Mrs. J. A. Walker, accompanied by her grand-daughter, Miss Helen Gilmore, spent last Friday with Dr. and Mrs. Walker at Nehawka.

A rumor was in circulation this week that our old friend, Fehling Hall of Rock Bluff, had been drowned in the Missouri river. A telephone message brought word that he had been enjoying the comforts of his heating stove and had not been ear the Old Muddy.

Two traveled worn scouts, with hair hanging about their shoulders, their hunting suits worn and ragged staggered into the village Wednesday night. They were Captain Brown and Lieutenant Churchill, who have been given up as lost in the frozen north for the past year. They reached it. In a dispatch they claimed they had been seven leagues beyond an Eskimo village called Murrdoak. Here they planted the "Star and Stripes" and some "Blue Ribbon" at the pole. Do not take the man "Scotty," too seriously—he brought part of his "pelts"—the message from headquarters.

Talk about champion corn-huskers. We have them. No good, up-to-date community can be without one of these leather-lungs. After the corn is all husked, they begin to pump air, with corn silks and dust in it. "Shuck corn? I just slipped down one row after another until I had my 135 bushels. Quit at 4 o'clock, milked six cows and slopped 125 hogs, climbed a six-foot wind mill in a high wind and oiled the gearing, got supper and took another fellow's girl to the box social. How's that for a day's work? No, the boss wasn't around to see the loads, but they were good measure."

Mrs. Adda Stokes is on the sick list, having been confined to her room most of the week.

Mrs. Enoch Moreland is numbered with the sick this week.

Mr. and Mrs. August Engelkemeier came down from Plattsmouth Tuesday for a short visit at their farm, seven miles west of Murray.

We have a good line of fur coats, flannel shirts, underwear and in fact, everything needed for the coming winter.

The ladies of the Presbyterian church spent Tuesday at the church making preparations for the bazaar, which will come off sometime in December.

The Skime in Nebraska.

Will automobilism keep on and on, until pedestrianism is no more, or a man to go anywhere, must take to the back alleys? It is beginning to look that way. But "out" west is where the problem is getting most serious. For a while the farmer's opposition to automobiles furnished the hope that this sort of locomotion would not be carried to excess. But the scene is changed. The farmers are buying the autos now. It is told of one town of 5,000 inhabitants in Oregon, that the farmers in that vicinity have purchased forty-two machines within thirty days and the demands keep up.

One man in speaking of the situation out there said: "As soon as a jay gets his crop in, he wants to go around in his buzz-wagon spending his money." The ambition to have a nice team of horses is dying out. They want a \$2,000 car filled with women, in big hats and piumes and with aristocratic gaze into vacancy, sailing into town and impressing their significance upon the dwellers there.

In town, it often happens, if a person wants the glory of an auto, he must do a little mortgaging to raise funds, but in the country all he has to do is to sell a crop and buy a buzz-wagon for cash.—Ohio State Journal.

One don't have to go as far west as Oregon to find the auto craze. He finds the same condition here in Nebraska, and perhaps only a "little worse." If you have \$200 to pay down and can cover your farm or home with a mortgage for the balance, you can own one of these whiz carts, and by the time you get the mortgage paid off your machine is gone, and you will need a new one.

The Value of Health.

It is a well known fact that we do not appreciate the value of health until we lose it. Everybody should as soon as he will notice the slightest change in the state of his health, select the proper remedy in order to restore the health. If such an irregularity happens to be found in the stomach or other organs of the digestion, we wish to recommend you Triner's American Elixir of Bitter Wine. It will strengthen the stomach and make it able to accept and digest as much nutritious food as is necessary for the preserving of the health and strength of the body. It will heal the sore membranes of the digestive organs, purify the blood and give tone to the nervous system. It should be used whenever appetite and bodily strength is needed. At drug stores. Joe. Triner, 1333-1339 So. Ashland Ave., Chicago, Ill.

For Sale—Nine (9) fine Duroc Jersey Boars—good size and color.

H. L. OLDHAM.

Big Turnips.

Our good friend, George Ray, of near Murray brought several large turnips to this office Saturday, any one of which will make a fair sized family a mess. They are about as fine as any we ever saw, and are solid through and through. Most turnips as large as these are pethy near the heart, but with these such is not the case. Mr. Ray will please accept our thanks for favoring the Journal with these choice turnips, which were very tootassoma.

