RETURN FROM SOUTHERN TRIP

Mr. and Mrs. James Sage Visit Texas and Oklahoma Points

James Sage and wife who went on an excursion with the Burton D. Hurd Land company to near Galveston, Texas, two weeks ago, returned Thursday evening well pleased with what they saw in Texas.

Mr. and Mrs. Sage speak very highly of the treatment given them by Mr. Hurd's company, every attention was shown them and their every comfort looked after from the time they left Kansas City until their return.

Mr. and Mrs. Sage left Plattsmouth on the 19th day of July, going direct to St. Joe, Mo. The crops between this place and St. Joe are not very good, but there will be some corn, the small grain seemed to have been good from the appearance of the fields.

From Topeka, Kan., to the gulf there will be almost no corn as the hot winds have cooked the corn crop in that locality. Through Kansas and Oklahoma the wheat and oats crops were good and the shocks of grain were thick in the fields. The cotton crop in southern Oklahoma and Texas was good and will make almost a full crop.

The Hurd Land company is developing an irrigating plant extending over a large area of country surrounding Matagorda, taking the water from the Trespalashes river and conveying it into large canals and storing it for future use. Thousands of acres have been placed under the ditch and will be used for rice growing. Huge pumping stations with pumps which will throw a stream of water four feet in diameter have been constructed and the water was to have been turned on two days after Mr. and Mrs. Sage left the place. A new town has started and has something over a thousand population, and the town is not yet a year old. The company are offering these lands in tracts from five acres to 160 acres. The lands which were selling six months ago at \$35 per acre are now selling at \$50 and \$60 per acre.

The colony is about twelve miles from Galveston, and the climate is excellent. While the sun was hot through the day, yet in the shade the breeze from the gulf was cool and refreshing.

The travellers went bathing in the Matagorda bay and enjoyed the stimulating effect of the salt water, which they found invigorating. They spent a week looking over the Hurd company's proposition in company with the car load of prospectors which the company had brought from Chicago and picked up en route. Several sales were made while others were so much interested in the enterprise that they declared their intention of visiting the place again.

The fruits of the tropics were in abundance; lemons, oranges and figs were in evidence, peanuts was a staple crop there.

Mrs. Sage brought home a specimen of the "Sweet Magnolia blossom" which had not lost its beauty though the delicate perfume which it had was gone. The perfume of the Magnolia in bloom is like that of the tube rose very delicate and sweet.

After spending the week at Blessing, Texas, near the pumping plant of the company, Mr. and Mrs. Sage went by boat for twenty miles on the Matagorda bay and the river leading into it. They then returned to Oklahoma and spent a short time at the farms of Mr. Sage near Minco, then going to Oklahoma City they stopped there a short time and visited friends. The crops about Minco and El Reno are burned up, that is the corn crop, the small grain there was fairly good.

Mr. and Mrs. Sage were well pleased with their southern trip and expect to visit the Texas proposition again before long.

Avoca Defeats Syracuse.

Avoca, Neb., August 6.—(Special to the Journal.)—Avoca defeated Syracuse in a fast ten inning game here yesterday by a score of 5 to 6. The game was a beauty from the start, and the teams were evenly matched. Avoca plays Nehawka here Saturday. Following is the score: Avoca... 2 2 0 0 0 0 0 0 2—6 Syracuse... 3 1 0 0 0 0 0 1—5 Batteries: Gruber and Gruber; Keithley and Saman. Umpire: Graham.

Miss Rena Johnson of Lincoln, Harrison Bridge of St. Louis, Mo., Terry Johnson of St. Joe, Mo., Misses Pearl and Muriel Henton of Mynard, are guests at the home of Mr. and Mrs. J. W. Johnson. Harrison Bridge is a son of Mr. and Mrs. Joe Bridge, who formerly resided in this city, living where J. W. Bookmeyer and family are now residing.

