### Halley's Comet.

The following concerning Halley's comet has been received from Professor Swozy, head of the department of astronomy at the University of Nebraska:

"The following table may be of use in looking for Halley's comet which should soon become bright enough to be found without the aid of a telescope. In fact it has already been made out with the naked eye on mornings when the sky was especially clear, by some observers who knew just where to look for it. After observing it this morning with the naked eye by looking along the outside of the tube of the telescope; I thought I could make it out but was not quite sure; it was best seen about 5 a. m., or a little before, earlier than that the comet is too close to the horizon to be easily seen and very soon after 5 the dawn begins to obscure faint objects in the east. Its position at 5 a. m., was 2 degrees north of east and 11 degrees above the horizon. With the unaided eye it could hardly be distinguished as yet from a faint star, and a very little haze in the sky would totally obscure it. But from this on it will increase in brightness rather rapidly.

April 21..	3:51 a. m.	5:39 a. m.
April 22..	3:47 a. m.	5:38 a. m.
April 23..	3:43 a. m.	5:36 p. m.
April 24..	3:39 a. m.	5:34 a. m.
April 25..	3:35 a. m.	5:33 a. m.
April 26..	3:31 a. m.	5:32 a. m.
April 27..	3:27 a. m.	5:31 a. m.
April 28..	3:24 a. m.	5:29 a. m.
April 29..	3:21 a. m.	5:28 a. m.
April 30..	3:18 a. m.	5:26 a. m.

May 1..	3:15 a. m.	5:25 a. m.
May 2..	3:12 a. m.	5:24 a. m.
May 3..	3:09 a. m.	5:23 a. m.
May 4..	3:06 a. m.	5:21 a. m.
May 5..	3:04 a. m.	5:20 a. m.

"By the first week in May it should be easy to find the comet without the aid of a table."

### A Nice Fixture.

Messrs. Kuhney & Clark, the barbers, are having an improvement put into their shop which deserves more than passing mention. It is an apparatus for heating water for their work, consisting of a large metallic tank capable of holding enough water to insure a constant supply for all purposes. This tank will be heated by gas and the arrangement for the heating is such that hot water is available for use within ten minutes after the fire is lighted. The tank is connected with a handsome new nickel and china wash stand giving both hot and cold water. The latter fixture is a pretty one and adds much to the cleanly appearance of the shop. The nickel fittings are attractive and can be kept nice and bright with small trouble. It is a big improvement over the old style method of heating water which they have had and their patrons are sure to appreciate it. The work is being done by the Plattsmouth Water company. Messrs. Kuhney & Clark are up-to-the-minute barbers and intend to see that their patrons get the best there is to be had in the shape of improvements. They enjoy already a fine patronage and are excellent artists in their line deserving it all.

## COOL HEADS IN CASES OF FIRE

Can Accomplish Much Without Aid From Fire Department

A narrow escape from serious loss by fire took place several days ago at the fine home of V. V. Leonard, details of which had just leaked out. Quick action by Mr. Leonard served to stop the fire before it had obtained too much headway and the fire department was not called out. It has been the custom of Mr. Leonard for many years to follow a regular routine of work in the morning and it is probable that this system resulted in saving his very handsome residence. He rose the other morning and lighted the fire in the kitchen after which he went to the barn and did the usual morning chores about that place including milking a cow. He returned to the house with a fine bucket of milk, having some six or eight quarts of the liquid. As he entered the door he was shocked to see the kitchen nicely blazing away presumably having caught from the kitchen stove. He did not hesitate but dashed the contents of the milk bucket on the flames and followed this up with an application of several buckets of water which ended the onward march of the flame demon and saved his property. Owing to the discovery of the fire in time, the damage was merely nominal and the family suffered principally from the deprivation of fine, fresh milk for the morning meal.

