

AN INTERESTING SESSION

City Council Dwells Together in Harmony and Much Business Transacted.

From Tuesday's Daily.

The meeting of the city council last evening was an harmonious gathering with all members present and Mayor Sattler and Clerk Elster sitting on the lid. There was a great deal of work done and the council took decisive steps toward making good on its promise to make Plattsmouth a bigger and better town. The vacancy occasioned by the resignation of Fred Reznor as councilman of the Fifth ward was filled by the appointment of William Shea, a well known citizen of that ward and an excellent gentleman. Mr. Shea will make good in the position and will give the people of his ward a first class administration. The appointment was entirely unsolicited by him and came as a surprise. There were several applicants for the place but Mayor Sattler consulted the wishes of the people of the ward as expressed to him and appointed Mr. Shea.

The minutes of the previous meeting and also the special meeting at which the remonstrance against Mr. Gering was had, were read and approved. Dr. Elster who as a city clerk has no equals, had failed to spread any remarks anent the disturbance on the records and the council kindly agreed to overlook the omission. This omission was very discouraging to ye reporter who had hoped to make a record as a goddess of peace and go thundering down the long vista of time with the olive branch firmly clasped in his small, sylph-like hand.

A communication from Fire Chief Koubek and seventy-four others asked that hydrant be placed at the corner of Main and Spring streets and on motion went to the fire and water committee.

A petition from Henry A. Schneider, J. M. Leyda and many others was read, asking that some grading be done along the south half of block 98 for a sidewalk. On motion the streets committee was empowered to take a peep at the matter and do whatever was necessary.

Chief Amick who has gotten tired of dodging automobiles and fighting his way to fame along the primrose path beset by malefactors, tendered his resignation to take effect at once or sooner and it was accepted with an alacrity which was surprising. The chief really has other business which he has to look after. The mayor did not fill the vacancy at this meeting, wanting time to select a good man for the job.

City Attorney Ramsey had a communication in which he stated the title to the old Edgerton mill property was in Alf and Leona Edgerton name, minor heirs of the late Wm. Edgerton. Mr. Dwyer suggested that the building stood partly in the street and he wanted the city attorney so told which was ordered.

Dr. Elster, the city clerk, had his good report at this meeting. The good doctor had collected during the month \$6,984.75 which he had turned over to the treasurer. The latter gentleman had a report also at hand which showed the city had the vast accumulation of \$10,171.39 on hand which could be used in making Plattsmouth a larger and better town.

The chief of the fire department, together with the several foremen of the hose companies, had a report on hand showing the condition of the department equipment.

Chairman Weber of the streets committee reported that the special committee had visited the Burlington shops and that the engineers of the road would be here soon and make an estimate as to the cost of grading and changing Lincoln avenue along the shop yards. He also wanted bids for making permanent crossing and walks asked for according to the specification of two years since. Councilman Dwyer wanted to know if the city had any specifications on file which the mayor assured him it did.

Chairman Neuman of the fire and water committee reported an estimate which the committee had received of the cost of installing a tap on Fifth street for the sprinkler. The estimate was rather vague and indefinite and looked to the council like the tail of Halley's comet, so they referred it back for more light on the subject. The estimate fixed the cost at \$35.

Chairman Neuman also reported that he had taken the committee and they had prowled through the alleys of the business center with the result that they unearthed two gasoline tanks. He believed in abating the tanks. On motion of Councilman Dwyer the city attorney and the fire and water committee were instructed to get together and draft an ordi-

nance to abolish such concerns and report same to the solons for passage.

Chairman Kurtz of the cemetery committee made a game fight for some improvements at the cemetery and got what he wanted. He referred to the deplorable condition of the streets in the cemetery and the necessity for paving them and asked that \$300 be given the committee for work in that respect. Gophers were invading the cemetery and he wanted to get rid of them. Mr. Kurtz made a good talk for cemetery improvement. He was ably supported by Mr. Will who wanted the streets in the cemetery macadamized and also wanted the gophers exterminated. Mr. Neuman also took a strong stand in favor of the work. He also thought some \$200 or \$300 ought to be voted for the work. Mr. Kurtz moved that \$300 be appropriated and taken from the business tax fund to the cemetery fund to be used at the discretion of the committee. Councilman Dwyer raised a technical objection as to the legality of the transfer, doubting the power of the council to make it. After some argument the motion was withdrawn. Dwyer made a fight on the appropriation of \$300 and wanted it cut down to \$150. Neuman opposed cutting down the appropriation. He wanted enough money appropriated so that the work could be done well and insisted that council do this. Mr. Kurtz made another and stronger talk for the appropriation and developed talent as an orator. Dwyer inquired what assurance the council had that the work would be permanent. He thought \$150 would do as well as \$300. On the vote the \$300 appropriation prevailed by a vote of 7 to 2 and the work was ordered done. Dwyer and Dovey voter nay.

The special committee consisted of Messrs. Dwyer, Weber and Neuman.

The report of the police judge was then read and referred to the police committee. A sidewalk resolution for a walk along the old Fairfield property south of the Missouri Pacific depot was then presented and passed. The city clerk was ordered to get busy and collect the occupation tax and Mr. Neuman insisted that the insurance companies be asked to contribute to the uplift of the city by paying their tax. The council then passed a formal resolution ordering the tiling for Chicago avenue where the work is to be done toward making it navigatable in wet weather and also providing for making Plattsmouth a larger and better town.

Mayor Sattler then held a big uncovering, nominating Wm. Shea as councilman for the Fifth ward to succeed Fred Reznor, resigned. The nomination met with popular approval and he was confirmed unanimously.

A number of street repairs were then ordered after which the solons concluded they had done enough for the making of a larger and better Plattsmouth and adjourned.

During the noon hour Wednesday thieves (supposed to be tramps) broke into the sleeping car of some laborers in the Missouri Pacific yards. The Burlington station here is getting to be quite an important one. Station Agent Starkey, however, is to be relieved of much of his work by the employment of an extra operator. Howard Jackman, who formerly was employed as helper, has been advanced to the position of day operator and another helper has taken his place. This makes three men at the depot while Chester Merriam and Bob Steenbock look after the semaphore, the former at day time and the latter nights. The increase of business at this point has made the extra help necessary.

Her death comes as a dark shadow to these and to her relatives who loved her so dearly.

In the Land Business.

Col. John Franklin Swezey, once an advertising solicitor of note throughout the length and breadth of this state, but now connected with the Union Pacific land department in the capacity of a real estate salesman, is in the city, having dropped in yesterday and making the Journal and his many friends in the city a call. The Colonel thinks he has the greatest land proposition on earth and, from all reports, he really has the goods to sell the people. He is prepared to deal out realty in large bunches to the populace and it is said to be land which is as good as the best. It is located mostly in Colorado, Wyoming and Kansas; very little Nebraska land being on the market.

Well Satisfied.

Evidently, the Plattsmouth contingent which is touring Texas, is well pleased with the country as a post card received by Charles Grimes of the Journal, from J. W. Vallery, evidences. Mr. Vallery's card is dated at San Antonio, May 6th, and is as follows:

"Friend Charley:—Everything is fine here and we are well pleased with Texas. Tell the Journal Texas is all right and is all they say it is and more. Regards to the boys. J. W. V."