Thayer County Crops Good.
Mrs. Harding of Hebron, Neb., was in the city yesterday attending a meeting of the finance committee of the Degree of Honor. Mrs. Harding says that the crops in Thayer county are generally good, occasionally there is a poor piece of corn where the farming was poor. A two inch rain fell there last Sunday which put the corn crop on the way for enormous yield. The corn had not suffered for rain at all this season in that locality. It will take one or two more rains yet to make the crop, but these will not be needed for two weeks or more. The small grain crops were heavy, wheat and oats making an excellent yield.

ANOTHER MANUFACTORY STARTED

McMaken & Sons Have Purchased Machinery for Making Grave Vaults.

McMaken & Son have just ordered machinery for making cement fence posts, and a machine for making building blocks. This enterprising firm has already constructed a number of cement grave vaults of the Stephens patent and have them ready for use. These vaults are air tight when in place and water proof also.

The whole of the basement under their double office building is devoted to the manufacture of concrete into one useful and durable device or another. Their display of porch posts is remarkable. They have on hand models and samples of their work including various designs of these porch posts. They are square-pannel, smooth round, fluted round, with bases of different designs. The firm have already made several Grecian lawn vases, which will be an ornament to any porch or lawn in any city. A large variety of moulds have already been secured at much expense and McMaken & Son are going to be strictly in the concrete business. There will be nothing in this line which will not be made where there is any call for the goods. A number of men will be employed steadily and the block and post business will no doubt be large. Some of the best residences in other cities are constructed of concrete blocks. Colonel McMaken has made an effort to buy lots adjacent to their office building so as to have room to place their manufactured articles and this would render the storage question easy. And in a short time the premises will look like a marble quarry if the help can be gotten to push the industry.

W. C. T. U.

The social meeting of the W. C. T. U., was held yesterday afternoon at the home of Mrs. L. A. Moore. The day being pleasant a goodly number were present. The department of franchise was the study of the day and was under the leadership of the president, Mrs. Kerr. After the business was dispatched, the program of music, readings and addresses was thoroughly enjoyed. The hit of the meeting was the little poem, "Direct from Home" given by little Miss Anna Miller in a very practical manner. Light refreshments were served and all felt that a pleasant and profitable afternoon had been spent.

The union was glad to welcome Mrs. Vandercook who has for so many months been laid up with a broken ankle. The county convention will be held at Weeping Water on 23 and 24 of this month and a large delegation from Plattsmouth hope to attend. A letter from W. R. Jackson, candidate for state superintendent read and endorsed. Next meeting on August 15.

Fair Association Disband.

The Nehawka Fair association met Monday afternoon and voted to turn the remaining funds, about eighty dollars' over to the commercial club, and putting the matter of an annual entertainment up to the organization. This action was taken because of the fact when the commercial club was formed last winter, it was the understanding that they would provide for all social entertainments for the benefit of the town. The matter of fair is now up to the club who will meet in the near future to decide.

There did not seem to be much enthusiasm in favor of having anything in the nature of a fair, largely on account of the conditions of crops. However, the people around here can rest assured that we will have something if it is nothing but a good old fashioned picnic.—Nehawka News.

The Misses Burgess of Cedar Rapids, Neb., who have been guests of their grandparents, Mr. and Mrs. A. W. White for a few days, departed yesterday for Nebraska City where they will visit friends for a short time.

THE OLD PIONEERS OF OTOE AND CASS COUNTIES TO MEET AGAIN

The Annual Reunion Will Occur at Town of Union on Friday and Saturday, August 19th and 20th

Once more the old settlers of Otoe and Cass counties will mingle with each other at Union on Friday and Saturday, August 19 and 20. These annual gathers are looked forward to with great pleasure by the pioneers of these two counties, as they come together on these occasions and talk over the hardships which surrounded them in the early settlement of Nebraska. The good citizens of Union make every effort in their power to make their reunions pleasant for all who attend, and this year will be no exception to the rule.

