## WILLIARD'S GREAT RAILROAD WORK

The Railroad Age Gazette Tells of Great Executive Ability.

The story coming from Chicago several days ago that H. E. Byram is to be first assistant Vice President of the railroad, has not been officially announced so far as known in Lincoln, but it has been confirmed through official channels. Mr. Byram practically takes up the work laid down by Daniel Willard who has gone to the Baltimore and Ohio road as its president. Concerning Mr. Willard the Railroad Age Gazette says: "Nature gave Mr. Willard unusual ability and tremendous energy. He is one of the most indefatigable workers in the railroad business. He not only works hard but he works fast. These natural endowments alone would not have put him where he is; but in addition to having ability and energy he has an extraordinary taste for serious study. He has been a student all his life. Few active business men have read so many books on economic and kindred subjects.

It will be noted that during his railroad career he has had experience in the track and motive power departments. This has made him an all-around operating man and, taken in connection with the large knowledge he has acquired by study makes him an extraordinary broad railway executive. One way that Mr. Willard has shown his intelligence and breadth in recent years has been by frankly recognizing that the anti-railway agitation has not been without cause and in choosing means for stopping it. He has welcomed fair and intelligent criticism of the Burlington from every source. He has had newspaper and all other kind of criticism sent to the general offices in Chicago, and has had the criticized conditions systematically studied with a view either to show the critics that their complaints were unjustifiable or to removing the grounds for complaints. He has frankly recognized the fact that public sentiment is more powerful than any corporation or number of corporations and has insisted that the railways should adopt the policy of educating rather than opposing it."—State Journal.

### Sled Has Spill.

The report which was current upon the streets last evening and this morning of the serious injury of several in coasting down High school hill turns out to be in error. The facts in the case are that a large coaster of people from Murray and vicinity started down the hill, the coaster being steered by Charles Reynolds who is deviling around the Journal office. He played his part well in this case. Seeing he could not take his coaster through the undergrade crossing at the Burlington tracks, he tried to turn it on the grade to the depot. The coaster skidded on the ice and he ran into the heavy post at the north side of the crossing. The party on the sled was piled up in a merry mess but fortunately none were seriously injured. The steering wheel was broken off the sled and it was put out of commission. W. Glen Boedeker of Murray sustained some minor scratches and bruises as did his wife, they being the only ones injured in the affair. Several other coasters upset on the hill and on Main street but no one was hurt. This is printed to set at rest the stories afloat regarding the extent of the troubles.

### Sprained His Ankle.

Last Saturday afternoon John Palecek, Jr., received a severe sprained ankle while engaged in loading a push car full of snow near the old elevator south of the depot. He was tossing the snow which was packed in hard chunks onto the car from the ground and when the car was full it was pushed to a dumping ground and unloaded. The cake of snow which did the bad work fell from the car which had been heavily loaded and struck Mr. Palecek, hurling him to the ground and causing him to catch his ankle under him as he fell. The result was a badly sprained ankle. He was taken to a physician's office where the injury received treatment and was then taken to his home where he was made as comfortable as could be. He will be confined to his house for several days.

Al O'Neill is authority for the statement that this winter is the first one in sixty years in which he has not been the first man to cross the Missouri river with a team and wagon. He declares that he does not intend to make any trip across the ice this year, although he does not say why he has broken his time honored custom.

# A New Line To The Northwest

Through The Big Horn Basin

The Big Horn Basin is fast settling up and offers the greatest opportunities for farmers, and especially farm renters to secure fine government irrigated farms at the mere cost of the water, and often a single crop can be made to pay for the farm. Ten yearly payments without interest. And this is cheaper than paying rent in any locality.

With the completion of the new line this promises to become a great wealth producing region.

The oil, gas, and irrigation of the Big Horn Basin will make that country a combination of farm and industrial prosperity.

Write we for full descriptive literature.

Go with us to the Basin and let us help you select a new home.

## VERY BRIEF SESSION OF COUNCIL

Reports of City Officials Read and Claims Allowed

The city council held a very exciting session last night lasting the extended period of twenty-five minutes. Every member of that staid body was so taken up with thoughts of hurrying through business and getting out on the street to attend the monster carnival of the kids that they allowed the bills presented in record time, listened to the reports of the city officers for the month of December, and then adjourned.

