

DECIDE TO BUILD NEW HOSE HOUSE FOR BENEFIT OF WEST SIDE

Fire Department to Erect Structure on Fourteenth Street and Insurers Better Protection to That Part of City.

The special meeting of the fire department was held last evening at the council chamber, the important business before it being to determine upon whether or not to build the new hose house on west Main street and also to let the contract for the building if it was decided to put the thing through. There were a number of bidders present at the meeting and several bids were submitted for the construction of the building.

It was decided to build a room 16x14 in size, this being considered by the fire department officials as giving ample room for a cart and the necessary appliances. The bids opened were found to be pretty close together, W. H. Miller, the well known carpenter of this city being the lowest on his bid was for \$70. The meeting decided to award him the contract, work to be started just as soon as the weather will permit and to be hurried to completion.

Mr. Miller has been a well known carpenter of this city for a good many years past and his selection assures the department a building which will answer all their plans and which will be well made and reliable. His bid is considered very low for the structure.

Mr. Miller states that he will see that none but the best of materials are used in the construction and that the building when finished will be up to specifications in every respect. He expects to get at the work just as soon as the weather will permit, the contract between him and the department being drawn up and signed this morning.

It is the plan of the department to build the building at its own expense and depend upon the council to make

such arrangements as they can for fitting up and equipping the house. The general opinion not alone of the department but of the citizens in general is that the new house and the location of a cart at the point indicated, the corner of Fourteenth and Main streets, is a great public benefit and will be of material protection to property all over the western and central part of the city. The house will be located at the highest point west of the high school building and at a place where the land slopes away in all directions, giving a downgrade pull for the cart to any fire. It is south of the Masonic home and several hundred feet above it and also south of the recently completed Catholic Sokol hall and considerably above it. It is a block north of the Tel Jed Sokol hall and is four blocks west of the high school building on a higher hill. It is one block east of the store of John Kopia and within a few blocks of the store of J. M. Jirousek. In addition there are a large number of fine residences within a few blocks of the house in all directions. The next thing to be done now is to make arrangements for putting a cart with hose there and provide this large section of the city with some adequate measure of fire protection.

After lent it is expected the fire department will hold several dances which will provide ample funds for paying for the building and aid to some extent in equipping the cart. The site for the building has been donated and with the aid which the department will give, there is no reason why a cart, hose and all necessary equipment should not be at the disposal of the west end citizens within a very short time.

Real Estate Transfers.

In the office of Register of Deeds Snyder today a number of transfers were filed among which was a decree of the district court in the case of Lena Grauf vs. the unknown heirs of David Hart et al, the decree quieting the title to the southeast quarter of the southeast quarter of section 18, town 11, range 14.

A warranty deed was also filed conveying lots 7, 8 and 9 in block 31, village of Eagle from Ida and George Oberle to Reuben R. Morgan, for the consideration of \$212.50.

A warranty deed was also filed conveying lot 618, town of Louisville, from Frank H. and Nellie B. Nichols to Andrew Siden for the consideration of \$500.

A warranty deed was also filed from Margaret and Isaac Tennant to A. Siden conveying the east half of the northeast quarter of the northwest quarter of section 23, town 12, range 11 for the consideration of \$1,200 and also the assumption of a mortgage of \$600.

A warranty deed was also filed conveying lots 211 and 212 in the village of Greenwood from Elbert S. D. and Mary E. Voorhees to S. D. Newman for the consideration of \$2,000.

A warranty deed has also been

filed conveying the southwest quarter of section 3 and the north half of the northwest quarter of section 10, all in town 12, range 13, Cass county from Charles C. and Lillian P. Parmele to George Stander for the sum of \$13,200 and the assumption of a mortgage for \$6,000. This makes the farm bring a price of \$80 per acre which is considered quite cheap by competent authorities.

Threatening feverishness with children is quickly and safely calmed by Preventics. These Little Candy Cold Cure Tablets should always be at hand—for promptness is all-important. Preventics contain no quinine, "the stitch in time." Carried in pocket, or purse. Preventics are a genuine safeguard against Colds. 25c. Sold by all dealers.

L. B. Brown and A. J. McNatt, two of the head officials of Kenosha, came in today to look after business in the city, Mayor Brown reporting the community as quiet and peaceable while Chief of Police McNatt states that the police are absolutely getting seedy from lack of work. The gentlemen paid the Journal office one of their much appreciated visits and received the usual welcome this paper extends to all good men.

MICROBES IN THE SCALP

The Latest Explanation is that Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabourand, of Paris, France, share the honor of having discovered the hair microbe.

