss Carrie had resigned her position, closed up her business affairs, and was to start for home at once when an illness warned her that she should take a little rest before undertaking the tiresome journey. She was suffering from neuralgia and a very severe headache. After a night of severe suffering she determined to not rise, but take a day of complete rest. Her roommate was to be at home all day and give her companionship. After trying in vain to sleep, as a last resort she placed an exceedingly small amount of chloroform on her handkerchief in her friend's presence, and inhaling the fumes was soon asleep. Her friend also fell asleep and slept for several hours, being awakened by a lady friend who called to inquire how Miss Engle was feeling. They together tried to arouse her, only to find she had gone the long journey.

The exhaustion of the night of suffering, a weak heart and general debility, with small anesthetic, was a combination too strong for her and sweetly, quietly she passed to rest.

Her two sisters went for the remains and were seriously delayed by the foods which have prevailed there for the past two weeks. The train preceding them was overturned in the flood and several drowned. Their train traveled for many miles over tracks covered with water. Havoc was everywhere, and not until they reached the north were they free from annoying and unforeseen delays, and instead of reaching home on Sunday, as they had anticipated, they arrived on Wednesday.—Centreville (Mich.) Observer.

The above item refers to a sister of Miss Emma Engle, who formerly taught in the public schools of this city. The deceased had visited several times in the city and had a number of friends and acquaintances who will hear of her untimely death with deep sorrow.
