

PLATTSMOUTH ALFALFA MILL COMPANY A SURE THING

Company to Be Incorporated With a Capital Stock of Twenty-five Thousand Dollars.

That this city is to have the long talked of Alfalfa Meal mill now seems to be an assured fact, as the committee of farmers and merchants of this vicinity, appointed by President Falter of the commercial club, met night before last and affected an organization for this purpose that will be permanent and will proceed at once to the business of establishing this manufacturing concern and disposing of the product.

At the last night's meeting a temporary chairman was chosen in the person of Julius Pitz with H. A. Schneider as temporary secretary. The matter of organization was discussed pro and con for some time by the members present and the company was incorporated with a capital of \$25,000; \$15,000 of this to be paid up in shares of \$100 each, with the stipulation that not more than ten shares can be held by any one person. The name selected for the company is to be the Plattsouth Alfalfa Meal company and as a first step toward the advancement of the plan two committees were selected to sell stock. The following gentlemen were chosen to handle the stock in this city: J. P. Falter, A. L. Tidd, F. E. Schlater and H. A. Schneider, while the committee for the county is composed of Julius Pitz, Luke Wiles, Fred Nolting and A. E. Todd.

The above named gentlemen will proceed to push the sale of the stock at once and it is expected that there will be no difficulty whatever in getting it subscribed and paid up at once so that the erection of the

plant need not be delayed. There is no doubt that this mill and others of similar character are an absolute necessity in this country and the only thing for the people of Plattsouth to do is to get together and co-operate with the farmers who raise the grain and to get as many more of them to increase their percentage of alfalfa as fast as possible as there is a good profit in the business for all concerned, the demand for the product of the alfalfa meal mills being enormous in comparison with the output, which production is at present comparatively small. At present this city is supplied with alfalfa meal ground at the mill in Council Bluffs, and this supply is not anywhere near what could be used in this vicinity. There is a mill at Omaha and one at Nebraska City and neither of these can supply their demand, as all the farmers are rapidly learning that this meal product, aside from being a splendid stock food in itself when mixed with oil meal, ground corn and oats, makes a product that is guaranteed by the people who have tried it to put flesh on almost anything. It is a splendid fattener and there will be no difficulty connected with the enterprise if the farmers of this vicinity can be prevailed upon to increase their acreage of this valuable grain.

It is understood that as soon as the company is well under way the erection of the building will be begun and in all probability it will not be long before the farmers of this county will have an excellent market for their alfalfa.

STRIKE OF BOILER-MAKERS NOW ON

Boilermakers and Their Helpers Are all Out at Havelock.

The news reaches Plattsouth over the telephone this morning that the Burlington boiler makers and their helpers at Havelock quit work this morning pending the decision of the company coming to their terms as per requested made a few days ago. In this particular department the employers of the road wish to abolish the piece work system that has been in use all along the line for some years past. The company evidently has refused to approve of such terms, and the pending strike was pulled off this morning and all boiler makers and helpers are out. We are also informed that about forty-five men were discharged yesterday, these men being employed in various departments and the entire shop time was cut to eight hours per day. We are at the same time informed that the condition at Havelock will in no degree affect the present harmonious condition of the Burlington shops at this city, as all the employees in this city seem to be well satisfied with their positions, they own their homes here, that is the larger portion of them and from all appearances there seems to be perfect harmony in all departments.

It has always been stated that the Burlington have experienced less trouble with their employes in Plattsouth than at any other point along the entire system. Of course, there may have been times when some of the men were not entirely satisfied with the scale or some system of the same, but generally speaking everything has been in excellent condition. More and better work has probably been done in this city to the number of men employed than at any other point along the entire system. Each and every individual has probably put in a greater number of hours for each year than any other shop. There seems to be an air of perfect contentment among the Burlington men at Plattsouth, and we certainly hope that such a condition may continue and that the Havelock difficulties may in no manner affect the shops here.

Doing Well.

The Journal is in receipt of a year's subscription from J. F. Svoboda, now residing near Lawrence, Neb., at which time he takes the opportunity of informing us that he is doing well in his present locality, his last year's crops being fully up to the average or even better than the balance of the state, for all of which he received a good price. His corn crop averaged forty bushels to the acre, for which he received 60c per bushel, his oats went seven bushels and wheat seventeen receiving \$1 per bushel for the wheat. The many friends of this excellent gentleman will be pleased to learn that he is indeed prosperous and himself and family doing well.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood.