If possible, the reunion will be much larger and much more interesting than ever and the good people of Union will spare no pains to make it such. They are preparing an excellent program for both days. On Friday, August 19, Mayor Dahlgren of Omaha, one of the Democratic candidates for governor, will be present to address the people. Other local speakers will also be present. Other interesting features will be presented, such as vocal and instrumental music, declamations, etc. On Saturday, August 20, A. L. Bixby, of the Lincoln State Journal, will be the principal speaker, and he is a good one.

Other speakers will be there on this date, and deliver addresses on the early settlement of southeastern Nebraska, and especially that portion which is composed of Otoe and Cass counties.

The grove in which the reunion is to be held is an ideal place for such gatherings, and the grounds will be supplied with everything to make the old pioneers feel at home. For the younger generation amusements to interest them will be arranged for. A good ball game will take place each day, and several different races will take place each day. The M. W. A. band of this city will probably furnish music for both days and this will insure music galore. The Red Men of this city are arranging to attend en masse and camp on the grounds. In fact, everybody that can get away, will go down and attend at least one day. Those who have attended these reunions know it will be hard to improve on those held in the past, but the people of the thriving and energetic village of Union are going to show the people who will be there that this year eclipses all past records. Friday and Saturday, August 19 and 20, will be veritable red letter days for Union.

RED SOX AT HOME AGAIN

They Win Third Game at Malvern, and Get the Fifty Dollars.

The Plattsmouth ball team won third place in the contest at Malvern with teams from Omaha, Council Bluffs and Malvern. Manager Ed. Brantner says he was up against a stiff proposition at Malvern which he will not encounter again. In the future meet at Tabor every team will be allowed twelve players, and the names of the men have to be registered before the game opens. At Malvern, the team from Council Bluffs and Omaha exchanged players, having fresh men on the diamond every game, while the Red Sox played the same men from start to finish. The score in yesterday's game stood 5 for Plattsmouth and 4 for Malvern. The surroundings were not of the best, as the boys were out most of the night, and the tents were so cold that sleep was impossible. Some of the men have had colds from the exposure.

With a day to rest the team expects to be in shape to clean up the Invincibles in the game tomorrow.

The prize taken at Malvern was \$50, but with the expense to meet, the management will be \$20 to the bad. There are many different opinions as to the cause of the loss of the second day's game, hardly any two of the opinions are the same. But we hope the boys will buckle down to business from this on and regain their lost ground. There are some very important events in the future, and the team has yet sufficient opportunity to get back to their old form.

Will Put in Furnace.

Rev. Hartmann, pastor the church, accompanied by Wm. Rahwinkle, Herman Schlierfert and son Oliver, were in the city today to examine the heating plant in the Methodist church with a view of having a like plant put in the Lutheran church near Louisville. The party composed some of the best citizens of Cass county. They came down by the auto route and departed on their return about noon.

Harry Graves of the Union Ledger today closed a contract with the Red Sox management for a game by our boys at the Old Settlers' picnic which begins a two days session at Union August 19th. The Red Sox will be pitted against the All Stars of Lincoln. This team is the team the home team cleaned up July 4th.

MORE ABOUT PLATTE BRIDGE

The Structure Will be Modern and Will Surely be Built.

Since the article appearing in the Journal of yesterday came out, a representative of this paper has talked with Mr. Pollock and he confirms the item of yesterday and kindly exhibited a blue print map of the intended bridge. The bridge will consist of three steel spans similar to the Burlington and M. P. new bridges, sixteen feet in width, and forty-five wooden spans each thirty-two feet in length, ten feet wide with turn-outs, for the passing teams. The bridge will rest on thirty foot piling driven into steel tubes which will be filled with concrete, rendering the structure impregnable to ice gorges. The floor will be three inches thick and rest on 4x16 inch stringers to be of fir or wood equally durable. The bridge will be constructed just as soon as it can be done, after the preliminary steps are completed. Their right of way has been secured on the north side of the river, and only a short distance yet remains to be secured on this side.

The promoters propose to have the county open the road to the bridge, which will be located east of the Burlington bridge sixty feet. The enterprise is a good one and will be a great accommodation to the travelling public.

