The plans for the new pumping station at the depot calls for two water tanks. The old dispatcher's office building has been removed and the pump will be placed on that corner. Underneath it they will have an excavation fifteen feet deep walled with cement. The old pump house will be used to store chemicals for treating the water.

Not Yet Settled.

The date for the funeral of the late Edward White has not yet been definitely settled as the family is waiting to hear from his brother Harry, who is now bound at some point in New Mexico and upon whose arrival here the funeral will be held. The remains of this highly respected young man accompanied by his mother and brother arrived in this city last evening and were conveyed to his late home. All arrangements in regard to the funeral are in abeyance and it is not considered probable that the services can take place before Wednesday as his brother is not expected here before tomorrow at the earliest.

Edward White, the deceased, was a member of Cass Camp, M. W. A. of this city, carrying a policy of insurance in that order and the pall bearers yesterday consisted of six of the young men of that order, viz: Frank Cloldt, John Cloldt, Clyde Dare, Emil J. Weyrich, Frank Mack and John W. Chapman.

CREATION OF A NEW OFFICE

H. E. Byram Slated for Assistant General Manager West of the Missouri River.

Rumors of changes in the Burlington official family have been coming out in the last few days and indications are that H. E. Byram, formerly general superintendent for this district and now assistant to Vice President Williard at Chicago, is the coming man in charge of the lines west of the Missouri. It is said that a new position is to be created at Omaha, which will be known as assistant general manager and that Mr. Byram will fall heir thereto. The new position will include general charge of operation of all the Burlington lines west of the Missouri river and will divide the duties now performed by General Manager Holdrege. The program which has been laid out for the coming year includes a great deal of building and construction work and this will make the burden of the general manager's office too great for one man to handle. It is also said that there is a possibility that the active management of the Colorado & Southern will be taken over by the Burlington and the work directed from the Omaha office, and if this is the case it is a certainty that another officer in charge of operation will be necessary. This would make the Omaha offices headquarters for a great stretch of road extending from Omaha and this city to Billings, Denver and Texline, Tex., and involving many thousand miles of line. Mr. Byram who is slated for the new position is one of the best known men on this section of the Burlington and is quite popular with the company employees. He has been connected with the system for many years and is an experienced railroad man. At present he and General Manager Holdrege are making an inspection tour of the Billings line and will extend the tour it is said to cover all his prospective territory.

County Commissioners.

The county commissioners are in regular session today and during the morning they allowed a large number of bills as well as opened the contracts for bridge work for the coming year and also for furnishing bonds for the several county officials for their new terms. The bids for bridging are reported to have been very close, some of the bidders being low on one thing while others were low on another. Among the firms submitting bids were the Nebraska Construction company of Lincoln, the present contractor, Western Bridge and Construction company of Omaha, the Canton Bridge company of Canton, O., F. L. Freeman, Tecumseh, Neb., Mitchell Cowen, Tecumseh, Neb., Monarch Construction company of Falls City and John Gilligan of Falls City. These several firms were represented by Messrs. Glen Smith of Lincoln, F. J. Briss of Omaha, Ed. M. Flanagan of Omaha, F. L. Freeman of Falls City, W. E. Cowen of Falls City, Charles Thompson of Omaha, John Gilligan of Falls City and John A. Crook of Falls City. The following named gentlemen had bids in for furnishing bids for the county officers bonds, viz: H. G. Wellensiek, Avoca; W. Kelly Fox, Plattsmouth; J. M. Leyda, Plattsmouth; Phillip Potter, Omaha; H. E. Palmer, Omaha; C. G. Fricke, Plattsmouth and J. P. Falter, Plattsmouth.

The commissioners this afternoon returned all the certified checks accompanying the bridge bids with the exception of that of the Nebraska Construction company, which bid they have not at this writing 2 p. m. accepted or rejected. Each bidder had deposited a certificate check for \$500. No action had been taken at this time on the bids for bonding county officers.

A Scrap of History.

The following scrap of history appeared last week in the Pacific Junction Department of the Glenwood Tribune. "Charles Kroon tells us of the fine warm winter of 1879-80, in contrast to the present sort of weather we are having. Farmers plowed that year in February. He was the Junction's only store keeper at that time. He enjoyed this distinction up till the next August, when most of the little town of East Plattsmouth moved to the Junction and business began to hum. On August 15, 1880, the first trains crossed the Plattsmouth bridge, and the old ferry was abandoned. Mr. Kroon states that the very next day half the houses in East Plattsmouth came scooting into the Junction on flat cars. They were small and it was not much of a job to move them.

madam: Don't be misled Cheap and Big Can Baking Powder is Only Big in Size - Not in Satisfaction - Not in Economy

A large can and a small cost does not make baking powder cheap—or even less expensive than Calumet—the high-quality, moderate-price kind. It certainly cannot make it as good. Don't judge baking powder in this way—the real test—the proof of raising power, of evenness, uniformity, wholesomeness and deliciousness will be found only in the baking.

CALUMET BAKING POWDER

Is a better baking powder than you have ever used before. And we will leave it to your good judgment for proof. Buy a can today. Try it for any baking purpose. If the results are not better—if the baking is not lighter, more delicious, take it back and get your money. Calumet is medium in price—but great in satisfaction. Free—large handsome recipe book, illustrated in colors. Send 4c and slip found in pound can.

