FROM THE BUSY WORLD.

A. B. Crandal of Lincoln has called upon the police of that municipality to suppress all noise at his approaching nuptials. Crandal has a lurking idea that he has friends who will make an undue celebration of his quitting single blessedness and he doesn't want them to be allowed to demonstrate their feeling. He is to wed Miss Ina Dell of Bethany and Ina is of the same opinion of A. B. and does not care to have the festive cannon cracker or the "katydid" disturb the sweet solitude of the nuptial eve.

According to the internal revenue service in the city of Lincoln, a "dry" town, used \$25,000 worth of beer in August, 1909. This is something which those who believe in prohibition should study. It does not mean that this was all used by Lincolnites but merely the amount shipped into the city by rail. What they consumed by purchase in Havelock and at other points is not shown in this total. That \$50,000 a month is what Lincoln—"dry" Lincoln—used is much more probable. If any real exhibition of the futility of prohibition is needed, show us.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

SANTA FE RAILROAD GRANTED NEW TRIAL

Secures Reversal in Case Involving Nine Hour Law.

Chicago, Jan. 5.—The United States circuit court of appeals reversed the judgment of the district court in the case of the Atchison, Topeka and Santa Fe railroad against the United States. The railroad is charged with violation of the hours of service act. The judgment of the lower court is reversed and the case remanded with instructions to grant a new trial.

The suit was started by District Attorney Sims, who charged that the railroad was keeping telegraph operators on duty for a longer period than nine hours allowed by the hours of service act. In the lower court a judgment of \$100 was entered against the railroad.

Attorneys for the railroad showed that operators appeared to have been on duty from 6:30 a. m. to 6:30 p. m., but that they had been relieved from noon until 3 p. m. The court held as the men had only nine hours of actual time on duty it was no violation of the hours of service act.

WORST BLIZZARD OF SEASON.

Entire State is Covered With Heaviest Fall in Years—Omaha Schools Closed on Account of Blockade. Temperature Hovers Around Zero Mark in the Storm Region—Street Car Service Paralyzed in Lincoln.

Omaha, Jan. 5.—The worst blizzard of the season raged in northern Nebraska. In Omaha the weather bureau reported the temperature at 2 degrees below zero at 7 a. m. The snowfall was heavy during the night and a stiff northeast wind drifted it, tying up the street car service in many parts of the city and badly crippling the railroads in this section.

The high schools and many of the graded schools of this city are closed on account of the snow blockade.

The snowfall in northern Nebraska and southern South Dakota is reported as half a foot, adding new handicaps to train service, which has been more seriously demoralized by weather conditions this winter than ever before during so protracted a period. Bordeaux, Jan. 5.—Louis Delagrance, the noted French aviator, was killed while making a flight here. Delagrance fell with his machine from a height of about sixty-five feet and was crushed under the wreckage. He had been flying in a wind that was gusty and which frequently blew at the rate of twenty miles an hour. In spite of this disadvantage Delagrance continued and had circled the aerodrome three times, when suddenly, as he was turning at high speed against the wind, the left wing of the monoplane broke and the other wing collapsed. The machine toppled and plunged to the ground. Death was instantaneous.

Delagrance ranked among the first of the aviators of the world. On Dec. 30 last at Juvisy he broke all speed records. The occasion was an attempt to win the Michelin cup. He did not

Railway Message Will Not Be Ready Until Next Week.

MAGNATES ARE MORE HOPEFUL

President of New York Central Reassures Wall Street Associates—Declares There is Nothing in Taft's Program That Need Alarm Investors or Embarrass Any Railroad That Does Business in Honest Manner.

Washington, Jan. 5.—Another change in President Taft's program of special messages to congress was announced at the White House. It was stated that the message on interstate commerce law probably would not go to congress until next Monday or Tuesday. The anti-trust message is still scheduled for tomorrow.

On Friday President Taft will send to the senate a brief message transmitting all of the papers and the report of the attorney general concerning the Glavis charges against Secretary Ballinger. These papers were called for by the senate resolution.

The president had intended to send his special message on interstate commerce law changes to congress Friday. It was said, however, that he desired to consult further with members of the interstate commerce committees of the senate and house.

It was also stated that the verbal changes agreed to in the conference with the railroad presidents would require a reprinting of both the message and the Wickersham bill embodying the president's views. This bill is to be placed at the disposal of the congressional committees if they desire it.

A special message on the conservation of natural resources, which the president had hoped to get ready by Monday next, has been postponed until the latter part of next week.

Sees No Harm in Taft's Policy.

An increased tonnage tax on the transoceanic trade is provided and it is proposed to admit foreign built ships to American register for the foreign trade.