In many cases people would have dropped everything and called for the fire department before making an effort to subdue the fire but Mr. Leonard prompt action saved him severe loss doubtless and is highly commendable. There have been a large number of alarms sent in the past several months when no necessity existed for them as a little work by the party turning in the alarm; would have put out the little blaze existing. The city authorities have warned the public against sounding the alarm without any foundation and they are determined to break up the practice if possible. Chief Koubeek states that the department must turn out when the alarm is sounded and he is in hopes citizens will show more discrimination in using the alarm in the future.

### For Eighth Grade Pupils.

Today was the first day for examination throughout the county for the eighth grade, passing which admits to high schools the successful applicants. In this city the examination is taking place at the office of Miss Foster, county superintendent, the following pupils being present: Misses Grace Ficht, Doris Vallery, Glenna Barker, Mildred Snyder, Alice Tschirren, Nellie Cook and Emil Parkening, all of Mynard. The examination will also continue tomorrow (April 22) and on Thursday and Friday, May 12 and 13. In addition to holding the examination here examinations will be held on the same dates as follows, the names of the conductor following that of the town: Weeping Water, I. N. Clark; Elmwood, J. H. Slothower; Greenwood, A. J. Wickland; Avoca, J. L. Zink; Union, G. W. Cheney; South Bend, Birdine Smith; Manley, Lily C. Tighe; Wabash, Etta James; Louisville, Walter Plybon; Eagle, W. R. Mann; Nehawka, E. E. Collins; Murdock, Cora E. Smith; Alvo, J. R. Wilcoxon; Cedar Creek, Lena Young; Murray, Frank Curley.

### Boys and Girls Club.

County Superintendent Foster has received from the state superintendent notice that a special meeting will be held in Cass county for the purpose of organizing a boys club in agriculture and a girls club in domestic science. Miss Foster has issued a special call for a meeting at her office on next Tuesday, April 26, at 1:30 p. m., at which time Mr. A. E. Nelson, director of the University short courses in agriculture and domestic science will attend and outline the work. The girls club will be organized by Miss Gerturde Rowan of the state agricultural college. All boys and girls under 21 years of age are cordially invited to attend and are eligible to membership. It is hoped that the attendance will be very large.

Rheumatic poisons are quickly and surely driven out of the blood with Dr. Shoop's Rheumatic Remedy—liquid of tablet form. Dr. Shoop's booklet on Rheumatism plainly and interestingly tells just how this is done. Tell some sufferer of this book, or better still, write Dr. Shoop, Racine, Wis., for the book and free test samples. Send no money. Just join with Dr. Shoop and give some sufferer a pleasant surprise. All dealers.

### Condition of Grandpa Bailey.

The condition of Grandpa Bailey is reported this morning to be slightly improved over the past few days. The aged gentleman is resting well and seems to be some stronger. Despite his great age he is making a gallant fight and there seems to be well founded hopes for his recovery at no distant time. His wonderful vitality has proven a most pleasant surprise to his children and his physician and the latter hopes that he will hold out and continue to improve.

## THE STRIKE AT HAVELOCK SHOPS

Three Car Loads of Men Pass Through Here Yesterday

Train No. 33, the stub from Pacific Junction to Oreadopolis, yesterday afternoon had three carloads of men en route from the east to Havelock where they will take the places of the striking boilermakers. Apparently the company is having no difficulty in securing men to take the places made vacant by the men, although opinions differ as to the efficiency of the men being put to work. Talking with several of the men who are out, they maintain that the men who are taking their places are not boilermakers at all but are merely laborers whom the company is using in an effort to make it appear the strike is a failure and that in the end the men will win the fight, as the new men will cripple up the rolling stock of the company when they try to make repairs on it. On the other hand the railway officials insist the men are boilermakers and that the east is full of that kind of mechanics. They declare that the strike is over now and that enemies are being kept up in good shape. They also laugh at the reports which prevail along the line of dead engines on the Billings line and declare the stories without foundation. The men who are being brought in from the east are kept in the shops at Havelock, a dining car being put at their service and other arrangements being made to make the men feel at home. No trouble is reported anywhere along the line, as the strikers are behaving nicely and are peaceful and there seems no prospect of any trouble anywhere. However, the company is taking the necessary steps to avoid any trouble by keeping their new men to themselves and not permitting them to go up town. The end of the strike so far as the strikers is concerned, seems far distant as the men are still out and show no signs of weakening. There are the usual rumors of other mechanics going out in a general move against the piece work system but it is not believed there is any foundation for the report. Certainly in this city, there is no disposition whatever to strike and the men seem well contented with conditions.

