MAYOR JOHN P. SATTLER NAMES WEDNESDAY, JUNE 29TH, AS WEED DAY

Asks That Property Owners and Others to Cut Weeds and Assist in Improving the City.

Mayor John P. Sattler desires to announce to the public that he has set apart next Wednesday, June 29, as Weed Day, and he asks the property owners of Plattsmouth to turn out and cut the weeds in the streets in front of their premises, and on the lots which they own. Under the provisions of an ordinance which was passed last year the cutting of these weeds can be done by the city and the cost taxed against the property adjoining which the work is done. To save the cost property owners are urged to get busy and clean up on Wednesday next. If this is not done the city will take up the matter and do the work and the cost will be levied in taxes against the property. Save costs and cut the weeds yourself the Mayor declares.

The near approaching of the Fourth of July with the big celebration is enough to cause the people to take some action toward cleaning the city up. There will be a large number of visitors in the city and it is to the credit of everyone to have the streets and property clean and in good shape. Let it be said that Plattsmouth will be the weedless town on July 4th. There are some streets on which the weeds have been allowed to grow for several weeks past and they present a very untidy and unsightly appearance. These should be cut down, if for no other reason than to show the strangers that the city is peopled with clean and neat people.

It is the intention of the city officials to make a canvass of the city after next Wednesday, the 29th, and order all work done at once which

the property owners fail to do themselves, and to keep a careful check on the cost, later putting it into the tax levy against the property. This means that the cost of the work will be considerably higher than it would be if done by the individual, and it would be in the nature of a penalty which can be avoided by a few hours work.

There should be steps taken to clean up the alleys through the business center. Some of these are in a very bad condition, there being filth and rubbish piled indiscriminately about and a most disagreeable odor arising therefrom. This should be cleaned up if for no other reason than for the public health, but with the coming of a large number of strangers to the city, pride should operate to cause the merchants and property owners to clean up. Let Plattsmouth put on a gala dress for this occasion, and let it be sprick and span in new and clean clothes. Business reasons alone should be sufficient to cause the men interested in the public welfare to get busy and clean up.

Mayor Sattler wants it distinctly understood that he intends to enforce the weed ordinance against everyone alike and he will also take up the alley and street cleaning proposition with a view to giving the big crowd which will be here the Fourth a picture of a pretty and neat city. The people should second his aims with their endeavors and make the city a handsome one and one which the visitor would like to live in. Clean up Plattsmouth and cut the weeds and do it now.

TO GIVE TURNING EXHIBITION

T. J. Sokol Turners Training for the Fourth of July

Another good strong attraction for the Fourth of July seems to be assured in the shape of a grand turning exhibition by the Bohemian Turners. Arrangements were tacitly made last evening to have a class of some twelve members of this organization which is known as the T. J. Sokol give an exhibition drill lasting about half an hour on the streets during the day, the class to be accompanied by the M. W. A. band in music. The class will be under the direction of Prof. Louis Jiran, one of the best directors of such events in this section of the country and a recognized authority in Bohemian athletics.

There is no more handsome spectacle to be presented than a well trained turning class in the drill and the T. J. Sokols have such a class. The boys have regulation athletic uniforms and gymnasium suits and the drill will be given just as it is presented at the national turnfests of the organization. This promises to be one of the best attractions which could possibly be secured and will reflect much credit upon the members of the class and the directors.

The members of the class will put in all their spare time between now and the Fourth in drilling and they promise to put on a stunt which will be highly satisfactory to the public and which will form a very entertaining feature of the day's program.

There is also a possibility that the German Turners will be able to put on a drill also, although this has not yet been arranged for. The drill will not be in any sense competitive but would be exhibitions of fancy evolutions and maneuvers which will be both pretty and instructive. The German Turners have a strong class and would make a fine showing should they decide to take the matter up.

NEHAWKA.

(From the News.)

Mrs. S. E. Rogers and granddaughter Ermine Kirkpatrick arrived on Wednesday evening from Denison, Texas, to visit at the Kirkpatrick home.

Claude Johnson a former resident of this place, and who, it will be remembered lost an arm here several years ago, is here on a visit to friends and relatives.

Frank Boedeker is busy taking his vacation now and if his strength holds out, thinks he will be able to go to work when the time comes equal to the best of them.

Rev. Stephen Orr of Tabor, Iowa, who is on his way to California, stopped off here over night Tuesday for a short visit to his cousin, Uncle Ben Hoback. He tried to coax Uncle Ben to accompany him on his trip but did not succeed.

Dr. Newell, the Union dentist, has fitted up an office over Mr. Adams drug store and will be here without fail every Friday. The doctor has had sixteen years experience in his chosen profession and has the reputation of being a painstaking workman.

William Carroll returned Monday from a visit of two months to his son in York, Nebraska. He was accompanied home by his daughter, Mrs. Clawson of Portland, Oregon. Mrs. Clawson has not been in Nehawka for sixteen years and will no doubt enjoy visiting her old time friends. She will spend the summer visiting here and in the south and this fall her father will accompany her to Portland.

On last Saturday afternoon Mrs. I. Pollard and Mrs. E. M. Pollard at the beautiful and commodious home of the former entertained in honor of Mrs. Rose of Butler, Penn., and Mrs. Jones of Detroit, Mich. Several relatives from Union were present, several from the country and a goodly number from the town were present to enjoy the hospitality. After partaking of a dainty luncheon served by the hostesses and their assistants, Mrs. Rose bade her many friends farewell and started on her journey home. Mrs. Jones came to bring Mary Pollard Cook's little daughter Beatrice for an extended visit with her grandparents.