Calumet Received Highest Award—World's Pure Food Exposition

Is He Insane?

A complaint was filed yesterday with Clerk of the Court Robertson charging John O'Rourke, a workman in the stone quarries near Cedar Creek with insanity. It appeared that O'Rourke was in the habit of quitting work at night and wandering away from the quarries and prowling about the houses in the neighborhood, scaring the people who feared his mania might take a dangerous turn. He would turn up at the quarry all right the next morning and work all right during the day, disappearing again when night came on. Sheriff Quinton went out to the quarries on No. 29 and investigated the case, finding O'Rourke too ill to be moved. He found that the man's mind seemed on the mend and that he was much better than he had been. He stated he would go to the home of his sister at Gretna as soon as his condition got so he could be moved with safety and pending this, the commission decided to take no further steps in the case. It is believed the man suffered from some passing delusion and that the sickness will clear this away and leave him a well man.

Alone in Saw Mill at Night

Storms or cold, W. J. Atkins worked as Night Watchman, at Banner Springs, Tenn. Such exposure gave him a severe cold that settled on his lungs. At last he had to give up work. He tried many remedies but all failed till he used Dr. King's New Discovery. "After using one bottle" he writes, "I went back to work as well as ever." Severe Colds, stubborn Coughs, inflamed throats and sore lungs, Hemorrhages, Croup and Whooping Cough get quick relief and prompt cure from this glorious medicine. 50c and \$1.00. Trial bottle free, guaranteed by F. G. Fricke & Co.

Burns His Hands.

Gus Swanson, who has been employed in the Burlington paint shop, yesterday sustained some severe burns about his hands by a flare back from a gasoline torch which he was using. It is part of his duties to burn paint off cars which are in the shop for re-painting and for this purpose a torch operated by compressed air is used. He was using the torch yesterday when the air pressure was too strong and the blaze from the torch flared back from the side of the car and painfully burned his hands. He was on a scaffold and there was no means for escaping from the blaze until the pressure was shut off. The injuries were dressed and are not necessarily dangerous, although they are exceedingly painful and keep him from work for several days.

It Pays Richly.

We owe it to the community in which we live to do everything we can in every way possible that will be to its advantage. Our neighbor's prosperity means a great deal more to us than someone's who lives elsewhere. We should bear this in mind in buying our goods. We can afford to pay our home man a firm price for his wares rather than send our money away, knowing as we do every dollar our own citizen makes will help in sustaining our schools, churches and public institutions. It pays richly to patronize home industry.

Co-operate With Teachers.

In regard to our schools, parents have duties to perform, which they can ill afford to neglect. They should show to their children that they have an interest in the school. They should examine carefully the reports sent by the teacher, should see that their children are in school every day, and punctual; should assist and encourage their children to do all their school duties faithfully and well; should co-operate with the teacher in securing the prompt return of their children home after school is dismissed; should make a friendly visit to the school, and talk freely with the teacher and principal in regard to same.

Rich Men's Gifts are Poor

Besides this: "I want to go on record as saying that I regard Electric Bitters as one of the greatest gifts that God has made to woman, writes Mrs. O. Rhineault, of Vestal Center, N. Y., "I can never forget what it has done for me." This glorious medicine gives a woman buoyant spirit, vigor of body and brilliant health. It quickly cures Nervousness, Sleeplessness, Melancholy, Headache, Backache, Fainting and Dizzy Spells; soon builds up the weak, ailing and sickly. Try them. 50c. at F. G. Fricke & Co.

Agreeably Surprised.

Editor P. A. Barrows of the News was last evening surprised to receive a visit from his brother-in-law, C. W. Kesterson, of Albion, Neb. The gentleman was in Omaha on a sad mission being compelled to take his young son to a hospital in that city for treatment, and he took occasion to make a run down to this city to see Mr. Barrows. Mr. Kesterson's son was recently injured by being struck in the eye with a rock thrown by another boy, and on examination it was believed the eye was lost. To do everything possible to prevent this the young man was taken to Omaha for treatment by Dr. Gifford. The eye was badly cut and Dr. Gifford does not hold out much hope of saving it. He thinks it possible to save the appearance of the eye, however. Mr. Kesterson returned to the hospital at Omaha this morning. Mrs. Barrows was called to Albion at the time of the accident and is now with her nephew.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is one of the best and most remarkable preparations in use. Sold by all dealers.

Bought a Cap.

A. F. Hedengren, master carpenter of the Burlington, was in the city this morning and started out to brave the sharp winter weather without the aid of a cap but soon abandoned the attempt and hurried up town where he purchased one which would protect his ears. Mr. Hedengren states that work on a new sewer will be pushed along despite the cold weather and hurried to completion as rapidly as possible.

Commissioner C. R. Jordan is in the city today in attendance on the meeting of the board of county commissioners, coming in from his home at Alvo last evening for that purpose.

For Coughs—Take This

Do you know a remedy for coughs and colds nearly seventy years old? There is one—Ayer's Cherry Pectoral. Once in the family, it stays. It is not a doctor, does not take the place of a doctor. It is a doctor's aid. Made for the treatment of all throat and lung troubles. Ask your own doctor his opinion of it. Follow his advice. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

You cannot recover promptly if your bowels are constipated. Ayer's Pills are gently laxative; act directly on the liver. Sold for nearly sixty years. Ask your doctor all about them.