Don't Risk even a penny—until health returns. And I mean just exactly that.

I am the one physician who says to the sick, "I will, out of my own pocket, pay for your medicine if it fails to bring you help!"

And for 20 years Dr. Shoop's medicines have

Get Health

been used and recommended in every city and hamlet in America. They are positively standard in every community—and everywhere. Then why pay the cash, and at your risk, for other unwarranted and uncertain medicines? Thousands upon thousands have in the past successfully used Dr. Shoop's Restorative.

When the stomach, nerves, or kidneys are weak, or the heart, these medicines quickly bring them back to health again. But best of all, they positively take no money risk whatever.

They know that when health fails to return Dr. Shoop will himself gladly pay the druggist for that test. And for that test a full 30 day treatment is freely granted.

But write me first for an order.

This will save delay and disappointment.

All druggists sell Dr. Shoop's Restorative and Dr. Shoop's Rheumatic Remedy, but all are not authorized to give the 30 day test. So please—for I have appointed an honest and responsible druggist in almost every community, every where, to issue my "no help, no pay," medicines to the sick.

Full me also which book you need.

The books below will surely open up new and helpful ideas to those who are not well. Besides, I free to consult your home physician. My advice below are yours—and without cost.

Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice plan. My best effort is surely

Two Stranded Strangers in Town.

This morning when the early M. P. train pulled into Plattsouth, two strangers in the city, man and wife, so it is claimed, were requested to alight, simply because their money gave out and the conductor is not allowed to carry any passengers free in Nebraska. The couple wished to get to Omaha and a request was made to both the mayor and the commissioner for transportation to the city, Chief of Police Amick taking this part of the burden upon himself rather than take charge of the couple as vagrants. The parties claim to have just left the hospital at St. Joe and wished to get to Omaha. They attracted the attention of the police by a little quarrel of their own on the streets, in which the better half was taking the husband to task for not being able to clothe her as other women were dressed and that she did not intend to wear a recently purchased coat any longer. It is certainly a desperate struggle that the fair sex will make for fine clothes. They seem to be preferable to railroad tickets or something to eat, even when they are tired and hungry. They were still in the city at noon, but provisions will in all probability be made for them to get to the metropolis without walking, but the lady will be compelled to wear her old coat or none at all.

Will Attend the Banquet.

Tonight at the Omaha club, one of the most notable events of the year will take place, the occasion being a banquet tendered by the Alumni association of the university of Michigan to the graduates of that institution in this country in honor of Dean Hutchins, president of the university, Dean Reed of the literary college, Dean Cooley of the engineering school, and Wilford B. Shaw, general secretary of the Alumni association. This will be a memorable function for the members of the Michigan Alumni who possess a remarkably strong organization in this state and who always turn out with a most loyal display of enthusiasm whenever there is any demand made by their Alma Mater. Hon. R. B. Windham who is vice president of the association in Nebraska, was a passenger for Omaha this morning and will attend the banquet tonight at the Omaha club. Mr. Windham is a member of the law class of 1873. It is expected that Canon H. B. Burgess, who is a graduate of the literary college of the class of 1858, and Dr. W. B. Elster, who is a graduate of then dental college of the class of 1890, will also attend, going up on the afternoon train.

Modern Hen House.

One of the best houses, and in fact, without a doubt, the best hen house in Cass county, will now be found on the farm of Julius Pitz, south of Plattsouth. From the present price of chickens and the usual high price of eggs in winter season, Mr. Pitz has wisely come to the conclusion that the Nebraska hen should have better care in the cold season to induce her to come to the front and continue her good work when the high price is on. The new hen house in very conveniently arranged for the accommodation of both the feathered ladyship and the attendant, having low roosts in place of high ones, with proper appliances for raising them to the roof for convenience when the house cleaning time is on. This also prevents the chickens from injury, which often occurs when flying to and from the high roost. The new building is 20x22 in size, with half of the roof and the entire south side all glass, which will afford both light and warmth. Mr. Pitz claims the honor of the architecture and Baxter Smith the carpenter. No doubt Mr. Pitz will be well repaid for the money expended in a very short time.

Fine Music.

A band of five strolling musicians visited this city yesterday and going about the town discoursed sweet strains to the happy multitudes that thronged our streets, playing everything in the musical calendar from "Trovatore" to "cuddle up a little closer," and in the afternoon a number of the young men of the community got together in a bunch like grapes and plotted and conspired to pull off a dance in the evening, but owing to the fact that this is the middle of the week, and pay day is near at hand, the encouragement to go ahead with this plan was too meager to justify it.

