

## Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., Buffalo, N. Y.

### Wheat Crop Heavy.

In conversation with Mr. Wheeler of the Gorder Implement store, the writer learned that the wheat crop of this vicinity has been exceptionally good this season. The above named firm having sold eleven thousand pounds of twine already this season. T. E. Todd living west of Plattsmouth a few miles had the heaviest wheat this year he has raised for some seasons. Mr. Todd, by the way, adopted a novel idea for power to run his binder this season, and found that his scheme worked fine. He had attached to his binder a three horse power engine, to which he geared the sickle and binder device, then with his two gray horses proceeded to harvest his crop of wheat. The load seemed light for the span of horses, which stepped around the field as if attached to a spring wagon. The plan saved the work of at least three more horses as the exceedingly heavy grain would have required not less than five horses to have operated the machine.

Any lady can get a silvered "No-Drip" Coffee Strainer by writing Dr. Shoop, Racine, Wis. Send no money. Simply ask for the "No-Drip" Coupon privilege, giving your address. Dr. Shoop will also send free his new and very interesting little book describing Dr. Shoop's Health Coffee. Health Coffee is such a close imitation of real coffee, that it requires an expert to tell the difference. And neither is there a grain of real coffee in it. Made from pure toasted grains, malt and nuts, its flavor and taste is exceedingly gratifying. No tedious boiling either. "Made in a minute," says Dr. Shoop. Write today for the book and "No-Drip" Coupon. Sold by F. S. White.

### The Influence of the Sun.

The sun has a great and useful influence on our body and we should, as much as possible, enjoy sunshine. It enriches our blood and this means health and strength. Although the blood does not need as much nourishment during summer, as it does during the winter, we must be very careful to preserve a healthy appetite. As soon as we feel any change in it, Triner's American Elixir of Bitter Wine should be used. It will sharpen the appetite and strengthen all organs of the digestion. This remedy is a great help in all diseases of the stomach and of the intestines, because it will clean out these organs and at the same time give them new vigor. Use one-half of a wine glassful three times a day before meals, and note the excellent effect. You will have a good appetite, pure blood, strong nerves. At drug stores, Jos. Triner, 1333-1339 So. Ashland ave., Chicago, Ill.

**FOR SALE—A snap.** Three room house in good repair with new well and pump and outbuildings. Good garden covering the greater part of two lots. One lot with house. Title clear. Close in and handy to shops. Price \$450. Terms can be arranged. Inquire at the Journal office.

Floyd Chalfant and wife departed this morning for Burwell, Neb., where they will make a visit of several days with friends and relatives. They drove up this morning from their home near Murray to take the Burlington train.

Riley Jones made a flying trip to Omaha this morning accompanying Mrs. Nels Jones that far on her journey to Mound, Mo., where Mrs. Jones will reside with her son, Will Anthony.

## COUNTY TEACHERS' INSTITUTE

All Arrangements Perfected for the Gathering, Beginning August 8.

County Superintendent Miss Foster, informs the Journal that the arrangements for the county annual institute which begins here on August 8th are nearing completion, and the coming session bids fair to be the best institutes held in the county. This is the first institute held in Plattsmouth since C. S. Wortman was superintendent. The Plattsmouth people will enjoy a treat, if they realize what the lectures are worth and encourage them by their presence.

The program will be one of the best ever offered to the teachers of this county. Dr. A. E. Winship of Boston, said to be the finest educator in the United States, is to be here and deliver a lecture each day, and it is more than likely that he will be invited to use the opera house on one occasion.

The domestic science department will be one of much interest, and the ladies of the city are especially invited to hear Miss Gertrude Rowan, who will lecture each day from 10 to 11:30. There will be one session of this department in the court room.

Other lecturers of equal interest on various topics will be heard during the institute. There are from 130 to 150 teachers in the county, and with the public which is invited, the session will be full of interest. On Monday evening there will be a reception tendered the teachers and instructors and guests, to which everyone is invited who has any interest in educational matters.

The people of the city have responded quite well to the request of Miss Foster to open their homes to the teachers, but a few more places could be used. Miss Foster hopes the sessions may be well attended by the ladies and others in the city, so that the speakers may feel a degree of inspiration in their work. This will add much to the success of the institute.

