## SUNDAY SERVICES AT PLATTS-MOUTH CHURCHES SPLENDID

Rev. Gade Preaches Most Eloquently at Presbyterian Church and Rev. W. L. Austin Speaks at Methodist Church.

From Monday's Daily. Yesterday morning a large congregation was present at the Presbyterian church to hear Rev. Gade in a strong and powerful sermon. Rev. Gade delivered a very impressive address and held the attention of his congregation from the start of his sermon until the final word was said. It is a matter of gratification to the church that the congregations have been growing so steadily since the new pastor assumed the helm and despite the hot weather the number attending has steadily increased.

Rev. Gade is carefully organizing the forces of the church for aggressive work during the coming summer and fall along spiritual lines, and he is pleased and grateful for the interest which has been shown in his efforts.

Rev. Gade intends to commence the Fourth of July with a patriotic address to which the public is invited. The occasion is a timely one and the address will be along the lines of the welfare of the nation. Indications are for the largest attendance of any of the numerous very able addresses which the pastor has delivered and it is to be hoped that every patriotic American will attend and listen to the good words which he will speak. A feature of this meeting will be singing by Miss Watters of Grand Island who is visiting her brother, R. O. Watters in this city. Miss Watters is a pleasing singer and will thoroughly satisfy the public with her selections.

On Sunday, July 10, Rev. Gade expects to preach a sermon upon "Gypsy Smith and his sermon—The Lost Christ." This will be a very able address and well worthy of hearing. Gypsy Smith is the famous English evangelist and is much given to lurid methods in getting the world before the public. Rev. Gade has carefully studied his sermon and his comments upon it will be worth listening to.

### At the Methodist Church.

Rev. W. L. Austin yesterday addressed two large congregations at

the Methodist church. Despite the heat of the day many were present and the pastor was much gratified at the interest displayed in the services. The morning sermon was devoted to an exposition of the character of Moses and it was a masterly exposition of the manifold merits which adhere to this great evangelist and leader of men. A feature of the morning service was the work of the choir which rendered with very pleasing effect a grand anthem. The work of the singers of the choir at both the morning and evening sessions was particularly good and was greatly appreciated by the large congregations. There were some fifteen voices in the choir and the work was excellently arranged so as to display the best qualities of all.

In the evening Rev. Austin preached upon Forgiveness, taking his text from John 8:11 and he made a most impressive sermon from this text. Framing his sermon to the end that the enforcement of the law was his theme. Rev. Austin pointed out that the church as an institution should not be relied upon to make the enforcement of the laws compulsory but that each individual should feel it his Christian duty to see that this was done. He cited the example of Christ when the woman taken in adultery was brought before him as an example and exemplification of his meaning and he related the position which Christ took in relation to the enforcement of the law. His sermon was a very effective and taking one and was listened to with the deepest attention.

The Methodist Sunday school will observe Independence day on next Sunday with appropriate services and Rev. Austin will deliver a patriotic sermon that evening. He will speak upon "Christian Citizenship" and the address is promised to be one of the best delivered in years. The Journal will endeavor to give a sketch of the sermon after its delivery and regards it as one of the ablest to be delivered in the city. A large attendance would be well satisfied without doubt.

### In Police Court.

From Monday's Daily. A complaint was filed this morning before Judge Archer by William Andrews, an employe of the Talene Bros., who have been running their merry-go-round down near the Burlington yards. William alleges that one Ward Barr, who is not unknown to fame, came down to the merry-go-round full of red liquor and started a riot or a near riot and came near decimating the population thereabouts. This was something which William did not approve of and he remonstrated mildly with Ward who stated his weight in pounds and ounces and also by stone measure and challenged William to mortal combat. This is entirely contrary to the preconceived ideas of William and he demurred preferring to see the dread majesty of the law work out its course. Hence the complaint.

Judge Archer who has a celebrated brand of justice always in stock to deliver to malefactors, issued the warrant and it was served upon Ward who appeared and answered that he was not guilty to the offense and he wanted further time in which to procure the attendance of spectators to prove his innocence. The court being in a gracious mood consented to letting the matter go over until 5 p. m., of this date when the linen in question will be threshed out with equal and exact justice dealt out with an unsparing hand.

Our old friends John Doe and Richard Roe are once more about to burst into the limelight. Said John Doe then and there being did enter the several saloons of the city and fill his hide with bug-juice until he became possessed of the idea that he was stronger than J. Jeffries or J. Johnson ever hoped to be. He did all this in company with two companions one of whom Chief Rainey knows as Richard Roe, first and real name unknown. The parties journeyed up the street until they were in front of the palatial office building of the Plattsmouth Journal when J. Doe who is some tall man

with weight to go with it, proposed to R. Roe that he, the said J. Doe, then and there being knock the everlasting daylight out of him the said R. Roe. This came to the notice of Chief Rainey who is careful about such matters and a stickler for the etiquette of the occasion. So the chief proceeded to round up J. Doe and investigate his personal record with very futile results. J. Doe declined to come across and behave himself, hence Chief Rainey threw him in and there he will sweat out the booze until tomorrow morning when he will face Judge Archer and get a dose of his celebrated brand of justice warranted to cure the most confirmed case of jag in the world.

