

Some Things Characteristic of Warner's Corsets!

Made to a High Standard!
Tested for Shape.
Tested for Comfort.
Tested for Wearing Qualities.

Long skirt models are decidedly the vogue. Close corsetting is a necessity, but with slightly curving and not straight lines, the waist nipped in a little and the hips curving but controlled.

Each Warner style is absolutely in accordance with fashion, fitting comfortably the figure intended. Whatever your size, there is no reason why you cannot be fashionably corsetted.

Warner's Rust-Proof Corsets

Nothing in the way of a Cough is quite so annoying as a tickling, teasing, wheezing, bronchial Cough. The quickest relief comes perhaps from a prescription known to Druggists everywhere as Dr. Shoop's Cough Remedy. And besides, it is so thoroughly harmless that mothers give it with perfect safety even to the youngest babes. The tender leaves of a simple mountain shrub, give to Dr. Shoop's Cough Remedy its remarkable curative effect. A few days' test will tell. Sold by all dealers.

Thomas Walling is a visitor in Omaha today, having gone to that city this morning on the early train.

A Very Sick Man.

The Journal's good friend, Conrad Schlater, is reported today as being a very sick man, something which his many friends of the splendid old pioneer and citizen throughout Cass county will regret to hear. His condition has been the cause of a great deal of worry to his relatives for several days and he does not rally as hoped for. It is to be hoped that he takes a change in the immediate future for the better and that he speedily regains his normal health.

A falling tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

A Former Pioneer Resident.

Dr. McClusky of Glenwood, Ia., was in the city yesterday afternoon looking after business matters and visiting with friends. Dr. McClusky in the '60's was a resident of this city and is quite well known to many of the pioneers of this section. He has been a resident of Glenwood for many years and is one of the leading citizens of that community. The McClusky family is one of the largest and best known in southwestern Iowa and the doctor is one of its most respected members. He returned to Glenwood last evening.

See the Orange Exhibit.

Messrs. Lemuel Fowler of the C. S. Fowler Land company of San Antonio, Texas, and J. M. Aldrup, of the same place, are in the city today installing a fine exhibit of an orange grove as it appears on the lands of the Fowler company in the gulf coast country. The gentlemen intend to put in what they declare to be an exact reproduction of an orange grove just as it is in real life on the gulf coast and just as any citizen of this country will find it if he visits that section. It had been the intention of these gentlemen to put the exhibit into the show windows of the Kroehler Hardware company but when the time came to install it, they found they did not have enough room so they have hustled around and secured the room formerly occupied by Aemissen & Klingler where the exhibit will be placed in sight. It is something wonderful and during its stay here which will be for three days, it promises to attract large crowds of sightseers. The lands of the Fowler company are located in the fertile and productive semi-tropical region of south Texas close to the great cities of San Antonio, Houston and Galveston and close to the coast where exportation is handy and convenient assuring the raisers of oranges a water haul to foreign and eastern markets. W. E. Rosencrans & Son represent the Fowler company in this immediate section and will gladly do what they can to spread information regarding the value and productiveness of these lands and their prices and terms upon which they can be bought. The least the public can do is to make a trip to the orange exhibit and see for themselves the claims which are made for this great and little known country.

JUDGMENT FOR SUM OF \$5,000

Clinton Gilman vs. the Nebraska City Water and Light Co.

The attorneys in the case of Frank Wilkins, administrator of the estate of Clinton Gilman vs. the Nebraska City Water and Light company, concluded their arguments last evening and the case was given to the jury. They retired to their room where they had a lively session until nearly 3 o'clock this morning before arriving at a verdict. They handed in a sealed verdict and went to their hotels where they rested until 9 o'clock this morning when Judge Travis opened court and all appeared but three, and the verdict was then opened and read. It was a verdict for \$5,000 for the plaintiff and against both of the defendants.

The case was one wherein the plaintiff sued for \$15,500 for the death of Clinton Gilman. The deceased was an employe of the Nebraska Telephone company. He had gone up on the telephone pole, where he met with the accident that resulted in his death on Monday and got his fingers burned by coming in contact with a live wire and the electric light company was notified to take up their wire and remove the "cross." They promised to do this, but on Wednesday notified the telephone company that the "cross" had been corrected and Gilman was notified of this before he left the office the fatal Wednesday afternoon. He climbed the pole, with a can of paint in his hand and received a shock, which not only knocked him from the pole, but set fire to the paint. He fell to the ground, was fatally burned, his hip dislocated and received other injuries. His death occurred some days afterwards. The suit was brought in behalf of his widow and young son. The case was fought for them by Matthew Gering of Platts-mouth, and J. C. Watson of this city. Mr. Breckenridge, of Omaha appeared for the telephone company, while the Water & Light company were defended by Paul Jessen, Pitzer & Hayward.

It is said that some of the jury were not in favor of giving the plaintiff anything, claiming the deceased had knowledge of his danger and was guilty of negligence, others wanted a verdict for the full amount while some wanted \$2,000, others \$5,000, others \$10,000 and in the end they all agreed to a verdict for \$5,000. The attorneys for the defense will ask for a new trial and failing to get it will appeal the case to the supreme court. It will be a hard fought case to the end by the corporations and as bitterly as they have fought since it was first instituted.—Nebraska City News.

Number go to Convention.

A number of Platts-mouth people were passengers on the afternoon train for Omaha where they will attend the banquet of the Laymen's Missionary convention which is to be held tonight at the Auditorium in that city. This banquet is preliminary to the opening of the Laymen's convention which will be in session two days commencing today. This convention is one in a series of seventy-five to be held in the United States by representative Laymen of different denominations. The object of these conventions is to arouse interest among the Laymen of the country in missions and it is rapidly becoming a great movement. There have been a large number of such meetings held already in different parts of the country and all of them have been very largely attended and have left an enthusiastic wave behind them. The gathering attended are non-sectarian in character and the speakers at them are chosen without regard to creed. The eventual result of the meetings which are now being held will be a grand Laymen's Missionary convention of the United States which will be held at Chicago in May next, and which is expected to be the largest gathering of its kind in the history of the Christian church in America. This will be succeeded later by a great international gathering of the laymen from all sections of the world. This last meeting will be held at Edinburgh, Scotland, and it is expected it will prove the greatest gathering of Christian laymen the world ever has known. All reports agree that the great spiritual wave which the laymen's conventions held in this country have started, is the greatest impetus to christianity ever experienced.

Among those attending from this city will be C. C. Wescott, P. A. Barrows, Geo. L. Farley, Dick Osborne and Rev. Luther Moore.
