REPAIRING DONE RIGHT!

a little more stick practice.

Both pitchers did good, Case allowing 3 hits while Bardwell allowed 2.

Case had the better of Bardwell in the number of strike-outs—7 to 5.

Peterson never got a chance on third base, something unusual for a third baseman.

Case pitched a good game all the time and with the proper support the result would have been different.

One hour and ten minutes is pretty fast ball playing which time is credited to the Plattsmouth-Union game.

Umpire Faber is giving universal satisfaction, there being no complaint on the part of the players or their admirers.

The features of the game was the batting of McCauley, Hoback and Eaton, the fielding of Droege, Connors and Case.

Bardwell pitched a good game and he was supported to the high standard of every possible chance being accepted by the home team.

Tomorrow afternoon all the city schools will close in order to give the teachers and children a chance to see the games. This is indeed very generous on the part of Superintendent Gamble.

The Manley battery, O'Brien and Klepser, played good ball, closing the game with 14 strikeouts to their credit, being by far the best work of the day, but the support was poor, and all were rather slow with the stick.

The attendance was light yesterday owing to the threatening rain, perhaps 250 people in all. If the weather will permit the attendance will be large today, as all the business houses will be closed to attend the game, giving all the clerks and proprietors a genuine half holiday.

Plattsmouth played what can be termed an errorless game with Union, while the same might be said of Union but with few exceptions, Keithley behind the bat making many very costly ones, letting one man pass over the home plate and running bases from passed balls. It was surely an off day for Keithley.

RAY SMITH AND MISS DOMINGO MARRIED IN OMAHA

S. Ray Smith of the city and Miss Ellenora Domingo of Weeping Water went to Omaha yesterday and were quietly married the same day in the presence of a few friends. Mrs. Sam Smith, mother of the groom, accompanied the wedding party to the metropolis and witnessed the happy event.

S. Ray Smith is the son of Sam Smith and wife of this city and is a popular young Cass county teacher. He graduated in the high school here two years ago and is a bright, enterprising young man. The bride is the second daughter of John Domingo and wife of near Weeping Water, and is a young lady of polish and refinement. Mr. and Mrs. Smith have hosts of young friends who wish them long life and happiness.

Miss Marie Kaufman of Cedar Creek was in Plattsmouth today looking after business matters.

NEHAWKA.

(News.)

There has been a gang of telephone workers around the town for the past week and the wires have been sadly disarranged during that time.

Mrs. Snively and son, Carl, visited Friday and Saturday at W. H. Porters. Mrs. Snively is a sister of Mr. Porter and lives on the Fries place south of town.

Peter Opp moved Wednesday into the house he recently purchased from Ben Tucker, while Mr. Tucker has moved into the mill house.

E. A. Kirkpatrick returned on the early train Thursday morning from Omaha where he had been to visit his brother, Lee, who is sick in the hospital there.

Charles Chriswiser has the foundation to his house and barn completed and with a good force of carpenters at work will rush them both to completion. This will make a substantial improvement to the town of a kind we need. In fact several more good houses would find ready occupants.

The Missouri Pacific had another wreck this week. A freight engine and caboose jumped the track between here and Weeping Water Tuesday afternoon and laid the four o'clock passenger out for nearly three hours. One lovely thing about the good old Missouri Pacific is they never run fast enough to hurt anyone when they go in the ditch.

F. P. Sheldon, A. F. Sturm and F. L. Nutzman returned Sunday from their trip through Colorado and the west. They report a pleasant trip and that crop conditions out there are very good. Through June and July there was deficiency of water in the irrigation ditches but they have had an abundance of rain the past month and things have improved wonderfully.

E. D. Van Court, principal stockholder in the Nehawka Stone company, was down from Omaha last week and while here made arrangements to install a new crusher at the west quarry. It will be of the disc type and will have a capacity of about eight cars of one inch stone per day. The machine will cost something like \$2,000 and will greatly enhance the output of that particular quarry.

A Good Position.

Can be had by ambitious young men and ladies in the field of "wireless" or railway telegraphy. Since the 8 hour law became effective, and since the wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$80 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. R. and Wireless officials and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., Philadelphia, Pa., Memphis, Tenn., Davenport, Ia., Columbia, S. C., or Portland, Ore., according to where you wish to enter.
