Handsomely Entertained.
On Friday afternoon Mrs. Adda Stokes entertained the Larkins club. At 2:30 the guests began to arrive, evidently in a talkative mood. Later in the afternoon a four-course luncheon was served. The table was prettily decorated with ferns and chrysanthemums.
Those who were fortunate enough to be invited, besides the club members were: Mrs. J. W. Edmunds, O. M. Davis, Mrs. N. Klaurance; Misses Gertrude Long, Pauline and Fay Oldham, Tressa Stokes and Mattie Minnear.
At a late hour the guests departed voting Mrs. Stokes a successful host-

ess and hoping for another opportunity to be so entertained.
Preparing for a Feast.
Phil Lambert is preparing to give his many friends a Thanksgiving feast. For all those who will come he will kill the fatted goat. Brendel & Seybolt, after amassing an immense fortune, have decided to sell off their herd of goats. They were brought to Murray Monday and a game of chance was played, and Phil Lambert held the lucky number in exchange for his ten cents invested he received a beautiful mid-eyed, ruminant, quarruped, with long hair and horns. It was Mr. Lambert's first or, better still, give it to our children's play ground association for the amusement of children. But as chickens are scarce and turkeys high, and wishing to place it where it will be the most satisfactory, he has decided to make it into mutton chops. How to kill such an innocent animal is what is bothering Phil. If he can find some one who will do the guillotine act, there will be a barbecue in Murray long to be remembered.

Christmas Goods.
Don't forget Holmes & Smith always have a good line, and will have same on display in plenty of time for Christmas. Remember if you don't trade with us we both lose money.

INJUSTICE TO BURLINGTON EMPLOYEES

The News Vigorously Criticizes Station Employes for Carelessness.

Last evening's News contains an article which attacks the local station officials of the Burlington vigorously, and criticises them severely over what is termed their carelessness in handling baggage checks. The facts in the case are that the lady in question, who had several small children with her, did not buy her ticket until after the train was due. Fortunately it was late so she was enabled to take it. She was going to Chariton, Ia., instead of Sheridan, Ia., as the paper had it. The boy in checking the trunks misunderstood her and checked them to Sheridan, Ia. Instead of making certain the trunks were checked right, the lady with her children went into the waiting room and sat down. When the train came in she did not prepare to board it, and made no move until the Journal man went in and called her attention to the train. It had gotten underway when he ran out and had the conductor stop the train for her. The News man in the kindness of his heart wanted to assist the lady and took charge of the baggage checks. It was noticed that they were wrong and Agent Pickett agreed to mail them to her at Chariton. The News man in his indignation at the mistake insisted that he would attend to the mailing of them and proceeded to take them and mailed them to Sheridan, Ia., instead of Chariton. This will occasion the lady a delay of several days in getting her baggage and would have been obviated had Agent Pickett and his employes been left alone and permitted to untangle the trouble. This statement is made to set Mr. Pickett and his employes right with the public, as they feel an injustice was done them in the matter.

Fine Football Game.

Tomorrow afternoon at 2 o'clock the Plattsmouth foot ball team will engage in a spirited contest with the "Excelsiors" of Omaha, conceded to be the amateur champions of Omaha. The "Excelsiors" have defeated such strong aggregations as the Shamrocks, Dietz Athletics and Fort Crook. The Plattsmouth team has been practicing for some time with the intention of downing the aforesaid aggregation and will have the assistance of several old timers who have seen service on the University squad. The boys have been to considerable expense to secure this game and it is hoped that their efforts will be repaid by a large attendance.

It isn't so difficult to strengthen a weak Stomach if one goes at it correctly. And this is true of the Heart and Kidneys. The old fashioned way of dosing the Stomach or stimulating the Heart or Kidneys is surely wrong. Dr. Shoop first pointed out this error. "Go to the weak or ailing nerves of these organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fall then those organs must surely falter. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days' test will surely tell! Sold by all dealers

Comes Back for Trial Here.

In the federal court yesterday at Lincoln Judge Munger sustained the motion of the plaintiff in the case of Blish against the Burlington to remand the same for trial here. The mandate was received this morning by Clerk of the Court Robertson and the case will be for trial next term.

Dr. Shoop's Health Coffee is created from pure parched grains, malt, nuts, etc.—no real coffee in it. Fine in flavor—is "made in a minute." No 20 or 30 minutes tedious boiling. Sample free. F. S. White.

B. B. Danliver, of Murray, braved the mud and drove to the city today to look after business matters. Jas. Chalfant, of Murray, came up this morning and was a passenger for Missouri Valley, where he will visit his brother for several days.

Does Not Stimulate

Ayer's Sarsaparilla does not stimulate. It does not make you feel better one day, then as bad as ever the next. It is not a strong drink. No reaction after you stop using it. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic and alterative. We wish you would ask your doctor about this. He knows. Trust him. Do as he says. J. C. Ayer Co., Lowell, Mass.

What are Ayer's Pills? Liver Pills. How long have they been sold? Nearly sixty years. Do doctors recommend them? Ask your own doctor and find out.