### Buys Property in Omaha.

From Monday's Daily. From the Omaha papers the Journal learns that J. P. Falter of this city has concluded the purchase of a one-quarter block in Orchard Hill addition to Omaha. The property is located at the northeast corner of Fortieth and Hamilton streets and the stated consideration is \$34,800. On the lots are a number of buildings including a frame store building and four dwelling houses. The property is said to be of much value and well worth the consideration. It is located in a fine part of the city and a part toward which the city is rapidly growing. The Journal is pleased to note that a prominent citizen of this city is taking such an active interest in realty in the metropolis and it hopes the venture will prove advantageous to a business standpoint. It is stated that a farm which Mr. Falter owned in Missouri is included as a part of the purchase price.

Vernon Clapp, who has been making a visit in this locality with L. B. Brown of Kenosha, was in the city on Saturday afternoon and met a number of friends here. The young man is having a fine time down on the farm and hugely enjoying himself during his summer outing.

## GETTING READY FOR PARADE

Merchants Generally Busy Preparing for the Event.

The preparations for the great Fourth of July celebration continues apace. This morning an advertising committee of Messrs. I. J. Decker, Albert Egenberger, Bert Thomas and Charles Truman departed to bill the country for the big event around the neighborhood of Mynard, Murray, Union and Nehawka. The boys went in the carriage hauled by the mule team of Mr. Decker who so kindly donated the use of the team to the lodge. The Red Men are under great obligations to Mr. Decker for his kindness and hope to be able to some time repay him for his generosity. The crew expects to get back some time this evening.

The indications for a grand parade continue flattering. Many of the merchants are stirring themselves and the frames for good, attractive and generous floats are in sight on every hand. A meeting of the Sons of Herman yesterday set the mark for lodge affairs. This meeting decided unanimously that a float be built and the sum of \$50 was appropriated for material, the work to be furnished by the members of the lodge. It is said the chosen design is one of the most beautiful ever seen in the city and the opinion prevails that the float stands a fine chance of carrying the first prize. The public will understand that three prizes are to be awarded for the best floats consisting to \$25, \$15 and \$5 and all will be worth while. In addition to the Sons of Herman there will be nearly all the live lodges in the city represented. The commercial club this afternoon will probably take some steps to recognize the great occasion and lend their approval to the scheme. Taken all around the indications are that Plattsmouth next Monday will have the greatest crowd in its history and the best celebration. With the merchants and the lodges acting harmoniously there is no reason why a vast crowd should not be present and take part in the festivities.

Agent Norton of the Missouri Pacific states that there is no room for doubt but a special train as requested by the citizens of Union and Murray will run on the 4th and the public is advised to watch for further announcements. If the train runs and that is considered certain, then passengers from Union, Nehawka, Murray and other points do not have to get up at 4 o'clock in the morning but can come here on a train out of Union at 7:30 or 8 a. m. This gives them a convenient starting hour and assures the public that Plattsmouth wants them all in its borders.

The committee on speakers through Mr. Emil Walters, a close personal friend of the speaker, has absolute assurance that Hon. Hugh A. Myers of Omaha will be here for the great occasion. Mr. Myers is one of the really eloquent and able orators in the middle west and he will deliver a splendid address upon the Red Men and their aims. He is worth listening to and a speaker who will more than make good. Judge Sutton is expected to give a final answer to the committee by a few days and there is not room to doubt but it will be favorable. Judge Travis of this city has already accepted and will be heard which insures a galaxy of stars for the speaking.

The Brown Carnival company should be here long before the 4th and they will have nine grand attractions, all of which will do all the business they can handle. This insures a fine attendance and everyone man, woman or child can attend and know the shows on the grounds are clean and moral. Indications are for the largest crowds ever in the city.

### Will Celebrate at the Institute.

Ed. Schulhof is among those who spent Sunday in the city with his parents, returning to Glenwood this morning to assume his duties at the institute. Prof. Schulhof expects to put on quite a little Fourth of July celebration at the institution with his excellent band. There will be a program of unusual merit arranged for the benefit of the little unfortunates at that place and the band will give them a popular program which will be worth their listening to. There are two concerts a week given by this band at the institution and these concerts are well worthy of attendance.

