James Barton Adams in the Denver Times, gives the following advice that will be appreciated by the telephone girls or those who have visited central and know how busy the 'hello girl'' sometimes is:

When the girlie at "central" says 'busy," don't let yourself be worked into a fret and a sweat; don't tell her in a language all freckled with fire, you think she's quite near approaching to a liar. Don't paw at the carpet, don't chew at the rag. nor roar like a bull when it sees a red flag, nor tell her in voicing that paints the air red, you'll have her tincaned ere the sun goes to bed. but murmur in sugary, marshmellow word 'twill fall on her ear as the carol of birus, to please ring you up

THE foremost dress occasion of the Spring season, is but a week off. Many have already chosen their Easter suits from our most beautiful assortment of new things for the Spring season.

Grays and blues are the leaders of the season's popular shades, with quite a tendency toward tans, browns and plaid effects.

The new models include the ever popular three and two button sack, with a little longer lapel than shown in the past, a slight dip front effect, shoulders well built out, and the form tracing effect in the back. A few box backs are shown. Trousers medium or extreme peg tops, with or without the wide roll bottoms.

We want you to see our large showing before you buy; as much for your benefit as ours. Any day now it will suit us to suit you.
