## A Check Account renders safety and convenience to the holder

THE man who has a check account at the bank and pays by check is marked as an individual of the more reliable sort. He is looked upon by his fellows as prudent and discreet. He stands higher in the community.

It is well worth considering when a man may obtain safety and convenience for money matters. If you have not a full knowledge of the workings of the check account, we will be glad to explain.

The method of a Check Account is simple and easily learned

Stomach troubles would more quickly if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and one to the kidneys. When these "inside nerves" fail, then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 48 hours after starting the Restorative treatment patients say they realize a gain. Sold by all dealers.

The programs are out for the ninth annual convention of the Cass County Sunday School convention, to be held at Elmwood October 26-27. It is called the "Big Six" convention because six big departments of the Sunday school work is to receive especial consideration at the hands of six big speakers, who have been engaged for the meeting. The officers in charge have spared no pains to make this one of the biggest and best conventions the Sunday schools of the county have ever held. The fact that it is interdenominational in character makes it possible for all schools in the county to participate and the best talent in the county will be in attendance. Free entertainment has been provided by the people of Elmwood for all delegates. Each school is entitled to send one delegate for every twenty-five scholars. The meeting begins Tuesday noon and closes Wednesday evening. Don't fail to hear the big six—Kersey, Sisson, Merrill, Lewis, Brown and Beal. Anyone of them worth going to hear. Remember the dates, October 26-27.

Mr. Briggs was in a flutter of excitement at once and undertook to verify his information. He phoned to each of the telegraph stations, but nothing had been received. He then rang up the central office of the Bell, but nothing had come to that station. As a last resort he called up central at the Plattsmouth headquarters with no better results. Mr. Briggs now thinks there must be a wireless station in the city, and he would like to locate its office.