Charles Hennings of Cedar Creek is in this city today, having come down this morning to attend to some business affairs.

DRUGGIST PERMIT.

Notice is hereby given that Gering & Co. have filed their petition as required by the statutes of the State of Nebraska with the city clerk of the City of Plattsouth, Nebraska, requesting a permit to sell malt, spirituous and vinous liquors for medicinal, mechanical and chemical purposes for the coming municipal year in the building situated on the west half (w/2) of lot twelve (12) in block twenty-eight (28), in the City of Plattsouth, Nebraska.

March 22, 1910. GERING & CO. Applicant.

E. G. DOVEY & SON

The Dandelion Pest.

As the destruction of the dandelion crop seems to be agitating the minds of many already this spring, we clip the following from the Lincoln Evening News on the subject: "Early indications are that the dandelion crop of 1910 will exceed any in recent years. This prediction can be easily made good if lawn owners will only take proper care of the tender plants. The insertion of a knife blade just below the crown which contains the young buds, once resorted to confidently as a means of destruction, is now highly recommended as a means of propagation. The cutting off of the tops leaves the roots free to go to work and develop several additional stems, each bearing a cluster of seed buds. Gasoline is also an excellent tonic. At first it seems to wither the plant, but this is apparently only on the tops. The root stems appear to absorb and grow fat upon the treatment. Some desperate souls with no appreciation of the beauty of nature have tried various sorts of acids, which usually result in the cultivation of a neat and growing bare spot wherever applied. Persons who have been overlooked by nature in the distribution of the dandelion plants will find their neighbors very accommodating in the matter of furnishing slips for cultivation. The high price of living is due to the use

of meats, and as a substitute for these it would not be amiss to try cooking the dandelion tops as greens. Before the plants became so numerous these greens were esteemed as a delicacy, but familiarity has apparently bred a profound contempt."

The T. J. Sokols Improve.

The T. J. Sokol society have been making some improvements in their gymnasium department at their hall in the western part of the city. The T. J. Sokols are one of the most active societies of the city and are always in search for something new for both advancement and the enjoyment of their membership. They have just completed the installation of a new large double shower bath, both hot and cold water. This is placed in the basement under the main gymnasium room.

An observing farmer says that if the next new moon is dry, then prepare for some dry farming this summer. He says further, that if the point of the moon turns up far enough so that you can hang a powder horn on it, then it means dry weather. When the new moon appears we want some one to climb up and try the powder horn experiment.

George Hall was among those who took the afternoon train for the metropolis today.

KNIGHTS TEMPLAR ELECT OFFICERS

Members Enjoy Banquet Prepared by Ladies of St. Mary's Guild of Episcopal Church

Last evening the regular annual meeting for the election of officers of Mount Zion Commandery No. 5, Knights Templar, was held at the local Masonic hall, the occasion being celebrated by a fine banquet. The ladies of St. Mary's Guild served a six course banquet at the close of the business meeting that was thoroughly enjoyed by all. Speeches were made and toasts offered by the various members of the commandery, which is a branch of the Masonic order that was established in the time of the crusades in the holy land for the defense of Jerusalem. The Templars from the beginning had their quarters in the palace of the Latin kings, which was also known

as Solomon's temple and it is from this fact that the organization derives its name. About the year 1118 Hugh de Paganis, a crusader, bound himself and eight comrades by a vow to the patriarch of Jerusalem to guard the public roads, to live as regular canons and to fight for the King of Heaven in chastity, obedience and self-denial. So from these three and many other christian tenets this organization acquires the right to be known as a religious body, although it does by no means limit its activity to this phase, but endeavors to stand as a brotherhood in the truest sense. The meeting last evening was not only a business session but was in the nature of a commemorative event as well. The following officers were selected to act during the ensuing year: Eminent Commander, Dr. Edwin W. Cook; Generalissimo, James M. Robertson; Captain General, George W. Thomas; Treasurer, Alfred W. White; Recorder, J. C. Peterson.

Gus Olson is looking after business in Omaha today.

THIS store is here for something more, and better, than merely selling goods, and taking the money for them. We know that's the idea generally held about a business—often by the men who are conducting it; simply the exchange of money for merchandise.

Now our idea of it is different; we're here to see that you not only get something for your money, but to see that it's what you ought to get for it—to protect your interests in the matter of value.

Our showing for this season is extraordinary. We'll be pleased to show you.