All were there with the exception of Councilman John W. Bookmeyer, who has been ill for some time and who was unable to attend. Mayor Sattler presided with Clerk Elster at his desk. The latter was among the most enthusiastic of the assembled officers over the carnival and urged speed in the transaction of the city business, reading his minutes in a swift, easy flowing stream of words which fell as the silvery rush of a waterfall upon the ear. The minutes as read were approved after which the reports of the city officers were presented. City Treasurer Fricke created a sensation by reporting a sum in excess of \$7,700 in the treasury. If this accumulates by spring there should be enough to do some work on the streets. Police Judge Archer had a monthly report showing two arrests with nothing collected during the month. The young city clerk Dr. Elster reported that \$9.12 constituted the entire proceeds of his office for the month. The several horse teams and the hook and ladder company reported on the condition of the equipment of the several companies. This constituted the sum and substance of the business done aside from the report of the finance committee which was as follows:

To the claims committee; the bill of the Plattsmouth Telephone company for \$1.80.

Claims allowed and warrants ordered drawn as follows:

Olive Jones, salary	25.00
J. W. Larkin, mds	1.75
Neb. Light Co., street light	42.00
Wm. Wehrbein, livery	2.50
Neb. Light Co., light	1.50
Public Library, expense	80
Dr. H. M. Young, police	1.60
Neb. Light Co., light	75
M. Archer, salary	30.00
David Amick, salary	50.00
Henry Trout, salary	50.00

The council also ordered a gong for the fire department placed in the Burlington boiler house, the same to be connected with the Plattsmouth Telephone company's exchange to be used in case of fire and sound the alarm at the shops.

Ed. Gansemer and wife and Mrs. J. Hild came in this morning from their home in the country and were passengers on the morning Burlington train for Omaha, where they will spend the day. They had a very cold ride in from the country owing to the fog and cold weather.

### Commissioners Get Busy.

The county commissioners have been having their regular session at which they did considerable business including the selection of the list of names from which the coming jury will be drawn. This will be printed tomorrow. Other business included the receiving and placing on file of a petition from the G. A. R. camp at Elmwood of a resolution endorsing David McCaig for member of the Soldiers Relief Commission. The board then elected Jos. Mullin to that place. Mr. Mullin is the present member and is a Democrat in politics. M. M. Butler was chosen as county physician for the year 1910 at a salary of \$5 per day and mileage not exceeding \$20 per day. His entire salary was limited to \$500 per year, however. The Board of Health organized by the choice of C. R. Jordan as chairman, M. M. Butler as physician and D. C. Morgan as secretary. The annual estimate was made of expenses for the coming year, fixing the total at \$100,000. Bids are asked for the following: county printing, burial of paupers and county physicians, the same to be filed with the county clerk by February 7th.

### For Sale.

Two mighty good snaps in the way of real estate in and adjoining this city. These are bargains and can be bought on good terms. The property in both cases is high class and with plenty of ground.

One comprises a seven acre tract of land with two good houses, one a two-story and basement, the other a one and one-half story building. Both large and roomy and in good repair. Fine new barn on premises. Fine well and cisterns. Great fruit lands, many grapes. A nice alfalfa tract sufficient to raise food for several animals. All in a splendid and handy location. This is a real snap.

One included a four acre tract of land well set in fruit with all facilities for a great truck farm or chicken ranch. Fine, large, roomy house. Good substantial outbuildings and special buildings for poultry. Location the best possible with cheap taxes. Fine and plenty water. Owner must leave city. This can be had at a scandalous low price.

For both above call at the Journal office for information.

### Card of Thanks.

For the many kind actions extended during the illness and death of our beloved father, and for the many expressions of sympathy by loving friends in our bereavement as well as for the many handsome floral tokens at his funeral, we, the children of the late Samuel L. Barker, desire to return our sincere thanks.

Samuel L. Barker's Children.

### Card of Thanks.

For the many expression of sympathy and the many kind acts of loving friends extended during the illness and death of our beloved mother, Mrs. Elizabeth Snyder, and for the floral tributes of her many friends, we desire to return our deepest thanks.

George W. Snyder.  
Charles Jean and wife.

## Are Doctors Any Good?

Foolish question! Yet some people act as if a medicine could take the place of a doctor! The best medicine in the world cannot do this. Have a family doctor, consult him frequently, trust him fully. If we did not believe doctors endorsed Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you. Ask your doctor. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

If we did not believe doctors endorsed Ayer's Pills for constipation, biliousness, and headache, we would not offer them to you. Ask your own doctor about this.