### A Birthday Picnic Supper.

From Monday's Daily. Miss Barbara Clement very pleasantly entertained a number of her schoolmates and friends Saturday evening at the city park at a picnic supper. The occasion was in honor of her birthday anniversary and the friends who assembled at the park at her invitation, celebrated the event in a manner which will long be remembered as those participating in this delightful affair, report an exceedingly fine time. Along with the many enjoyable things the thoughtful hostess had provided for the entertainment of her guests, was a delicious appetizing and pleasant, and with appetites whetted with the outdoor games and amusements, they fell too and soon made the supper nothing but a memory. Miss Dora Fricke acted as chaperone.

Those who participated in this were the Misses Dorothy Britt, Nora Livingston, Jennie Livingston, Edna Shopp, Harriett and Jeanette Clement, Messrs. Glen Scott, Ralph Larson, Stanley Coon, John Livingston, "Sonny" Knapp.

## SPANISH WAR HAYWARD CLUB

Republican Spanish War Veterans to Boost for Hayward and Against Tobey.

The Journal notes that a Spanish War Hayward club is being formed in the First district. Among the promoters announced is C. A. Rawls of this city who is on the advisory board. As Mr. Rawls has been absent in quest of wealth in Colorado for some time past and it is generally understood he will remain there, it indicates the Republican organization in this vicinity is very nearly defunct. The club it is stated is to do work against George Tobey in Lancaster county and the presumption is that the name of Mr. Rawls was added to the board to give it eclat and impressiveness. As a matter of fact, the Hayward managers should have selected some one who is still in Nebraska. The following from the State Journal is what the institution proposes to do and who is it:

According to letter heads, a Spanish War Hayward club has been organized in the First congressional district to boost Will Hayward of Nebraska City, who served prominently in that war. The officers of this club are: John Westover of Lincoln, president; George L. Sheldon of Nehawka, vice president; William McClay of Lincoln, secretary; and L. S. Gilman of Havelock, treasurer. An advisory committee, or board, has also been named composed of the following men: Selby R. Beeman of Lincoln, First Nebraska; C. N. Hansen of Bennet, First Nebraska; La Rue Brown of Arbor, Second Nebraska; C. A. Rawls of Plattsmouth, Third Nebraska; Paul Jessen of Nebraska City, Second Nebraska; Fritz Nicklas of Syracuse, Second Nebraska; Edwin D. Fisher of Falls City, First Nebraska; A. M. Huston of Pawnee City, Fifty-first Iowa; John Pope of Burchard, Second Nebraska; Herbert H. Hay of Auburn, First Nebraska; Frank P. Majors of Peru, Second Nebraska; U. G. Sovereign of Tecumseh, Second Nebraska. This club has now more than a hundred members, and from headquarters in Lincoln is preparing to do much to further the interests of its candidate as against George Tobey. Through it, as one factor, Hayward proposes to bid for the vote of Lancaster county, and is not without hope that he may carry off a majority of this county at the August primaries. To that end he has opened headquarters in the Richards block, where he keeps a stenographer and as an active assistance, Selby R. Beeman, formerly watchman at the federal building. It had been rumored that E. C. Strode would undertake to manage the campaign in this county for Hayward, but it is now said that he will do no more than advise with the candidate. Mr. Hayward says he expects to manage his own campaign in each district. He will campaign in a huge touring car, and will in each county take men with him well versed in political conditions in the counties. Meanwhile George Tobey is figuring on about the same sort of campaign, but with different men to aid him.

Miss Katie McHugh spent Sunday with relatives in South Bend, returning to this city this morning.

## WANTS TO START GAS ENGINE PLANT

Gentleman Here to Look Over Prospects for Factory.

From Monday's Daily. The commercial club today is taking up the matter of locating a gasoline engine plant in the city. The gentleman who has the matter up with the club came in this morning and at once took the matter up with the commercial club directors. He has a patent gasoline engine which he insists will burn about one-half the gasoline other engines do and do the same work. It is especially designed for farm work. He wants to locate somewhere in the west and hit upon this point as one convenient to large distributing points. His invention has been explained to the club members and they are enthusiastic over the project. The gentleman was shown over the city by a committee of the club consisting of the Messrs. Wescott and Schneider and he pronounces the city a fine one but he did raise objections to the hills which he saw.

He found, however, that the city had all the advantages which any city could have in the shape of water, power, light, labor and any other really necessary article to do business with. He was given the most careful attention by the committee and this afternoon he held a meeting with the executive committee of the commercial club to take up the matter. It is hoped some deal can be arranged by which he locates in this city in the near future and starts a fine factory.

In connection with this matter, Attorney A. L. Tidd who is one of the live wires of the commercial club, received a letter from a prominent manufacturer of automobiles in the east regarding a location for a new factory in this city. This gentleman has had a good deal of correspondence with Mr. Tidd in regard to this plant for several months past and has been especially anxious to see what the city could do in the line of helping his plant. It is understood that the plant will be capitalized at not less than \$150,000 and that it will furnish employment for several hundred men. The result has been an invitation extended to him to visit the city and look the field over. He has accepted this invitation and will be in the city some time between the 28th and the 1st of July when the committee can show him what they have to offer. Plattsmouth has everything which he can want and the location of this factory it is hoped will be assured by his visit.