Invited to Hit the Pike.

The police were called to the White Elephant building last night to quiet two rebellious females who were making the night hideous with profanity and vile language. The force found there two women in a beastly state of intoxication. They were in company with a young man who claimed to be a fireman on the Burlington. The young fireman had been a boarder at the Perkins, but had changed his boarding place for the reason that he frequently was called out in the middle of the night and he wanted to be in a place where he could get his meals any time in the night. The trio were hauled before Judge Archer this morning where the women gave their names as "Daisy Oaks" and "Hat Worth." A plea of guilty was entered to the charge of drunkenness and foul language. The judge then drew forth his celebrated brand of justice and assessed \$50 and costs to each of the women and \$5 to the fireman for being in bad company and taken in a house of ill-fame.

The magistrate kindly informed the women there were three ways out of the difficulty for them: pay the fine, go to jail, or leave the city. They chose the latter and the court then suspended the sentence until 2 p. m., to allow them time to pack their belongings and get out of the town.

Adam Fornoff of near Cedar Creek was in the city this afternoon looking after his Saturday shopping

NEHAWKA. (News.)

Mrs. Kirkpatrick was a Council Bluffs and Omaha visitor the last of the week.

Little Letha Porter ran a rusty nail in her foot last week and has been unable to walk on it since, however, it is getting better.

Otto Carroll and wife went to York Tuesday in their automobile for a short visit to his brother. They were accompanied by Mr. and Mrs. E. E. Hadley.

Mrs. Rogers and grand daughter, Marie Kirkpatrick, left Thursday for their home at Denison, Texas, after a six weeks visit at the Kirkpatrick home. Needless to say there is a great big vacancy over there now.

John Whiteman was in town Monday for the first time in over a week, and then he came on crutches. He stepped crooked on his ankle some time ago and sprained it so badly that he has been unable to walk on it since. John says he is trying to prove the truth of the old saying that misfortunes never come singly.

Alfred Beckner, wife and daughter and sister from West Virginia, are here visiting their relatives, the Plybon's and old friends. Louis Beckner and wife drove up from Nebraska City with them Tuesday and spent the day at Uncle Ben Hoback's. They will spend a few weeks in this vicinity and then expect to go on to South Dakota for the rest of the summer.

Nehawka citizens have recently signed a petition, expressing a strong preference for Professor E. E. Collins to be retained in our school for next year. This petition is signed by about ninety persons. Professor Collins has the respect and confidence of his patrons and pupils. He is a young man of industrious habits, clean, moral, pleasing personality and strong teaching ability. It will be a keen disappointment if he leaves Nehawka school this coming year.

Why Are Eggs High?

There seems to be no real good reason for the continued high price of eggs. The assessors report for the year for Cass county, 1910, showing that the poultry valuation in Cass county has doubled in the past year. The same is true for the other counties of the state. The assessed value of poultry for the year 1909 for this county reached the sum of \$10,441, as again \$5,772 in the year 1909. At the same rate of increase over the state the showing is a big thing for the poultry industry, and it would seem that the price of eggs may some time show a slight decrease.

Will Dance Thursday Eve.

Next Thursday evening the Jolly Six club will give another of their popular dancing parties at the Coates hall. The music will be given by the M. W. A. orchestra, and a fine crowd and enjoyable evening is anticipated. You are invited to come and bring your lady friend and the committee will endeavor to make you have a pleasant evening.

Henry Horn and family drove in from the farm this morning and did their Saturday trading.

YOU may think you don't need any more clothes; but you better think twice before you pass up this opportunity. We sold two suits yesterday to traveling salesmen; they saw suits in the windows at our "Oust 'em Out" prices and came in and bought.

Neither of the men were under obligations to buy of us and the thought of buying a suit in Plattsmouth had never entered their heads until they saw by our windows what wonderful values we are giving.

These men will each get the satisfaction of the new suits now and through the fall, and have them for the next season. It's a good idea.

["Oust 'em Out" Prices

\$10, \$14 and \$18
