## "DRY" LEADERS AT OUTS

#### H. H. Sawyer Openly Charges W. C. Barber With Misstatement.

Des Moines, July 22.—Although stating that he has the highest respect for the Iowa Anti-Saloon league as an organization, H. H. Sawyer, the newly elected secretary of the Iowa Amendment association, formerly district superintendent of the league, fired his broadside against the superintendent of the league, W. C. Barber.

Over his own signature in the bulletin of the association Mr. Sawyer accuses Superintendent Barber of wilfully misquoting and distorting the wording of the section of the constitution of Iowa providing for the revision and amendment of the constitution. This was done by Superintendent Barber, says Mr. Sawyer, to mislead the temperance people into believing that a constitutional convention could be called for the sole purpose of adding a prohibitory amendment to the constitution. Instead of securing constitutional prohibition the convention would defeat it by introducing other revisions and amendments for discussion and the real purpose of the call of the convention would be lost, believes Mr. Sawyer.

To find out which of the two methods the temperance people of Iowa are more willing to accept, Mr. Sawyer has written a circular letter, in which he asks for criticisms and opinions and says that he is willing to abide by the opinion of the majority.

The fraud against Sutor was one of the deals of the Mabray gang in Council Bluffs. Martin had gone to Cass Lake several months before the "race" was pulled off and he had managed to get into the confidence of Sutor, who was a hotel proprietor and banker. He finally persuaded Sutor to journey to Council Bluffs to assist in helping to clean up a few "millionaires." Sutor fell to the game to the tune of \$5,000. As soon as he found that he had been swindled Sutor gave chase after Martin, following him to Little Rock, where he escaped. Martin has managed to elude the authorities until this time. He is under indictment in the federal courts both of Council Bluffs and Omaha, but he will probably be brought to Council Bluffs for trial.

## GERMANY AGAIN EXPELS MORMONS

### Twenty-one Missionaries Conducted to Frontier.

### MOST OF THEM AMERICANS.

#### Government Takes Position That Their Teachings Are Subversive of Morality and From Time to Time Many Have Been Expelled—Few Germans Arrested Are Released.

Berlin, July 23.—Herr Dalwitz, Prussian minister of the interior, on recommendation of the political police, has signed orders for the expulsion of twenty-one Mormon missionaries, most of whom are Americans or Englishmen, and they were conducted to the frontier.

The missionaries had assembled from various parts of Germany at the Mormon headquarters on the east side to meet Superintendent McKay, an American resident in Switzerland.

They were holding a service when an agent of the political police, who was seated in the audience, rose and declared the gathering dissolved. At the moment several members of the criminal police appeared and virtually took the congregation into custody.

The women were asked to leave the place and the men were examined as to their nationality. Those found to be German subjects were released, while the others were requested to accompany the officers to the police presidency.

There, after further examination, they were permitted to go to their lodgings to await the issuance of writs for their expulsion.

The status of the Mormons in Germany was taken up in exchanges between the foreign office and the American embassy in 1903, when the government took the position that the teachings of the missionaries were subversive of morality.

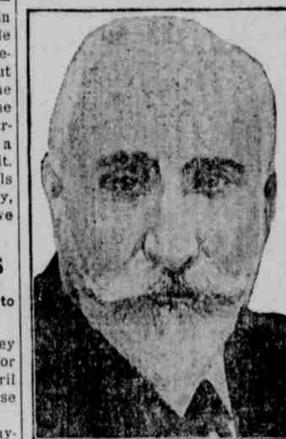

It was then arranged with the Mormon superintendent, through the American embassy that all Mormon missionaries should leave the country within a month, transferring the middle European headquarters from Berlin to Switzerland.

The authorities state that in recent years the Mormons have disregarded the understanding of 1903 and from time to time individual missionaries have been apprehended and expelled.