Baldness is not caused through a few weeks' worth of these hair microbes, but is the result of conditions brought about by their presence. Baldness may not occur until years after the microbes began work, but it is certain to come sooner or later. The microbes cut off the blood supply. They feed on the fatty matter about the roots of the hair, through which the blood is absorbed. Finally the fatty matter is consumed, the food supply of the hair is gone and it starves and finally dies.

Resorcin is one of the most effective germ destroyers ever discovered. Beta Naphthol is a most powerful, yet absolutely safe germicide and antiseptic, which prevents development of germ matter, and creates a clean, healthy condition.

Pilocarpine, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair when loss of color has been caused by a disease.

Borax, because of its well-defined softening and cleaning properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

We want everyone who has scalp or hair trouble to try Rexall "93" Hair Tonic, which contains all these ingredients. If it does not give you complete satisfaction in every particular, we will return every penny you paid us for it, for the mere asking and without question or formality.

Of course you understand that when we say that Rexall "93" Hair Tonic will grow hair we don't refer to cases where the roots are entirely dead, the pores of the scalp closed, and the head has the shiny appearance of a billiard ball. In cases like this there is no hope. In all other cases of baldness Rexall "93" Hair Tonic will grow hair. Two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Plattsburgh at our store.—The Rexall Store. F. G. Fricke & Co., Union block.

Henry Falter a Visitor.

Henry Falter, formerly a well known citizen of this vicinity and a brother of J. P. Falter, president of the commercial club, came in last evening from his home at Creighton, to spend several days with John Schafer and his family and assist them in moving which they expect to do very shortly. Mr. Falter is accompanied by his friend Gus Walters of Creighton who a short time ago married a cousin of Mr. Falter. Mr. Falter is one of the prosperous farmers of Creighton and its vicinity and since his removal to that locality he has been very fortunate in this world's good and is now more than comfortably fixed. He met a great many friends here this morning and found that they were all more than glad to have him come back for a visit with them.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by all dealers.

Funeral of Mrs. Price.

The funeral of the late Mrs. Matilda Jane Price will be held tomorrow (Friday) afternoon from the late residence of deceased on south Third street, at 1 o'clock p. m., interment to be made at the Horning cemetery. Friends of the family are invited.

Deceased is survived by five children, her husband having preceded her to the Better Land some years since. The children are Mrs. Charles Piper of this city and Mrs. Anna Conant of Paxton, Col., and Clarence Franklin and Gloire, sons, of this city and B. W. Price, son, of Paxton, Col. All the children are expected here today.

Funeral of George Sitzman.

The funeral of the late George Sitzman was held this morning from St. John's Catholic church, the remains being brought to this city from his late home at Cedar Creek on the Schuyler train. The body was taken directly from the Burlington station and the Catholic service for the dead was pronounced by Rev. Father Shine. There were a very large number of relatives and friends of the deceased present, many coming down on the Schuyler train to attend the services and pay a last mark of tribute to their old friend and neighbor.

The services at the church were those of the Roman faith, mass for the repose of the soul of the departed being said and the impressive service being held. Rev. Father Shine pronounced an eloquent and fitting tribute to the worth of the departed and spoke upon the benefits which he had conferred upon the world by his upright mode of living and the splendid example which he had set in his worthy life.

There was a very long cortege to the grave in the Catholic cemetery west of the city, a large number of carriages forming the funeral procession. The remains were laid at rest after the usual services incident to the burial of the dead in the Catholic faith were had at the cemetery. The pall bearers were all old time friends of the deceased.

Those of the friends of the deceased who acted as pall bearers were James Janda, Frank Svoboda, Ed. Donat, Max Preis, Louis Leiter and Andrew Raab, all of whom had well known the deceased for many years and who appreciated his many good qualities. There were a large number of good friends in attendance at the funeral including Messrs. Chris Gauer, John Gauer, Charles Hennings, John A. Hennings, Ferdinand Hennings, Joe Smatterer, all of Cedar Creek, J. P. Keil and wife of Cullom, Mrs. Frank Busche, Jos. Winkler and wife of Omaha. And in addition all the children of deceased were present among them being Frank Sitzman and family and Henry Sitzman and family, all of Cedar Creek, and George Sitzman, Jr., and family of St. Joseph, Mo.

Deceased had realized for some time that his recovery was not at all probable and he had made a great many arrangements for the final reckoning, having arranged so that his casket should be appropriately covered with his favorite flowers and requested before the end came, that the flowers which he had tended with such care at his home be cut and placed upon the casket. This was done by his loving sons who followed in every detail the instructions their beloved father had left behind him.

Yesterday his son Henry came to this city and proceeded to have a fine cement vault constructed in the Catholic cemetery in which to inter the remains. This vault is a handsome one and was constructed as a slight expression of the love and esteem which the sons bore their worthy father. During his last illness the deceased was looked after with all possible care by his son and everything was done which could be to assist in recovery or at least in prolonging life. His death comes as a severe blow to them and in their deep sorrow they have the sincere sympathy of many good friends.