The commercial club is sanguine of its ability to land either the one or the other of these two factories and hopes to get both. If this should be the case it would result in a great deal of money being paid out for labor and material and prove a real blessing for the entire community. Mr. Tidd is confident that his man will be willing to deal generously with the local committee and that a bargain can be struck with him. The location of a big auto factory here would be worth while and the mere fact that it stands right here at the mouth of commerce is sufficient to warrant the belief that the location will suit him as well as the people.

### A Happy Surprise.

A very happy surprise party took place last Saturday at the home of Mr. and Mrs. Mark Iles when a number of relatives and friends gathered to have a good time and surprise Mrs. Iles with their presence. Mrs. Iles lives one and a half miles south of the city. The afternoon was very pleasantly spent, there being refreshments served the guests such as ice cream and cake and at the conclusion of the eating, a little dance was arranged which all enjoyed. The party also enjoyed a walk over the Iles garden, the hostess showing the wonders of the yard.

Those present included among others: Mrs. August Norton, Mrs. Etta Parker and two grandchildren, Mrs. John Seagraves and two grandchildren and Mrs. Mabel Iles and son Carl.

Jacob R. Vallery departed this morning for Garfield county, Neb., to be gone several days on a land seeking expedition. Mr. Vallery went to find out if Garfield county really has rain and what the prospects are for a real good crop in that locality.

### Able to Come Down Town.

Will Smith was down town this afternoon for the first time in two weeks, having been laid up that length of time with a very badly bruised foot. Mr. Smith was engaged in unloading a car of coal at the yards of Mr. C. W. Baylor when he received the injury which is a very painful one. He had opened the door of the car, the coal being loaded in a stock car, and had stepped into the car when the coal started sliding down from one end of the car. A 300 pound chunk of coal landed upon Mr. Smith's left foot inflicting very severe injuries. His foot was caught under the mass of coal and pinioned there. Help was at hand fortunately and Mr. Smith was soon released. He was hurried to a surgeon who made an examination of the foot and found that no bones were broken but that the member had been badly crushed and bruised. Mr. Smith was ordered to his home where he has since been until this afternoon when he came down to the city, using a crutch to make the trip with. He is feeling pretty good and believes that he will get along all right from now on but in the future he intends to look out for 300 pound chunks of the black diamonds and to keep his feet in the clear. His many friends will be glad to note his recovery and trust he will soon be himself once more.

### Peculiar Accident.

Mrs. Julia Decker was called to Omaha this morning by a message announcing the very serious illness of her grandson, George Bax, Jr., who suffered a peculiar accident several days ago and who is now in a hospital in that city. Mr. Bax is a carpenter by trade and who was shingling a roof and carried a number of shingle nails in his mouth as is the custom. He accidentally swallowed one of them and the result was he was taken violently ill. He was hurried to a hospital and it was discovered that he will have to undergo an operation to remove the nail which is now lodged in the stomach. His condition is very critical and there is small hope entertained for his immediate recovery. Mrs. Decker is much worried over the young man and got to his bedside on the first available train. It is the hope of his friends in the city that he will speedily recover and that a change for the better takes place at once.

### Departs for Reform School.

Sheriff Quinton departed on the morning train for Kearney, having in charge Earl Morris, the lad who has established such a reputation for being an expert jail breaker. The boy did not seem to be much worried over having finally to go to the reformatory and there are a good many who do not expect him to remain as an inmate of that institution for any great length of time. He seems to be a very keen and intelligent young lad and his eyes are decidedly sharp. He did not make any effort to get away during the time he was at the station but quietly sat in the waiting room and watched the crowd. It will be a relief to the jailer to have the boy out of his hands as he was so slippery that constant watching was required to prevent him taking French leave. The commitment was issued yesterday by Judge Beeson and the boy was hurried to the reformatory by the sheriff at his earliest convenience.

### Married in Omaha.

The Omaha papers this morning report the issuance of a marriage license to Richard M. Schlaes, aged 25, of this city and Miss Anna Priesman, aged 20, of Omaha. It is understood the marriage takes place today. Mr. Schlaes is the proprietor of the Majestic theater in this city and has been a resident here for several months past. He is a popular young man who has made many friends during his stay in the city, all of whom will hasten to extend congratulations to the happy couple and wish them a long and prosperous married life. They will make their home in this city, the groom having a house already prepared for occupancy on Vine street.

Judge H. D. Travis has departed for a trip of several days duration in western Kansas where he is interested in lands. There were a number of Cass county people with him. He expects to be back in time to hold court here Saturday and to deliver one of the addresses at the celebration of the Fourth.