### The Hottest Yet.

Last night was the warmest night of the summer so far. The government thermometer at the Burlington station hovered around 76 above all night and sleep was almost out of question. There seemed to be a great deal of humidity in the air and the night was one of the most uncomfortable spent in this locality in many years. Yesterday was an excessively hot day and the fall in the temperature when night came on was not sufficient to make any great change in conditions as the humidity rose with the coming of night. Operator Moore of the Burlington, states that the temperature during the night did not vary very much and but a few degrees separated the early evening register from that of this morning.

This morning started in with every prospect of shattering all records for the year for heat, the sun blazing down with relentless fury upon the earth which is dry and which the small rains of the past several months has failed to revive to any appreciable extent. There was a breeze which tempered the heat to a degree but even with it, the day was most uncomfortable and disagreeable. Indications point to the probability of thunder storms for some days yet to come and there is no indication of a change which will be of permanent benefit to crops and people.

The promise of the early morning of a hot day has been borne out by the facts registered by the thermometer this afternoon. At different places the temperature registered varied to a considerable degree. It ranged from 102 to 106 along the street owing to the location and it proved easily that today was the hottest day of the year easily. The heat is scorching and burning things in all directions and will do irreparable damage if it is feared. There is small show for relief and little indication of lower temperatures at any place. People as well as animals are suffering from the excessive heat and much complaint is heard on all sides concerning the weather.

Old Sol this afternoon just to show he was a good fellow pushed the liquid in the government gauge up to about as high a point as ever existed in the memory of man. The scale at the Burlington station marked 108 degrees which is something marvelous and which has not been approached since the great drought summer of 1894, sixteen years ago. The heat as the afternoon wore on was almost intolerable and man and beast suffered alike from it. Reports from the country are rather gloomy and indicate great loss and damage to the growing crops from the severe heat.

### Dr. Elster Sells Dental Parlors.

Dr. W. B. Elster, the dentist and city clerk of the city, today concluded the sale of his dental parlors and business to Dr. R. N. Ransom of Brock, Neb., and within a few days Dr. Ransom takes possession. Dr. Ransom comes to the city with the best of recommendations, being a graduate of the Omaha Dental college and a modern and up to date dentist. It is announced that Dr. Ransom intends to refit the Elster parlors with the most modern and up to date dental instruments and that he will proceed to give the public the very best of service with the latest and most approved methods in this work. He bids fair to make good here and to add to the large and lucrative practice which Dr. Elster has built up. The plans of the latter gentleman are not announced and it is probable that several days will elapse before he can definitely announce just what they will be. The many friends of Dr. Elster and his estimable wife will hope to have them remain in this city or in the event of a change that they move but a short distance away where they may be seen often. They have a large circle of good friends here who will hope for their future success and prosperity wherever they may go.

## KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Plattsmouth People Know How to Save It.

Many Plattsmouth people take their lives in their hands by neglecting the kidneys when they know that these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Plattsmouth citizen's recommendation.

J. L. McKinney, Lincoln Ave., Plattsmouth, Neb., says: "Doan's Kidney Pills procured from Gering & Co.'s drug store, have been used in my family and have brought prompt relief from kidney disorders after other remedies failed. In 1906 I publicly recommended Doan's Kidney Pills for the benefit of other kidney sufferers and at this time I have no reason whatever to withdraw one word from that statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Convention a Hot One.

J. E. McDaniel returned this afternoon from Grand Island where he was in attendance upon the Democratic state convention. He reports the gathering to have been a monster one and one in which the fire few from the start to finish. Although he went out to Grand Island on Monday he was unable to get a room as the city was overrun with visitors, there being a great crowd on hand for the gathering. The convention was about as lively as the Nebraska Democrats ever had in this state and when they had finished county option was certainly a dead duck so far as their platform was concerned. The convention itself was a large one and the two sides of the option question were presented in a brilliant and able manner. The sentiment of the convention, however, was so distinctly anti-option that there was never any doubt as to the outcome. Mr. McDaniel feels that prospects for a sweeping Democratic victory this fall are bright despite the fierce undertone of the convention fight. The sentiment was to defeat county option and the pronounced position of the Republicans on the matter precluded anyone voting with them this fall.

### Locates in Omaha.

Dr. W. B. Elster after the 15th of August will be found in his elaborately furnished parlors on the sixth floor of the City National bank building, Sixteenth street, Omaha. This is the new sky scraping building just being completed and can be seen for miles towering above all others in the city. The doctor's numerous friends note with pleasure his advancement and progress in his chosen profession. He has been very successful in the practice in this city and will no doubt soon become popular with the Omaha public. The Journal yesterday noted the fact that the doctor had sold his practice here, to give possession August 15th, when the offices in Omaha will be ready for occupancy.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This Liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by all dealers.