FROM THE BUSY WORLD.

The city attorney of Lincoln, Judge C. C. Flandburg, is threatening to raid the social clubs of that city if their counsel do not consent to an early hearing before the supreme court of the question as to their right to sell liquor. That is one way of getting at it. He proposes to arrest some of the bartenders and then have them taken out of jail by habeas corpus so as to bring up the question of their right to sell in a speedy manner. It is a matter of some curiosity to see what the supreme court will do in this case. They have held once that the clubs could sell but will they do so again? Times and men change alike.

Not only the country newspapers but those of the cities make some awful blunders. Today's World-Herald is a living example of this. The leader of the first page states that the government is "Ready to Demand Reparation From the Venezuelan Government" from the execution of two American citizens by the government of Nicaragua. Just why reparation would be demanded by this government of the Venezuelan government is not clear and the body of the dispatch does not bear out the headlines. When one is joking about the errors of the country press, it is pleasant to be able to set back and point to the gross carelessness or mistakes of the big city papers.

Much to the surprise of everyone the University of Michigan football team last Saturday administered a fine drubbing to the team of the University of Minnesota. This eliminates the latter team from the championship of the west and practically makes Notre Dame the champions as they beat Michigan finely. This makes two big surprises in the western football world this season, Notre Dame's victory over Michigan and Michigan's victory over Minnesota. The rooters all looked to see the latter team win. In the east Yale did the expected and humbled Harvard in hollow style. This leaves the blue victor in that section and the Catholics in the west. A game between these two colleges would be worth seeing.

Lead, S. D., is on the verge of a great strike. 2,500 miners employed in the Homestake mines at that place have voted to go on a strike on account of the company posting a notice that the mines would be non-union hereafter. This means serious trouble in that section. A large proportion of the miners are foreigners with scant knowledge of American ways and they may be found very troublesome and hard to handle. The Hearst interests are largely predominant in the mines and it is difficult to reconcile his well known saying regarding labor with the action of the management of the mines. The Black Hills is honeycombed with unionism, and socialism prevails to a great extent among the unions of that section.

According to the general counsel of the Standard Oil company, the "victory," which the government won Saturday in the United States circuit court at St. Louis, is merely a "theoretical" victory and is of no force or effect. This has been the trouble with most of the victories which the United States has won in its war on the trusts. The results have not weakened the trusts but in some cases have made them stronger as the court has often indicated to them where they could strengthen themselves. Texas is the only state to score a real victory over the trusts. It cost the Stand-

ard Oil company a pretty penny to pay the fines assessed against it in that state and the confiscation of the company's plants by the state in addition. These are to be sold at auction shortly. In addition W. Clay Pierce, the principal owner of the southwestern branch of the Standard Oil has been having his hands full of trouble keeping out of jail. If the United States had a few Texas statutes and men who followed Attorney General Davidson's methods in prosecuting the offending corporations there would be fewer theoretical victories and more relief for the people.

The Wright Brothers have incorporated a company with \$5,000,000 capital to manufacture aeroplanes. This is flying high sure enough. \$5,000,000 capital is some capital for the flying machine business and ought to afford everybody an opportunity to go up.

There is now no hope for finding any of the ill-fated miners in the coal mines at Cherry, Ill., alive. There were 310 men trapped like rate and of these only 20 have come out alive, making the disaster one of the worst in the country's experience. There is every prospect that criminal prosecutions will follow the disaster as 'criminal carelessness seems to have been responsible for the disaster.

The usual crop of disasters from fall storms on the great lakes have commenced to come in. A great storm swept over Lake Michigan yesterday wrecking many boats with a loss of lives also. The storm was raging all last night and it will be several days before the full results of its fury are known. Every year the lakes take their toll of human lives and still the hardy mariners continue to risk their lives in the dangerous season.

It is announced that the Omaha anti-saloon league endorses the attempt which is being made to oust Mayor Dahlman. This is nothing new. Ever since Jim was made mayor the anti-saloon league has been urging his removal. The only remarkable feature would have been to have the anti-saloon league take a stand in his favor. That would have excited some comment.

The abolition of the House of Lords appears to be a possible outcome of the trouble which the government of England is experiencing over the budget. The British Liberals have issued an ultimatum to the Lords to accept the budget as it goes to them from the Commons or they will appeal to the country and bring pressure to recast the Lords. This is an extraordinary, proceeding and it shows the excited state of politics in that country. The moneyed interests of the country are against the budget which contains a number of new schemes for raising funds and increases the tax upon wealth.

Governor Stubbs of Kansas threatens to have a receiver appointed for the Central Branch of the Missouri Pacific railway unless that corporation gets busy and makes needed improvements and puts the road in a condition of public safety. It appears that that portion of the system is in such physical shape as to make riding over it a dangerous proposition. This was the condition of the road through this state up to very recently but the company is improving it now and it will soon be a safe road from Omaha to Kansas City. Perhaps Governor Stubbs' action will precipitate some reform in Kansas.
