ONE GREAT AND GLORIOUS WEEK

From July 4th to the 9th Red Men will Celebrate.

The action of the committee of the Improved Order of Red Men in closing a contract with the Brown shows for July 4th, has been received with delight by most of the members of that order. This insures Plattsmouth plenty of attractions for the great day and in connection with the mile long parade, the music of the M. W. A. band, the wrestling and boxing contests and the turners drill, together with a number of other stunts, promises to make this day the greatest the city ever had.

The Brown shows comprises nine attractions, they being the Beba Big show, something which has proven a winner wherever put on, the James Boys in Missouri, a wild west frontier scene which is realistic and very thrilling and which causes the audience to set up and take notice, the Bohemian Glass Blowers, said to be the greatest act of the kind ever put on they being veritable wizards of the glass, the Dixie Land Minstrels, a black face show which is ranked well up with the best and which is full of new music and up to date gags, McFadden's, a highly original and amusing act which pleases the entire crowd and keeps them laughing from the start to the finish. Skiddoo 23, a Katzenjammer castle which is full of fun and frolic and also a mysterious and strange performance, Nero, the big snake—one of the monsters of the reptilian world—a sight well worth seeing—coming from the jungles of Africa, the Ferris Wheel, a great contrivance for the amusement of young and old and a fine machine, and a carousel which is of the celebrated Parker make and worth patronizing by those who like this form of sport.

With this list of paid attractions and a grand balloon ascension or possibly two if the committee so desires and a great and thrilling slide for life from the top of the highest edifice in the city to the earth—a feat in which a man suspended alone by his teeth to a slender wire slides from a dizzy height to solid ground, there can be no doubt of a great big program. When it is recalled that the morning of the Fourth will see one of the grandest street parades ever given in the city, that there will be able and eloquent orators present and that there will be many local stunts on the program together with the list of great attractions given above there is no doubt Plattsmouth will show just what a real Fourth is.

The agreement with the Brown shows provides specifically that no gambling devices are on the ground and no immoral or unclean exhibitions will be allowed. The committee will cancel the contract if any are attempted and the public is assured that it can attend and be assured of protection.

A misunderstanding seems to prevail in some quarters over the proposed parade on the morning of the Fourth. This will certainly be held whether a carnival company was secured or not. The business men are asked to cooperate and help make this a big Plattsmouth day. The knocker has no place in Plattsmouth now and the Fourth of July should have the boost of everyone. Let the commercial club lend its help to the Red Men who are trying to do something for the city and let the business men add their share and we will all make Plattsmouth succeed.

Takes Enforced Layoff.

Homer Stapleton, a brakeman on the Burlington, is taking a layoff as the result of a collision between two parts of the train on which he was working this morning. The train is known as extra No. 2203, west bound, and passed through this city this morning about 5:30 a. m. Near Orapolls the train had slowed down for the station and the semaphore and when the latter showed clear, the engineer is presumed to have taken up the slack in the train with so much force that the coupling broke between two of the cars and the first section darted ahead. The air did not set and the second section ran ahead and caught up with the first section, the engineer shutting off steam as soon as he discovered what had happened. Stapleton was sitting in the caboose when the second section overtook the first and the force of the collision hurled him against the end of the car, resulting in severely bruising his face and other minor bruises. It was thought at first that his right cheek bone was broken and he was hurried back to this city, where the company surgeon made an examination, disclosing that no bones were broken but he had a very badly battered face. The injury is a painful one and will keep him off his work for several days but he was very fortunate in not having more severe injuries.

Solace For Malefactors.

Two prisoners escaped from the Cass county jail last Saturday so we glean from the Journal. One was Grant Blunt, charged with robbing freight cars, and Earl Morris who burglarized Upton's store in Union. According to reports, the prisoners unscrewed a nut from a bolt, knocked the bolt out and escaped. This could of course have been accomplished by just kicking against the wall, so they say, but the boys wanted to do a professional job, and used their brains in the work. To be sure Sheriff Quinton captured them and the boys are in the den once more. The Journal says the jail is a frightful place to be confined in and no fresh air penetrates the building. We recommend an electric fan for the good people who are confined in the jail and deplore the fact that people confined therein should be punished.—Weeping Water Republican.

Thought His Mitt Off.

Fire Chief Anton H. Koubek is nursing a wounded right hand today. He was engaged this morning in putting a case of pop into the ice box at Ed. Egenberger's where he is employed, when one of the bottles exploded with a loud bang, the glass cutting the hand. The injury is not dangerous but it is very inconvenient. The cause is probably the too high pressure to which the pop was subjected when it was placed in the bottle. The pop was of the strawberry variety and it was thrown over the hand when the bottle went to pieces, giving him the appearance of having one mitt blown off. He was horrified when he looked at the hand and believed he was in imminent danger of bleeding to death. He had to take his hand by the left hand and move it around a few times to convince himself that he was all there. A surgeon was called in and assured him that the hand was still hung on his arm and after he dressed the injury, the young man felt better.