For Sale:

Good, gentle family horse, good harness and buggy in fair condition, but has been in use some time. Fifty-five dollars will take the whole outfit. Address or call on W. A. Scott, M. P. Agent, Murray, Neb.

CLOSING OUT SALE BEGINS TOMORROW

Will Remove From Plattsmouth and Must Dispose of Goods Regardless of Cost.

There is no mistake regarding the great closing out sale at M. Fanger's Department store. It begins tomorrow morning bright and early, and great bargains offered will surprise buyers.

A Journal reporter visited the various departments of their establishment, and noticed how the goods had been marked down to almost one-half their former selling price. In this great closing out sale people who come early are bound to get the choicest goods, but everything is bound to be closed out sleek and clean. Mr. Fanger is determined to leave Plattsmouth, and must close out his immense stock of goods regardless of prices, and that he intends to do so. Purchasers who visit his store during his great sale will find out from the prices to which articles have been marked down, that this is no fake proposition, but a genuine closing out sale, and one that must be made—and be made quickly. Mr. Fanger regrets very much to leave Plattsmouth, where he has resided for so many years to enjoy the confidence and respect of his many patrons, but a change of climate must be made for the benefit of his health. He has built up a large and prosperous business in Plattsmouth, and his stock of goods has always been kept up to the highest standard and now all will go to the people of Cass county, who are hunting bargains—for bargains they will all get who visit his store in this closing out sale. In view of Mr. Fanger's reputation in the past as a merchant, and his honesty in prices, the announcement that he proposes to close out his entire stock regardless of prices, should cause a rush to his store beginning tomorrow morning, and continuing until every article has been disposed of.

Closing up the Gaps.

The present inspection trip of Vice President Willard, Chief Engineer Calvert and General Manager Holdrege, of the Burlington, to the northwest and west on an inspection tour, is said also to contemplate looking after construction progress in the west and northwest where gaps are being closed to give the Burlington and the Colorado & Southern a new and continuous line from the gulf to a Great Northern connection in Montana, thus completing a new coast-to-coast route.

The latest maps of the Burlington show the lines between Thermopolis and Shoshoni and between Scribner, north of Franlie to Fromberg, on the Northern Pacific, as under construction. It is said the next maps to be issued by the Burlington will also show proposed extensions between Grover, east of Cheyenne, on what is known as the Cheyenne line of the Burlington, and Greeley, Colorado, and between Greeley and Hudson on the main line, just east of Denver. The company is then to use the Northwestern line between Powder River, Wyo., and Orin Junction for a time, but it is proposed to also build a new line between these points to get better grades than the Northwestern's line provides. This will come later.

It is said contracts have been let for the work between Thermopolis, or more accurately between the Big Horn river canyon and Powder River and between Scribner and Fromberg, and that these links will be joined in a short time.

It is the opinion of local Burlington men that the opening of a new line through Wyoming, with a connection with the Denver line, will greatly increase the amount of traffic handled over the two main lines of the Lincoln division, as this new territory may be reached either via the Denver line at Hudson and Cheyenne, or via Alliance and the Guernsey line.—State Journal.

HELPFUL HINTS on HAIR HEALTH

Scalp and Hair Troubles Generally Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat band is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or boldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has trouble with hair or scalp to know that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claim to a fair test, with the understanding that they pay us nothing for the remedy if it does not give

full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. You can obtain these Rexall Remedies in Plattsmouth only at our store.—The Rexall Store, F. G. Fricke & Co., Union block.

Sustains Painful Injury.

Ralph Reznor is taking an enforced layoff from his duties in the shops owing to having had a large splinter run through the back of his right hand last Friday. The splinter entered between the first and second fingers on his hand and came out between the third and fourth. The splinter was about the size of a lead pencil. Surgical aid was had at once and the hand dressed but it will be several days before the hand is sufficiently recovered to permit his returning to work. The wound is a very painful one but is not considered dangerous.

Tickling, tight Coughs, can be cured and quickly loosened with a prescription Druggists are dispensing everywhere as Dr. Shoop's Cough Remedy. And it is so very, very different than common cough medicines. No Opium, no Chloroform, absolutely nothing harsh or unsafe. The tender leaves of a harmless, lung healing mountainous shrub, gives the curative properties to Dr. Shoop's Cough Remedy. Those leaves have the power to calm the most distressing Cough and to soothe and heal the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babes. Test it yourself and see! Sold by all dealers.