If you would have a safe yet certain Cough Remedy in the home, try Dr. Shoop's—at least once. It is thoroughly unlike any other Cough preparation. Its taste will be entirely new to you—unless it is already your favorite Cough Remedy. No opium, chloroform, or any other stupefying ingredients are used. The tender leaves of a harmless, lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its wonderful curative properties. It is truly a most certain and trustworthy prescription. Sold by all dealers.

LOUISVILLE.

Dr. T. E. Dailey was a passenger for Omaha on the afternoon train on Saturday.

Mrs. C. E. Pribbie was a passenger Saturday for Tecumseh, where she goes to see her daughter who is ill at that place.

Miss Daisy Twiss went up to Ashland last Saturday.

F. Jeduary was among those who took the afternoon train Saturday, going to Schuyler.

Miss Mayme Philpot was a passenger for Lincoln Saturday.

Miss Jessie Kanef returned to her home in South Bend Saturday after a short visit here.

Arthur Palmer returned to his studies at the state university Saturday after a visit with his parents in Louisville.

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn-out and all run-down. Burdock Blood Bitters made me a well woman."—Mrs. Chas. Freltoy, Moosup, Conn.

Mrs. Adele C. KING

a special representative from the New York office of the Ladies' Home Journal Pattern Co., will visit our store at an early date. Her visit is for the purpose of conducting a demonstration for any one who is interested in paper patterns. How they are made. Why they are made that way. How to use them to best advantage, and especially invite those who may not have had complete success in using them. We will announce the exact date when she will be with us.

E. A. WURL

Agent for Ladies' Home Journal and Ladies' Home Journal Patterns and Style Book.

Great Storm in 1830.

Adam Hild, one of the best citizens of Cass county, is in the city today making a short visit with his son, M. Hild and with old friends in the city. Mr. Hild had not been in the city since the middle of December, owing to the severe winter and his desire to take all possible care of himself during the winter season. He recently received a copy of a paper from Green Valley, Ill., containing an account of a great snow storm which some of the older people of that section went through in the year 1830 which he states is highly interesting, especially in view of the long, hard winter which has been over this region this season.

and he promises to let the Journal shortly print an extract which will show our people that we haven't had nearly so much snow as many others have gone through with. Mr. Hild has a great many friends located in the neighborhood of Green Valley and Pekin, Ill., to whom he sends the Journal so that they may keep posted on the doings of their old friends and neighbors of many years ago. He expects to return to his home this afternoon, taking advantage of the bright, sunshine and the pleasant day.

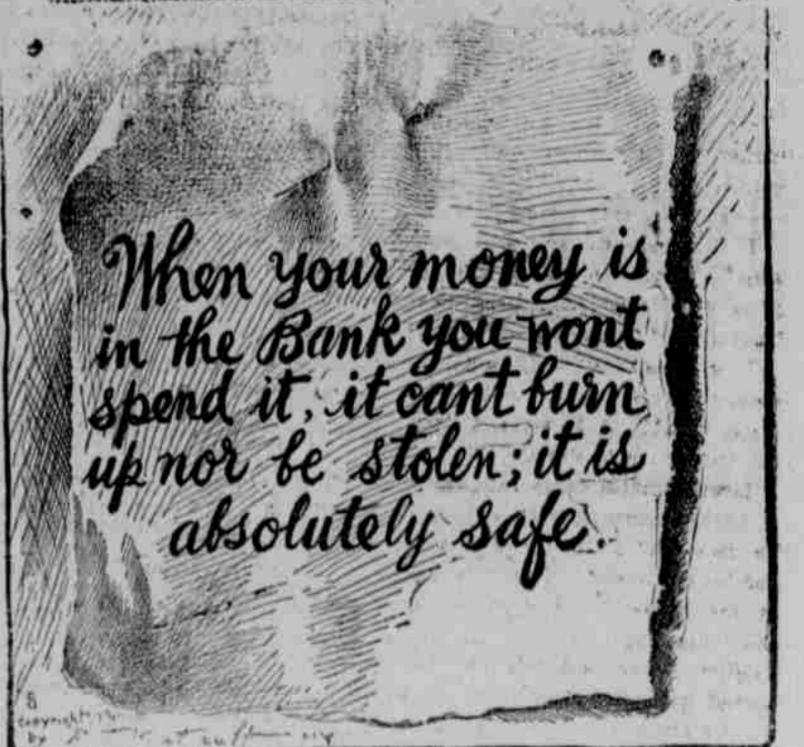

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50 cents at any drug store.

24c--POUND