Mrs. Thomas Walling and daughter Miss Margaret, returned last evening from an extended visit with her brother at Guthrie, Okla. She had a very delightful time and found Oklahoma to be a mighty fine country with a great future before it. It has been blessed this year with one crop and there is every prospect that this will be a banner year throughout that section. Mrs. Walling's brother is the proprietor of a large hotel in Guthrie and has prospered just as most of the residents of the baby state have in the past few years.

Collar Bone Fractured.

Jens Peterson who works for Jacob Domingo, was riding to town last Sunday on his broncho, going to attend the picnic. The pony bucked and threw him off, breaking the collar bone in two places. He again mounted the pony but the latter was trying to dismount him when Mr. Domingo came along and took him into his buggy and brought him to Dr. Welch, who adjusted the fracture.—Weeping Water Republican.

HERE TO LOOK OVER THE PLANS

J. H. Wiese of South Omaha Is Here to Look Over Plans For Postoffice.

J. H. Wiese, a prominent contractor, of South Omaha, is spending the day in the city examining the plans and specifications for the new post-office building, and is looking over the site for the same. Mr. Wiese is somewhat puzzled over where to get the earth to fill in the lots at the side of the building, and has been casting about for some place to secure it from. A number of projected improvements which will be made this summer and fall will leave a lot of waste earth which he can get, and he has several places in view in which to obtain the earth. He is also of the opinion that the appropriation of \$50,000 is too small for the size and character of the building which the plans and specifications call for, and believes that a good deal of difficulty will be experienced in getting a reliable contractor to bid on the work within the limit of the appropriation. This is also understood to be the view of a number of local contractors who have been looking over the plans, and may prove a serious stumbling block to completing the structure as planned.

It is said to be the practice of the department at Washington to decline to order work done unless the bids come within the limits of the appropriation, and when this is the case, the bids are announced and the contracts let immediately. If the bids exceed the appropriation, the usual plan is to get the lower contractors together and make such changes as will eliminate the extra cost of the same. This latter plan would suit the people of this community very well as they want a good building and are willing to wait a short time to get one. Mr. Wiese is a contractor of considerable experience in public works and doubtless will have a low bid on this work. He realizes that he will have strong competition from the local contractors who have been figuring on the work for some time past. The presence of the several contractors leads to the belief that the commencement of the work is not far away, something which pleases the public.

Mrs. Heenan and George B. Smith arrived in the city this morning from their home at Cheyenne, Wyo., to make a visit with D. B. Smith and family. The young man is a grandson of Dan and his estimable wife and is a very smart and bright boy.

Showed for the Bride.

One of the handsomest and most pleasant social affairs given in the neighborhood of Manley for many years was a miscellaneous shower tendered Miss Lenora Edna Tighe by a large number of her friends at the home of Misses Elizabeth and Agnes O'Brien, one and one half miles east of Manley between the hours of 2 and 5 p. m. For this occasion the home of the Misses O'Brien had been most beautifully decorated, the color scheme throughout being blue and white. The decorations of the dining room where a three course dinner was served later in the afternoon was especially nicely decorated.

The diner was a very elaborate affair and made a most enjoyable occasion. The table had been very handsomely prepared for the event and all the good things of the land were at hand for the benefit of the guests. The center piece upon the table was a magnificent collection of white roses which formed a very striking and handsome ornament. The guests of honor, Miss Tighe, was made the recipient of a great many handsome and useful presents, many of them being of great worth and expense. The entire occasion was one which will long linger in the memories of the guests as a very enjoyable event.

Those attending were Mrs. Higgins, Mrs. Ralph Keckler, Mrs. George Shafer, Miss Henrietta and Jennie Carper, Miss Clara Jenkins, Misses Maggie and Katie Wolpert, Misses Bertha, Anna and Frances Stander, Miss Lizzie Glaubitz, Misses Addie and Susie Mockenhaupt, Misses Anna and Theresa Rauth, Misses Bessie and Mary Heeney, Misses Agnes and Mary Tighe and Miss Nellie Kelly.

Has a Cut Elbow.

Frank Rebal who is employed at A. J. Trille's barber shop, as the shiner, last night sustained a painful injury when he inadvertently rammed his right arm or elbow into an electric fan which was humming away at the shop. The boy who is a son of Street Commissioner Rebal and who is a nephew of Mr. Trille, was engaged in cleaning the windows of the shop and drawing his arm back, happened to thrust the elbow into the fan. Instantly it cut a sharp gash in the member. The aid was badly scared and promptly fainted. He was soon revived and a surgeon dressed the injury. It is not considered dangerous and he will probably be all right within a few days.

Dr. Thomas' Eclectic Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years.—Mrs. L. Whiteacre, Buffalo, N. Y.

Henry Boeck is one of the visitors today in Bellevue with the pioneers, going to that city this morning on the Burlington train for the day.

Copyright Hart Schaffner & Marx

There is a good clothes game going on here all the time, and you're taking part in it. You can make a good score or not, just as you choose; and you're the umpire.

The clothes for winners are Hart, Schaffner & Marx clothes; they're always all wool, always right in style, always perfectly tailored—and you don't know any other clothes you can say as much for.

Glad to show you, even if you don't care to buy.
