## YOUNG MAN COM-MITS SUICIDE

Harrison Ohm, Living One Mile West of Elmwood Takes His Own Life.

Elmwood, Neb., Feb. 11.—(Special to the Evening Journal.)—This city was startled this morning by the news of the death by his own hand of Harrison Ohm, a well known and highly respected young man living one mile west of the city. His body was found this morning, he having ended his life during the night by taking the contents of a vial of carbolic acid. No reason is assigned here for his deed except that he was despondent as he left a note in which he said that he hoped his folks would live better than he had and asking them to kiss his little sisters goodbye. He is survived by a father, mother and several sisters. The young man was but twenty-one years of age and had been working on the farm with his father. He bore the reputation of being a steady, industrious and thrifty young man and stood high in the community. His father was Claus Ohm, a well known citizen of this vicinity, having lived here for a number of years past.

The funeral of the young man will be held from the home of his parents tomorrow afternoon, interment being made in the cemetery at Elmwood. Deceased and his family are well known in western Cass county and have a great many friends who

were deeply pained and shocked to learn of the death of the young man. It is probable an inquest will be held on the body by Coroner Clements today, although the fact of the suicide is not disputed but in order to remove any lingering doubt it is thought best to have a coroner's jury pass upon the matter.

### Reports Favorable.

County Surveyor Fred Patterson who was appointed some time ago as a commissioner to survey the route of the proposed ferry road, which was asked for several days ago by a large number of citizens, this morning submitted his report to County Clerk Clell Morgan. He reports favorably upon the petition and recommends the opening of the road. In accordance with the law on the matter County Clerk Morgan immediately fixed April 12 as the date for filing objections to the opening and for filing claims for damages for the road. At this time it can't be determined whether or not there will be a fight on allowing the road to be opened.

Heulke, a neighbor saw the fire and hurried to the barn, arriving just in time to prevent Mrs. Heier from climbing into the hayloft to fight the flames. The woman was determined to put the fire out and Mr. Heulke had a fierce time making her desist. He succeeded finally and locking the barn door, turned his attention to saving the farm house and also his own dwelling just across the road. This was done after help had arrived from Murdock. The barn which was totally destroyed was built last summer at a cost of \$3,000 and was insured for \$1,200.