Any lady reader of this paper will receive, on request, a clever "No-Drip" Coffee strainer coupon privilege, from Dr. Shoop, Racine, Wis. It is silver-plated, very pretty, and positively prevents all dripping of tea or coffee. The Doctor sends it, with his new free book on "Health Coffee" simply to introduce this clever substitute for real coffee. Dr. Shoop's Health Coffee is gaining in popularity because of; first, its exquisite taste and flavor; second, its absolute healthfulness; third, its economy—1 1/2 lb 25c; fourth, its convenience. No tedious 20 to 30 minutes boiling. "Made in a minute" says Dr. Shoop. Try it at your grocer's, for a pleasant surprise. F. S. White.

### The First Issue.

Rev. C. A. Burdick of Nehawka, editor of the Religious Field Glass came up today from his home on business connected with his publication, being a caller at the Journal printery where the monthly is published. The initial number of this handsome little magazine is a splendid one and shows much work and ability on the part of the able divine who edits it. That it will leap into instant popularity is unquestioned and that it will advance to the front rank of religious publications in Nebraska and this part of the country seems unquestioned. It is now ready for distribution to the subscribers who will find it well worth all its costs. Rev. Burdick contemplates some changes and improvements in the periodical such as naturally follows the launching of a new enterprise so that its patrons can look forward to a steadily increasing amount of interesting matter in it.

C. B. S. Buggy Pole & Neck Yoke. The C. B. S. buggy pole and neck yoke is the best there is just out. Insist on getting one. Manspeaker sells the poles and the hardware stores sell the neck yokes.

No matter when you plant or what you plant—plant some money in the Bank. Not tomorrow, it never comes but now.

It will grow and yield like any other seed. And its safe

ONE LITTLE DOLLAR, so easily spent, if put in the bank at 10 per cent, compound interest would in 500 years amount to 496 quintillion, 984 quadrillion, 196 trillion, 731 billion, 226 million, 689 thousand, six hundred and twenty-nine dollars. \$496,984,196,731,226,689,629. Money grows if you will let it.

We will pay you three per cent on the money you put in our bank and compound the interest every twelve months.

### The First Aid.

In case of an accident or of a sudden sickness the first aid often is of the greatest importance. The person remaining cool will quickly think of something that will lessen the pain or discomfort of the patient. Every mother knows, of should know, what to do in such cases before the doctor arrives. One of the remedies that should be considered in a case of sudden sickness is Triner's American Elixir of Bitter Wine, because it will stimulate

the circulation of the blood, bringing in this way all organs to work. It is a very good remedy in diseases of the stomach and the intestines and a natural tonic. People, pale and sickly, will find in this remedy the best help. Use it now, if you wish to purify your blood in a natural way. At drug stores. Jas. Triner, 137-139 So. Ashland Ave., Chicago, Ill.

Suits made to order from \$20.00 to \$35.00. Sochor, the tailor.

GIVING good values for your money, such as we are giving, makes the clothing business a source of pleasure to us. Constantly making friends of new customers and holding the friendship of the older ones—that's enough to make any business a pleasure.

When we sell you clothes at our "value giving" prices, we're not getting rich from the immediate profits, but we're making sure of getting your clothes money in the future. Making you a solid friend (customer) of this store; that's our aim in selling you such good clothes at such low prices.

Any day you feel like it we'll be glad to show you some of the lively patterns from our large Spring showing.