## NEGRO NAMED FRAMPTON HELD UP AND ROBBED AT UNION, NEBRASKA

Victim Is Stripped of Clothing and Tied to Railroad Track—It is Thought to Be Work of Tramps.

Union, Neb., July 27, 1910.—(Special.)—This village and vicinity is considerably wrought up over a daring holdup and robbery which took place night before last at a point near the Missouri Pacific depot and which might have resulted in the sacrifice of a human life as well. The victim of the crime was Pete Frampton, a negro and a brother of Hall Frampton who was sent to the state penitentiary at Lincoln several years ago from Nebraska City. The victim was also a brother-in-law of Thomas Mason, a negro, well known in the vicinity of this place and other points in southern Cass county.

Frampton was employed in the stone quarries at Nehawka and had been to Omaha for a day or so. Returning home on Monday evening he was seated on a truck at the Missouri Pacific station when he was approached by a white man and a negro whom he is unable to describe and whom the authorities have small hopes of locating. These men thought that Frampton had been drinking and that this was a fact seems evident although there is no proof in sight to bear out the assertion. They approached Frampton and told him that they had something to drink hid out down the track from the depot and invited him to share in it.

Frampton was in favor of this and proceeded to walk down the track with them for a distance estimated at about 2,300 yards. Here he suddenly found himself confronted with a drawn revolver in the hands of one of the men and told to stand and deliver. He thought the men were joking and at first, was not disposed to pay any attention to the command but suddenly he found that it was not a joke but a grim reality which he was confronted with. The two men made him undress down to the last garment which covered his nakedness, threatening him with death if he

failed to follow their commands. They told him they would blow his head off if he did not do as he was told and after he had done what they commanded him to do, they proceeded to tie his hands behind him and to bind his feet together.

They then left after threatening him with death if he made any appeal for help. They laid him down beside the railroad tracks after they had bound him and left him in such a position that a passing train might have easily run him down and destroyed him. It was probably an hour or so later before he raised a cry for help which attracted the attention of some of the residents and which caused a searching party to be sent out. This party located him and released him from his fetters.

The booty secured consisted of his clothes and \$5 in money which he had. So far no clue has been discovered as to the identity of the men who perpetrated the outrage and there is small reason to believe any will be found. The impression which prevails is that Frampton was held up and robbed by some tramps who were traveling through the town from Kansas City to Omaha or from the latter point to the former and who had seen Frampton setting on the truck and concluded he would be an easy mark.

There has been a large number of tramps passing through this place for some time now, some en route to Omaha and others to Lincoln from the south. This place being a junction point for the two lines, makes it a difficult point to keep free from these people and there is a good deal of wonder expressed that robberies and holdups are not more frequent or that more serious crimes do not take place. The citizens are becoming tired of the constant incursions and troubles which are being caused by the presence of the tramps and they are in favor of putting a speedy end to it.

### Will Marry in Omaha Today.

A bridal party left the city this morning for Omaha where the nuptial knot will be tied today. The party consisted of the groom, Cornelius Bengen, the bride-to-be, Miss Irene Bradway, and Mr. and Mrs. John Stones, the latter being a sister of the groom. The parties to the ceremony are well known in this city and vicinity, the groom being a son of C. Bengen and wife, the well known citizens of Mynard. He is a most industrious and energetic young man and one who stands very high in the community for his ability and his sterling worth. He is a young farmer who is thoroughly at home in his business and who can refer with pride to the splendid work which he has done during the time he has been farming for himself. The bride is a very popular young lady of this city, a daughter of Mrs. John Geiser and a young lady who has many very excellent friends in this city and locality. Both of the contracting parties are personally very popular in this locality and have many good friends who will be glad to note their depart-

ure upon the matrimonial seas and who wish them the greatest of success in their venture upon married life.

### Notice to Farmers.

We are now in the market for all the chickens, ducks, geese or any farm poultry that you might have.

We also have the agency for the Bloomer Creamery at Council Bluffs and will buy all the cream you bring in. Pay you cash and test it the same day you bring it in. Try and sell your cream one month and see if it is isn't easier and more money in it than to make butter.

Also, our auto delivery is out in the country every day. Call us up and get your meat or groceries for thrashing. Always call us the day before you want the goods so we will get the order before we start as we start early in the a.m.—Telephone No. 4.

Yours For Business,  
Hatt & Son.

Mrs. C. R. Burdick is spending a few days visiting at Des Moines, Ia.
