BONDS FOR PAVING CARRY IN EVERY WARD OF THE CITY

Heavy Majority Given for the Proposed Bond Issue Means That Plattsmouth Will Have Public Building.

improvement. That was demonstra- sidered themselves ill-used in the ted yesterday most emphatically by matter of street work, sidewalks and the action of the city's voters in fight in this part of the city and endorsing the proposed bond issue considerable argument was required for intersection paving, by an over- to make the voters understand where whelming majority. The vote cast was light and even then the greater part was registered in the evening hours when it became known that there was danger of defeat to the is-

The proposition carried every ward in the city including the Fifth ward where the opposition had confidently total being considerably under onecounted upon rolling up a good majority. There were a number of opponents of the issue who took very decided grounds against it and who urged that the voters repudiate the issue but they found themselves in a hopeless minority when the vote was counted. The total cast was 442 considerably less than half the vote of the city but the large majority demonstrated that the citizens were so greatly in favor of the issue that a full vote would have simply obliterated those in opposition.

In the First ward where the paving is to be done and where there was some strong opposition, the vote that all might understand the imsimply buried the opposition. There were \$1 votes cast which is about onehalf a vote. Of these 75 favored the bonds and there was only 6 against it. This handsome endorsement of the project by the people who will have the heavy cost to pay should silence anyone who says Plattsmouth The members of the city administrais not for improvement. The few in tion with practically no exception the ward who fought the bonds formed a very small minority and plainly the will of the people in the new paving district is for the work.

In the Second ward there were 123 votes cast which is considerably less is another step in advance and works than half a vote. The opposition for a bigger and better Plattsmouth. here did not far any better proportionally than in the First as they mustered but 10 votes against the project to 113 for it. Considerable the bonds but there seems no foundwork was done in this ward by one ation for their quibble. The law of the active opponents of the work seems plain that all the vote re-
