INDUSTRIES LACK BUOYANGY.

Several Important Trade Centers. However, Send Very Satisfactory Re ports-Quiet Conditions in Iron and Steel-Extensive Curtailment Is Noted in Textile Production.

New York, July 9.-R. G. Dun & Co.'s Weekly Review of Trade says: From several important trade centers very satisfactory reports as to general business are received, but on the other hand there is entire lack of buoyancy in several important industries. All markets pivot on crop reports.

Quiet conditions in iron and steel are to be expected at this season. The reduction in output of pig iron since February is placed at 15 per cent. Production of pig iron during the first half of the year is estimated to be a new high record, however, but stocks have accumulated at many points.

Extensive curtailment of production, amounting in many instances to the closing of large plants, is noted in textile lines. Demand for merchandise at first hands is very limited. Spring lines in cotton are attracting more attention, and underwear and hosiery houses are doing better business. In woolen goods, buying so far is on a limited scale, many agents endeavoring to postpone an early opening to enable buyers to dispose of stocks on hand.

CORN ACREAGE INCREASED

Area is Nearly Five Per Cent Greater Than Last Year.

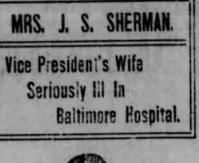

Washington, July 9 .- The July crop report of the department of agriculture shows the estimates of the acreage and condition on July 1:

Corn area planted is 114,083,000 acres, an increase of 5,312,000 acres, or 4.9 per cent, as compared with last year's final estimate. The average condition of corn was 85.4, as compared with 85.1, the ten year average.

The amount of wheat remaining on farms is estimated at about 38,739,000 bushels, as compared with 38,708,000, the ten year average.

The average condition of winter wheat was \$1.5, as compared with \$1.3, the ten year average.

The average condition of spring wheat was 61.6, as compared with

Lincoln, July 8 .- The Wayne normal school, purchased by the state, will be opened Sept. 19. This is made possible by a decision from Attorney General Thompson just filed with the board, in which he holds that it is legal to use the remainder of the \$90,-000 appropriated for the purchase of the school, to maintain it.

State Auditor Barton and Treasurer Judicial Conventions Are Held Brian both have approved the decision, so there will be no hitch. There will be \$20,000 for the maintenance of the school, which is sufficient, Secretary Ludden of the normal board said, to keep it going until the legislature makes an appropriation for its maintenance.

The board will meet July 27 at Peru for the purpose of electing the rest of the faculty and completing the details of the work in opening the school. At this meeting it will also open the bids for the Chadron normal. On July 28, at 10 a. m., the grand lodge of the Ancient Free and Accepted Masons will lay the cornerstone of the new administration building, Henry Gibson of Kearney, the deputy and acting grand master, in charge. It is also the closing of the large summer term. Senator E. J. Burkett will be the speaker and, by request, will give his

EVENING UP IN WHEAT PIT

Only Government Crop Report Has Weight With Traders.

Chicago, July 8 .- Only the authoritative figures of the United States government had any weight today with speculators in wheat. Crop news from the northwest was more calamitous than at any previous time, but the trade had become so calloused that an estimate of 25 per cent for the North Dakota crop seemed to cause no agitation. Business consisted chiefly of evening up. The close was unchanged to %c higher than last night's figures. In corn the finish was 1/4c to 1%c up and for oats %@%c to %c.
